- **Operating income growth** excl. special items: **Narrowed** | range between flat and negative mid-single digit percent at cc (2025 base: EUR 2,212m).

1. Adjusted for special items.
2. Organic growth represents growth in revenue, adjusted for certain reconciling items including revenue from acquisitions, closed or sold operations and differences in dialysis days and presented at constant currency.
3. Mainly related to the China strategy refinement which primarily resulted in impairment of capitalized development costs, termination costs, accelerated depreciation of a production line, as well as inventory and fixed asset write-offs.
4. The Company transfers products from the Care Enablement segment to the Care Delivery segment at fair market value. Services provided by the Care Delivery segment for patients managed under the Value-Based Care segment are also provided at fair market value. The associated internal revenues and expenses and all other consolidation of transactions are included within “Inter-segment eliminations”.
