LETTER TO THE SHAREHOLDERS

Dear shareholders, dear friends of the company,

2025 was an exciting year—and a significant one. In May, we concluded a landmark transaction with the merger of Fintiba GmbH and Expatrio Global Services GmbH. Little did we know where this was heading when we acquired a minority stake in Fintiba in 2021. It is a testament to the continuous focus on strategic priorities and the entrepreneurial spirit of the teams involved that what started as a minority position grew into a category leader in financial services for international students and expatriates.

2025 also marks our strongest year in inorganic growth in the Public and Enterprise segments, with 16 companies joining the group. Our segment structure gives us focus and discipline—we invest where we understand the customer, the product, and the path to value creation. To support this pace of growth, we successfully issued our corporate bond, raising EUR 72 million—giving us additional financial flexibility to continue building the group.

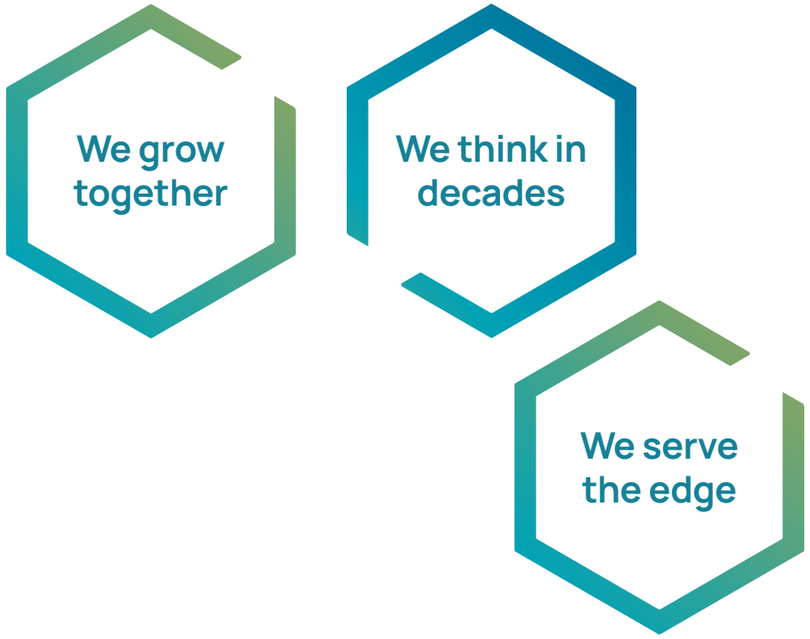

In addition, 2025 was the first full year of the Manuscript Method in action, delivering real, measurable organic growth. The foundation we have been building is starting to compound. Looking into 2026, organic growth is accelerating even further across the group.

We operate in a decentralized model built on autonomy. Decisions are not made centrally; authority rests with the teams closest to the customer. To make that work, clearly defined parameters and accountability are essential. The Manuscript Method strengthens both. By aligning strategic priorities, benchmarking performance, and supporting our management teams in pricing, organization, and talent development, it translates decentralized entrepreneurial strength into group-wide performance.

In the Public segment, we acquired several companies with strong reputations and robust product offerings that nevertheless required an operational transformation—focused on cost discipline, process optimization, and efficiency. Spearheaded by our platform teams, the Manuscript Method provided a clear framework to implement these changes. We also built public-sector-specific chapters of the Manuscript, drawing on learnings across our different platforms—we are building the muscle to execute transactions like these consistently. While they weigh on operating results in the near term, we expect them to become increasingly accretive over the medium to long term, delivering meaningful earnings and value creation.

In the Financial Technologies Segment, 2025 was all about building one operating model and capturing synergies. Rigorous decisions were made, and the merger synergy potential has exceeded our expectations. We look forward to the financial results of this work becoming visible from 2026 and beyond.

When we made the decision to build the Manuscript Method in 2023, we could not have envisioned the power it would have in the age of AI. Sharing best practices and aligning on strategic direction has been a major effort over the last 18 months. We now reap the fruits of this work as we have established a pragmatic and fast exchange built on trust and shared vision with our platforms and across 60+ companies.

We've put a strong emphasis on AI in 2025 and hired Tobias Pook as our new CTO to drive AI-enabled value creation across the portfolio. AI is disrupting the software industry—but disruption is not necessarily a bad thing. For us, it represents a chance to extend our portfolio businesses with entirely new capabilities, while preserving trust, domain expertise, and decades of structured customer data that define our competitive position. Tobias shares his perspective on how and why we are doubling down on AI as an opportunity in the *Inside CHAPTERS* section of this report.

In the first months of 2026, we have continued the momentum: two further transactions in the Public segment, a strong pipeline, and a sustained focus on delivering tangible value through AI.

We are proud of the progress made. AI in particular—but also the continuous development of our operating model—requires real change. Our platform teams and everyone at the operating companies embrace this change and put their best foot forward every day to deliver value to their customers. We would like to thank all teams across our platform companies and operating companies for their commitment and their development in 2025.

We would also like to thank our investors for the continued support and trust in what we are building. We look forward to welcoming you to Hamburg for our Capital Markets Day and Annual General Meeting on 15 and 16 July 2026.

Sincerely

Jan-Hendrik Mohr
CEO

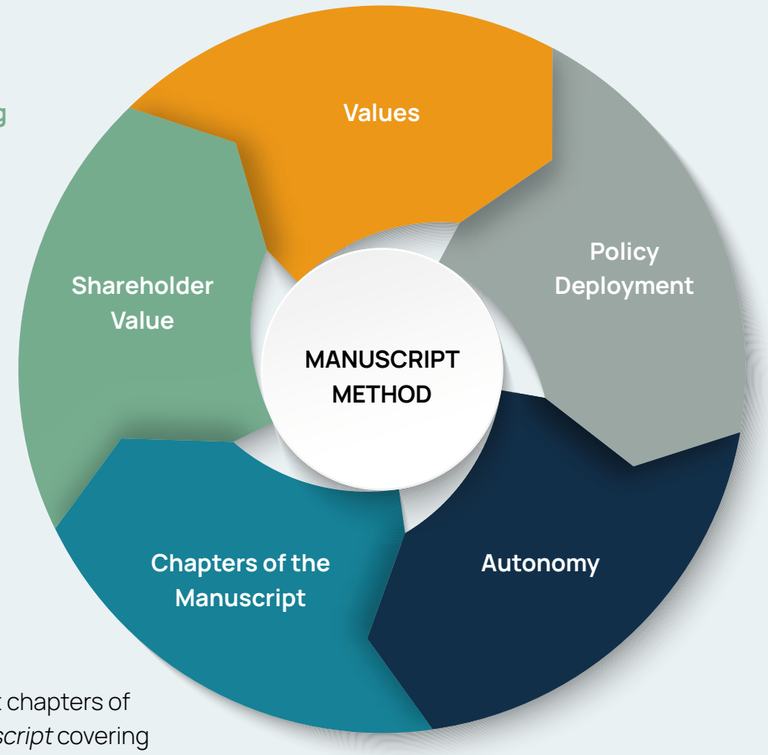

Marlene Carl
CFO

MANUSCRIPT METHOD IMPROVES ORGANIC GROWTH WHILE MAINTAINING THE ENTREPRENEURIAL ENERGY OF A DECENTRALIZED ORGANIZATION

Our **values** are our North Star

Building a track record of **creating shareholder value** giving us the long-term backing to focus on our values

Policy Deployment is our internal language to **align on goals and objectives**

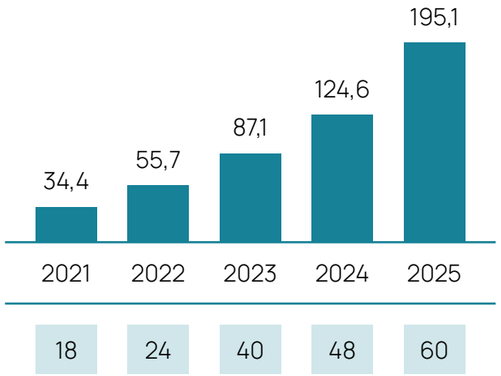

Different chapters of *the Manuscript* covering **Benchmarking**, **AI tools** and **best practice sharing**

Our operating model is based on **Autonomy**. Autonomy requires **Authority** granted to our **leaders**. **Authority** requires **Accountability**.

KEY FIGURES

TOTAL OUTPUT in EUR MM

OPERATING EBITDA in EUR MM

For the calculation of total output and EBITDA, we include all operating companies in which CHAPTERS owns a majority stake and that are part at the end of the relevant fiscal year of the group with 100% of their full year results in that year.

Organic growth 2025 (Total output)

4.7%

Share of Recurring Revenue

49%

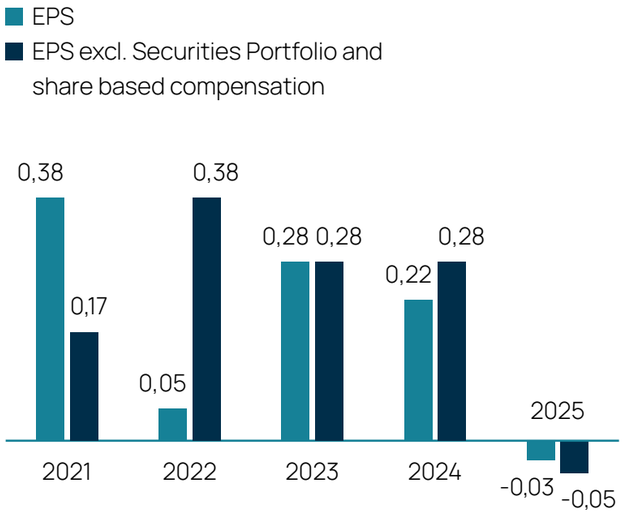

Share of CHAPTERS in EBITDA

74.9%

Organic growth 2025 (EBITDA)

12.0%

EARNINGS PER SHARE in EUR

For Earnings per Share, the net income for the fiscal year of all companies belonging to the group at the end of the relevant fiscal year is taken into account with the share attributable to CHAPTERS Group AG and divided by the number of shares outstanding at the end of the relevant year. For the calculation, all accounting related effects (e.g. goodwill depreciation) on the consolidated net income are excluded.

Earnings per share in 2025 were negatively impacted by the acquisition of companies in the Public segment, which made a substantial negative contribution to earnings in 2025. The companies implemented the necessary measures in 2025 to significantly increase operating profitability in 2026. Additional effects included one-off costs related to the merger of Fintiba GmbH and Expatrio Global Services GmbH, as well as from the raising of financing.

INSIDE CHAPTERS GROUP

In 2025, CHAPTERS Group AG continued its expansion. The Group now consists of 60 operating companies generating close to EUR 195 million in total output in 2025 and employing approximately 1,300 people.

In 2024, we introduced a new segmentation around three key verticals:

Public Sector
Enterprise
Financial Technologies

By segmenting the Group, we provide a clearer and more structured view of how our portfolio is built, why we invest where we do, and where we are heading. Each segment reflects a distinct strategic logic. Whether driven by regulatory resilience, sector-specific digitalization trends, or platform scaling opportunities.

This enhanced transparency not only sharpens the understanding of our current positioning but also enables us to identify potential and unlock synergies within our ecosystem, while allowing investors to better assess the sustainability of our long-term growth trajectory.

Segmentation aligns our internal reporting, capital allocation, and leadership responsibilities with the actual operating logic of our businesses. It allows our management team to benchmark performance within comparable peer sets, pursue relevant KPIs, and identify synergies and best practices specific to the segment. This vertical integration enhances focus, accountability, and execution at every level.

Segment data is presented on a fully consolidated basis for all companies in which CHAPTERS owns a majority stake with 100% of their revenue for the full financial year. The figures for organic growth in total output are adjusted for one-off effects from the termination of projects under previous ownership and accounting effects from the initial recognition of revenue.

Segment	Total output in EUR MM	Organic growth 2025[1]	Share of Recurring Revenue	EBITDA in EUR MM	Organic growth 2025[1]	Operating Companies
Public Sector	92,0	1,2%	59,7%	14,7	9,9%	29
Enterprise	53,0	5,2%	65,3%	15,3	11,3%	27
Financial Technologies	46,8	9,0%	13,9%	19,1	13,7%	3
Other	3,3	35,4%	0,0%	0,1	n/a	1

[1] We define organic growth as the full-year results for a financial year, based on the respective group structure as of June 30 of that financial year, compared to the results of the same group for the previous financial year. For organic growth in 2025, the full-year results for 2025, based on the group structure as of June 30, 2025, are compared with the full-year results for 2024 for that same group structure.

How CHAPTERS Group AG is turning artificial intelligence into a competitive advantage.

FROM SYSTEMS OF RECORD TO SYSTEMS OF ACTION

Dr. Tobias Pook joined the CHAPTERS Group AG as **Chief Technology Officer (CTO)** in October 2025. The physicist by training with a PhD from RWTH Aachen and seven years as a signing author at CERN brings hands-on experience from building and merging technology companies as CTO of POD One Group. His focus is on AI-driven transformation, data-driven management and technology due diligence.

For the annual report, we asked him to share his view on AI and learning from the first few months. We generated questions using AI—his answers remain fully human.

The **comprehensive interview** with the CTO—covering M&A guardrails, technical debt, the data advantage, and the 12–24-month first-mover window—can be found on our website at:
www.chaptersgroup.com/AI-at-CHAPTERS/

DISRUPTION AS AN OPPORTUNITY

AI is already disrupting the software industry—but disruption is not necessarily a bad thing. For CHAPTERS Group, it represents a chance to extend our portfolio businesses with entirely new capabilities while preserving the trust, domain expertise, and decades of structured customer data that no AI-native startup can replicate overnight.

This does not mean standing still. Tobias is clear that the classic moats of large codebases and procurement friction are necessary but no longer sufficient. The goal is a fundamental transition: from offering 'systems of record' to 'systems of action', where AI agents help customers identify open tasks, automate complex workflows, and handle sensitive data securely and transparently.

THE CHAPTERS MOMENTUM INITIATIVE

In February 2026, CHAPTERS launched the Chapters Momentum Initiative—a portfolio-wide competition inviting all operating companies (OpCos) to identify their most time-consuming customer workflows and propose AI-driven solutions. The response exceeded all expectations.

The three most promising use cases were selected through a structured evaluation and are now being built by dedicated external teams in collaboration with the CTO office and the respective OpCos—fully funded by the holding on top of each company's organic R&D budget.

What started as a one-time competition has since evolved into a permanent stage-gate innovation framework. OpCos can now continuously submit use cases with detailed business plans and anchor customer commitments, de-risking AI product development by validating demand and securing co-investment before a single line of production code is written.

"We were certain that there have to be some good cases, but the extent and number of high-quality submissions was a surprise for us." Dr. Tobias Pook

"Our ability to produce code fast is not among the most important factors when our customers choose the right partner for the core of their business. We add value based on decades of built trust, domain-specific knowledge, and a deep understanding of their workflows, challenges, and regulatory environment." Dr. Tobias Pook

SCALING AI ACROSS THE PORTFOLIO

The Momentum Initiative sits within a broader transformation architecture. Two other building blocks are central to making AI adoption portfolio-wide rather than a series of isolated experiments:

CHAPTERS AI MATURITY FRAMEWORK

Defines concrete development paths for every department, from 'AI Beginner' through 'AI Assisted' to 'AI Transformed'. The 2026 target: all companies at least at the Assisted level in foundational and R&D capabilities.

CHAPTERS AI HUB

An open-source-based internal platform, rolling out at 2-3 companies per week, that gives OpCos access to the latest AI models in a secure, compliant environment with built-in PII filtering, custom knowledge bases, and shared agents. Target: 50% coverage by mid-2026, 100% by year-end.

"We don't want to build a couple of lighthouse projects and continue the rest of our business as it is. The goal is a transition of our companies towards hybrid organisations, where humans and AI work together in a highly automated environment—across every department." Dr. Tobias Pook

WHEN WILL IT SHOW UP IN THE NUMBERS?

AI is already generating ARR in portfolio frontrunners—for example Icomedias (AI solutions for the German police) and HUP (AI-enabled tools for the publishing industry). Broader portfolio impact is expected from 2027 as Momentum projects reach production and operational automation frees up capacity across the group.

DISCIPLINE OVER HYPE

CHAPTERS' approach to AI investment is governed by the same return discipline that has guided its growth to a group of over 60 companies. Tobias is deliberate about distinguishing between 'Research' and 'Development'—AI projects require a higher tolerance for ambiguity, explicit stop conditions, and clear customer demand signals before serious capital is committed.

Research (e.g. from the METR Institute) suggests AI capabilities have been doubling roughly every seven months. Tobias calls this the 'exponential blind spot'—the human tendency to think linearly in a world of compounding change. CHAPTERS' response: data-driven urgency, not gut feeling.

"Chapters is no venture fund, and we do not intend to become one. At the same time, a 'wait and see' approach only works if the pace of AI truly turns out to be slower. In every other scenario, it puts our business model at serious risk. For us, going full steam ahead is the rational, not the aggressive, choice." Dr. Tobias Pook

WHAT WE ARE TRACKING

Four KPIs define whether the transformation is real or just rhetoric:

- Progress of every OpCo through the AI Maturity Framework stages
- Number of AI use cases moved into production across the portfolio
- Additional ARR generated by AI-enabled product features
- Coverage of the CHAPTERS AI Hub infrastructure

"At its core, AI does not change who we are. We buy highly specialised, mission-critical software businesses and we help them grow. What has changed is the speed at which we can do this and the range of what becomes possible for our customers." Dr. Tobias Pook

THE CHAPTERS AI FLYWHEEL

Behind every initiative—Momentum, the AI Hub, the Maturity Framework—sits a single organising logic: the CHAPTERS AI Flywheel. Rather than treating AI as a collection of point solutions, the Flywheel describes how three reinforcing motions compound over time to create a durable advantage.

What makes the Flywheel powerful is that each motion accelerates the others. Growing AI muscle makes internal efficiency gains easier to capture. Efficiency gains create the budget and bandwidth to build better products. Better products generate ARR that justifies deeper investment in AI capability—and so the cycle compounds.

"We have to develop AI muscles fast, use AI to gain efficiency in our internal operations, and identify high-value use cases within our products. This is not three separate workstreams—it is one flywheel that gains momentum as each part reinforces the others."
Dr. Tobias Pook

Images/Illustration: Claudine liebt Kunst, stock.adobe.com/tutun & vectorcreator

ACQUIRE FOR AI RESILIENCE

Domain expertise, customer trust, and decades of structured data remain strong moats—AI does not invalidate them. AI readiness of software architecture and team gains importance.

BUILD AI MUSCLE

Develop AI capabilities across every layer of the organization—from board level to OpCo support teams. Central AI Practices let enthusiasts across all companies share use cases and codify them as reusable blueprints.

DRIVE EFFICIENCY

Apply AI to internal operations first: G&A, Support, Professional Services, Sales & Marketing. Efficiency gains free capacity that flows back into product innovation—spinning the flywheel faster.

UNLOCK PRODUCT VALUE

Direct freed capacity and shared learnings into high-value product features validated through the Momentum Initiative. New ARR from AI-enabled products reinforces the case for further investment, closing the loop.

TRANSFORM INTO SYSTEMS OF ACTION

Enable a fundamental shift from systems of record to systems of action and unlock the full power of AI for our customers—with agents that identify open tasks, automate complex workflows, and handle sensitive data securely.

SEGMENTE

PUBLIC SECTOR

ENTERPRISE

FINANCIAL TECHNOLOGIES

OTHER

PUBLIC

The Segment Public has emerged as a core strategic vertical for CHAPTERS, driven by our belief that digital infrastructure for (semi-)public institutions represents one of the most mission-critical, resilient, scalable, and impactful investment areas in the European software landscape. Public institutions, municipalities, education systems, transportation networks, and social service providers are under increasing pressure to modernize legacy systems, ensure regulatory compliance, and meet rising citizen expectations for efficient digital services. These institutions often rely on deeply embedded, highly specific software systems that require long-term partnerships, domain expertise, and exceptional reliability—creating a unique opportunity: recurring revenue streams anchored in multi-year contracts, low customer churn, strong resilience to economic cycles, and growing demand for secure, mission-critical digital tools.

Our companies deliver mission-critical software across key segments of public infrastructure, including social case management software for municipalities, cybersecurity and compliance solutions for public administration, and tailored software for public transport, homeland security, utilities, education, and non-profit institutions—supporting not just operational efficiency, but also transparency, regulatory compliance, and social service delivery.

ENTERPRISE

The segment Enterprise encompasses digital solutions tailored to construction, manufacturing, and logistics. Our companies deliver operationally embedded tools: project management systems, CAD and engineering software, document and data management platforms, ERP solutions, and specialized scheduling or billing systems. Their strength lies in deep domain expertise, strong local brands, and long-standing customer relationships—with applications that are often mission-critical for SMEs relying on software deeply integrated into their daily workflows.

This segment benefits from high customer retention, recurring revenue, and scalable growth opportunities in underserved digital verticals.

FINANCIAL TECHNOLOGIES

The Financial Technologies segment was established through the merger of Fintiba GmbH and Expatrio Global Services GmbH—two entrepreneur-led fintech companies that have served international students and skilled professionals in Germany for many years. Together, they provide mission-critical financial solutions for cross-border mobility: blocked accounts for visa applications, health insurance, and rental guarantees. Through a strategic partnership with Frankfurt International Bank AG (FIB), the combined entity will further expand its offering with current accounts, debit cards, and innovative financial products tailored to the needs of international talent.

Having already served over 500,000 customers from 190 countries, the merged platform is uniquely positioned to become the definitive financial home for internationals in Germany. The combination unlocks significant product expansion opportunities as well as meaningful synergy potential.

AS OF DECEMBER 31, 2025, THE GROUP INCLUDES 60 OPERATING COMPANIES (PLUS ONE MINORITY STAKE), DELIVERING MISSION CRITICAL SOLUTIONS TO THEIR CUSTOMERS

UniSoft

Part of the Group since October 2025

UniSoft GmbH, based in Roth near Nuremberg, has been developing specialist software for the public health service since 1993. The all-in-one solution supports health authorities in all areas of responsibility, including infection control, hygiene, social medicine, and prevention. Through continuous development and close cooperation with users, UniSoft is now one of the leading providers in the German healthcare sector and supports customers with complementary consulting and training services on their path to a future-oriented digitization strategy. The majority of all installations have now been in use for over 20 years.

Somentec

Part of the Group since August 2025

Somentec has been developing specialized billing and ERP software for energy and water suppliers, grid providers, measuring point operator, area network operators, municipal utilities and contracting companies since 1994. With the XAP. product line, the company offers solutions for billing, market communication, CRM, contract and receivables management and business intelligence—flexibly deployable as on-premise or SaaS. Somentec also supports its customers with consulting, implementation and hosting. Over 100 energy companies already rely on the provider's solutions.

interconsult

Part of the Group since July 2025

Interconsult SAS, based in La Penne-sur-Huveaune close to Marseille, has been developing software solutions for social and médico-social institutions throughout France since 1983. The company offers a complete software suite, focused on the traceability of care, communication between stakeholders, and the administrative management of the institutions. With over 1,000 installations, Interconsult is one of the leading providers in the sector. Its customers include social institutions, care facilities and associations. Training, support and regular updates complete the range of services.

Linear

Part of the Group since June 2025

Linear Service GmbH, based in Berlin, has been developing software solutions for clubs, associations, political parties and educational institutions for over 30 years. Its core product includes modules such as club member, donations and seminar management as well as a full financial accounting & billing system. Customers such as the Deutsches Rotes Kreuz and educational institutions use the solution to organize courses, training and events. In addition to the software, Linear also offers consulting, training and support.

»CYBERSENSE

Part of the Group since June 2025

Cybersense GmbH, based in Dortmund, offers specialized cybersecurity solutions for attack detection using deception technology. The agentless software detects ransomware, insider threats, and APTs in real-time, without false alarms—both in the cloud and on-premises. The products alert when IT security systems have been breached before damage occurs and uncover blind spots that classic solutions haveCybersense products target critical infrastructure, government, and the energy, healthcare, and finance sectors.

finfox

Part of the Group since May 2025

Finfox Software and Technology AG, based in Zurich, is a leading WealthTech company providing a digital platform for hybrid wealth management to banks, advisors, and their clients in Switzerland, Liechtenstein, and other international markets. By combining operational efficiency, personalized client journeys, and adherence to regulatory requirements (e.g., FIDLEG and MiFID), Finfox is a trusted partner to private banks, savings banks, and Swiss cantonal banks in driving the digital transformation of wealth management.

PEAK MOBILITY

Part of the Group since March 2025

PEAK Mobility GmbH, based in Berlin, was formed in 2025 through the merger of PSI Transcom GmbH and Verkehrsautomatisierung Berlin GmbH, combining more than 40 years of experience in control technology and software solutions for public transport operators. The company develops and runs modular hardware and software systems covering real-time operations control, depot management including eBus charging, personnel scheduling, student ticketing and passenger information for bus, tram, and rail networks. Its integrated solutions support transport operators and public authorities in optimizing core operational processes & invested capital efficiency, punctuality, and service quality. With a strong focus on digitalization and sustainable mobility, PEAK Mobility enables seamless, future-proof public transport operations. The company serves local transport providers mainly in Europe and selected global customers.

Technocarte

Part of the Group since December 2024

Since 1992, Technocarte SAS has specialized in the development and provision of administrative software for local authorities, particularly in the areas of child, youth and early childhood care. The software includes tools for appointment and document management, digital records management and automated time recording. More than 10 major cities and hundreds of municipalities of all sizes in France use the solutions to manage their citizen services.

DIVERA 24/7

Part of the Group since November 2024

DIVERA 24/7 enables the forward-looking planning of on-call personnel availability for emergency organizations such as fire departments, rescue services, police and aid organizations. Bottlenecks are identified at an early stage, deployments are coordinated efficiently and only available personnel are alerted. With users not only in Germany but also in neighboring countries, the system has established itself as a central Software-as-a-Service (SaaS) platform for information exchange during critical incidents. Favored by its mostly volunteer end users, their full-time employers also adopt DIVERA 24/7 for personnel planning, order scheduling and crisis management. Interfaces enable easy integration into existing infrastructures such as security control centers/dispatch and management systems and access control systems.

filmwerte

Part of the Group since November 2024

filmwerte GmbH, based in Potsdam, is the leading provider of VoD services for public libraries. Its flagship product, filmfriend, offers a carefully curated selection of over 2,500 films and 140 series—with a focus on European arthouse, documentaries, and high-quality children's programming. filmwerte works with over 250 licensors and currently serves 800+ libraries across Germany, Austria, Switzerland, France, Belgium, Luxembourg, and Liechtenstein. Since 2024, myfilmfriend is also available in the USA and Canada, marking a key milestone in filmwerte's international expansion.

xplain

Part of the Group since October 2024

Xplain is a leading provider of standard software solutions for all application areas in the Homeland Security industry such as Cantonal and Federal Police forces, Border Control Authorities, and various justice organizations. Our products enable organizations in the field to drastically increase their productivity and significantly reduce their workload. From data entry through processing and the final report—digital end-to-end—both geographically and organizationally.

GBS

Part of the Group since June 2024

GBS Europa GmbH is a leading provider of email security and GRC solutions for enterprise customers with over 30 years of experience in data protection, productivity and compliance. With locations in Germany and UK, it helps its 2000+ customers and 2+ million end users to communicate and collaborate securely and compliantly in the digital world with flexible, easy-to-use and powerful solutions. The next generation cybersecurity solutions include protection for Microsoft 365, Exchange and HCL Domino, including malware protection, encryption, data loss prevention, workflow management and compliance.

majélis TUTELLE

Part of the Group since April 2024

Majelis Software is also a provider of specialised solutions for the efficient management of persons under legal guardianship. Compared to CSWin their focus is more on individual care-givers (MJPM) and family members managing people under legal guardianship. Their full web SAAS solution is highly intuitive and simple to use.

CSWin

Part of the Group since January 2024

CSWin is a French software company based in Plérin (Brittany) that has been developing specialized solutions for the efficient management of persons under legal guardianship. CSWin focuses mainly on hospitals and associations that manage several hundred or thousands of persons under legal guardianship. Depending on the customer requirements, its solution is offered on premise or hosted. It differentiates itself by the breadth of its solution and the in-depth industry knowledge that the entire team developed over the years.

rocom

Part of the Group since December 2023

With the products Tau-Office, Tau-Cloud and Tau-Work-Together, rocom GmbH offers comprehensive administration software for social and municipal institutions. The company has been established in this field for more than 30 years and the solution is specially tailored to the specific requirements of users. Its more than 400 customers include numerous cities and municipalities as well as social associations such as Caritas and Diakonie.

SOLARYS/blaulicht SMS

Part of the Group since February / December 2023

In September 2023, Solarys Informatik GmbH and blaulichtSMS GmbH, both based in Austria, merged with each other. With syBOS, the company offers a software solution for managing fire departments as well as mountain, water and cave rescues. The modular software covers all relevant processes from personnel, vehicle, material and equipment management to remuneration and finance. The blaulichtSMS alerting app offers an additional alerting solution for fire departments, rescue services and emergency organizations such as the THW to maximize their operational reach. Its customers include numerous fire departments and control centers in Austria and Germany.

LITTERA

Part of the Group since November 2023

LITTERA Software & Consulting GmbH offers a modern, cloud-based platform for archive, library and literature management. As the market leader in Austria and a strong player in the fragmented German market, the company supports over 2,500 libraries, museums and educational institutions across the world. The solution streamlines all core workflows in the sector.

appwerke

Part of the Group since November 2023

appwerke offers scalable tools for Internet Service Providers and network operators ranging from customer management, process automation, online ordering, end-customer portals, and sales and thereby enabling efficient telecom operations.

glasfaser direkt · JOBST NET · EIFEL-NET

Part of the Group since August 2023

Glasfaser Direkt GmbH, Jobst-NET GmbH and Eifel-Net GmbH became part of the Group in August 2023. The companies provide internet and telecommunications services for private and commercial customers, which are primarily sold in Euskirchen, Amberg and other areas of Bavaria.

USYS

Part of the Group since April 2023

Utilities Systems s.r.o., based in Prague and with a subsidiary in Slovakia, develops and distributes customer information systems for the water and energy industry. In addition to the majority of water supply companies in the Czech Republic, its customers include private electricity and gas suppliers in the Czech Republic, Poland and Slovakia. The product and customer portfolio is supplemented by a solution for public broadcasting companies in the Czech Republic and Slovakia.

Condition

Part of the Group since January 2023

Condition – Integrierte Softwarelösungen GmbH develops and distributes software for hunting, fishing and firearms license management in Germany. Its more than 500 long-standing customers are the authorities responsible for administration.

SBM

Part of the Group since December 2022

Software und Beratung Meinhard GmbH develops and operates a complete system for the administration and billing of daycare centers and kindergartens. It also offers a supplementary parent portal. The company's customers primarily include municipal and local authority providers of daycare centers and kindergartens.

ingenia

Part of the Group since September 2022

ingenia Glasfaser is a regional internet and telephone provider in Hohenloher-Land, where it supplies private and business customers with high-performance fiber-optic internet. Founded in September 2022, the company commenced operations in 2023.

interactive network

Part of the Group since November 2021

Interactive Network Communications GmbH offers individual technical solutions for commercial customers. In addition to fiber optic Internet products for major customers, these also include solutions in the cyber security environment and the operation of e-mail and data storage in secure environments. The company's product portfolio and technical equipment complement the services offered by carrierwerke GmbH within the CarMa Group.

carrier werke

Part of the Group since August 2021

carrierwerke GmbH provides comprehensive broadband services for municipal utilities and network operators, including white-label Internet, telephony, and TV solutions. They also offer full network operation and connectivity to major Internet hubs. Since launching in 2021, they've partnered with DB Broadband and gained initial municipal clients.

opas

Part of the Group since December 2020

OPAS is the global market leader for orchestra management software and can look back on more than 25 years of experience in this niche. The software solution from OPAS has been specially adapted to the needs of orchestra management and includes functionalities for the management of e.g. music libraries, program planning as well as travel and logistics planning. More than 250 orchestras worldwide (from Australia to China and Europe to the USA) use the software solution, which is available in 15 languages.

SWH Softwarehaus Heider GmbH

Part of the Group since December 2019

SWH Softwarehaus Heider GmbH develops and distributes a software solution specially tailored to the requirements of school administrations. In addition to timetable planning and the management of student data, the range of services also includes the management of school fees, which is particularly relevant for private institutions and German schools abroad. Customers include renowned private educational institutions in Germany and German schools abroad.

Lang Finanzsoftware

Part of the Group since October 2025

Lang Finanzsoftware GmbH, an Austrian company headquartered in Freistadt, is a specialist in IT solutions for the real estate and financial sectors. The company supports its clients in managing cash flows transparently and efficiently digitizing financial processes. Over the years, Lang has become a trusted partner for organizations in housing, real estate, banking, consulting, and the public sector, with a strong reputation in the non-profit housing and real estate industries.

HUP HAIBERG AdFlow

Part of the Group since September 2024 /July 2025

HUP GmbH, based in Braunschweig and Leipzig, is a leading provider of high-quality software solutions for publishers. The modular solutions include software for sales and subscriber management, logistics, production, advertising, editorial and content management systems as well as online portals. With a unique portfolio of dedicated solutions for the media & publishing industry, HUP supports over 100 customers in the content creation, production and distribution of more than 34 million newspapers per week. In summer 2025, Haiberg GmbH was acquired as an add-on and strengthens HUP through its experienced team as well as modern additions especially in the field of logistics software for publishers. The second add-on acquisition in summer 2025, AdFlow Systems GmbH, complements the portfolio with integrated digital workflow solutions for advertising and media production across print and online channels.

ProLogic

Part of the Group since April 2025

ProLogic Computer GmbH, based in Rottendorf, is one of the market leaders for industry software in window and door manufacturing since 1985. Its solutions cover all areas from quotation and design to paperless manufacturing andautomated parts ordering. Together with NC-HOPS, the entire process chain in window and door manufacturing is covered. Customers are manufacturing companies and dealers in windows and doors who value efficient planning, configuration and process optimization.

SIMMETH SYSTEM

Part of the Group since March 2025

Simmeth System GmbH, headquartered in Burghausen, has been a B2B software provider for supply chain management since 2002, focusing on purchasing and supplier management across the entire supplier lifecycle. The core product is a modular information and communication platform for purchasing, risk management and reporting. More than 90 national and international SME and corporate customers—from sectors such as energy supply, logistics, healthcare and machinery production—use the solution to optimize supplier processes, compliance and efficiency.

COGIMA Logiciels

Part of the Group since March 2025

Cogima Logiciels is a small provider of treasury management software solutions. Based in Pompey, France, the company has been servicing its clients for more than 20 years.

inedee BillJobs

Part of the Group since January 2025

Inedee SAS, based in Colombes (Paris region), is one of the French market leaders for cloud-based ERP systems for communication agencies and marketing companies. The software provides an end-to-end solution from commercial management over project management to finance and accounting. With over 200 agencies and more than 5,000 users relying on it daily, Inedee emphasizes personalized implementation and ongoing support to ensure rapid adoption and alignment with agency-specific needs. The acquisition of BillJobs in summer 2025 makes it the French market leader with a client base of > 500 agencies and more than 10.000 users.

Part of the Group since October 2024

3GWIN SAS develops specialized POS software for telecommunications providers, mobile repair shops and more generally retailers with functions such as warehouse management, invoicing and back-office automation. As a certified solution, it offers more security than many self-certified competitors. It's client base consists of major Telco operators such as SFR, smaller chains and franchise providers as well as individual stores.. By integrating supplier catalogues such as Big-Ben (accessories) and insurance contracts, 3GWIN is a comprehensive industry solution.

Part of the Group since August 2024

Equinoxe Software offers a simple and efficient software suite to enable non-IT professionals to manage their customer databases and optimize their marketing campaigns. They provide accessible solutions for data processing, segmentation, and extraction, adapting to the needs of businesses, regardless of their size or complexity. Equinoxe is a market leader in the management of donor databases in particular and is used by the majority of major French charities. Based in Paris, the company serves over 100 clients in the charity, automotive, data trading and press sectors.

Part of the Group since June 2024

BG Informatique SAS develops customized software and offers its own accounting and payroll tools. 57% of revenue comes from recurring maintenance and hosting fees, mostly for customized software solutions. In addition, BG Info provides software development resources for third-party companies.

Part of the Group since January 2024

GI Informatique is an IT services company established in 1992 with a focus on accounting and payroll solutions. The versatile team of developers, trainers and hotliners enables the software to be flexibly adapted to companies of all sizes and sectors—from accounting offices and catering businesses to retailers such as Carrefour and Système U. With approx. 1000 customers and its main modules Winlogic (accounting), Wingip (payroll) and Wingifact (invoicing), GI In-formatique is today one of the relevant software providers for independent retailers.

Part of the Group since January 2024

CSB Bruns & Börjes GmbH has been offering software solutions for the motorcycle, bicycle, motorized equipment for over 30 years. The core of all products is a merchandise management system that includes all the classic functionalities of merchandise management, including an integrated cash register, GoBD-compliant cash book, TSE connection, a digital workshop, connection to vehicle portals with calculation options and the pre-accounting of sales revenue as well as sales evaluations. The system can be expanded to include an online store, an interface to eBay and a CSB app. This market leader's product is currently used by 900+ dealers in three countries.

Part of the Group since August 2023

KeyLogic GmbH develops modular software for Computer Aided Facility Management (CAFM). The solution covers space and asset management, contract administration, occupational safety, cleaning services and energy controlling. Clients include public property owners, commercial real estate operators and large-scale companies in Germany, Luxembourg and Switzerland.

Part of the Group since July 2023

GAIN Software GmbH develops and distributes product data management software with comprehensive interfaces to common CAD and ERP systems. The modular system is specially tailored to the needs of medium-sized companies in the manufacturing industry. The company serves over 140 customers across various industries, particularly in the fields of mechanical engineering.

ENTERPRISE

MWM

Part of the Group since June 2023

MWM Software & Beratung GmbH delivers specialized software for the construction industry, particularly in the areas of measurement, quantity surveying and invoicing. The company serves more than 900 clients, including project developers, general contractors, mid-sized construction firms and trade professionals.

Teamsware GmbH

Part of the Group since March 2023

Teamsware GmbH develops a Microsoft Teams-based SaaS solution for managing digital construction and project files. Founded in 2020, the company has shown strong growth and adds significant value to the Group's real estate and construction software portfolio. Its intuitive integration with Microsoft tools makes it particularly attractive for teams seeking digital collaboration in construction documentation.

WAREHaus

Part of the Group since June 2022

WAREHaus GmbH provides highly specialized software for utility and heating cost billing, specifically designed for private landlords and small property managers. Its flagship products from the "easy" suite complement Software24's Win-CASA and extends the Group's capabilities in the housing and utility billing domain.

voigt

Part of the Group since May 2022

With its cloud platform IMKE, Voigt Software und Beratung AG offers an all-in-one solution for real estate developers. The software supports processes from project development and construction management to marketing and sales, accessible across all devices. The company is also a market leader in software for the energy distributing companies, particularly in liquefied natural gas (LNG) and related fields.

elKom solutions

Part of the Group since December 2021

The core product of elKom solutions GmbH is a software solution for group consolidation that maps the standard functions of group accounting and evaluation in accordance with all common accounting standards. The product portfolio is supplemented by a solution for corporate and group planning as well as a business intelligence solution for analysis, reporting and controlling. Customers include large corporations as well as smaller medium-sized companies.

Corporate Montage

Part of the Group since September 2021

Corporate Montage Europe GmbH is a long-standing partner of the software providers ELO® Digital Office—one of the leading enterprise content management software solutions—and Bentley, a US provider of CAD software well knwon in the infrastructure sector. The range is supplemented by software solutions developed in-house, particularly at the interface between CAD software and ECM software, in order to offer customers a comprehensive and customized solution.

direkt

Part of the Group since May 2021

With "NC Hops", Direkt CNC-Systeme GmbH offers one of the leading machine- and manufacturer-independent CAD/CAM software solutions for the wood, plastics and aluminum processing industries. The modular software covers the entire production process, from design and construction to work planning and production, and can be individually adapted to specific customer requirements using numerous add-on modules.

DATEX

Part of the Group since April 2021

DATEX Software GmbH offers one of the leading complete business management solutions for real estate developers in the German-speaking market. The modular software AMADEUS supports the entire development lifecycle—from project planning, cost control and defect management to documentation and financial accounting. With several hundred customers, some of whom have been using the software for more than 25 years, include smaller property developers as well as larger real estate developers—mostly for projects in Germany's metropolitan areas.

ENTERPRISE

Part of the Group since April 2021

With Win-CASA, Software24.com GmbH offers a comprehensive industry solution for property management companies of all sizes. The software covers the full range of administrative tasks for rental management and condominium/ home owner associations. Additional modules such as device management and custom reporting enhance its flexibility. Today, several thousand clients—mostly small and regional property managers—rely on Win-CASA across Germany.

Part of the Group since December 2020

With its highly specialized software, BleTec Software GmbH offers a modular ERP/PPS solution tailored to the core operational processes of sheet metal processing companies. The company primarily serves small and medium-sized enterprises (SMEs). Over the past 20 years, BleTec has continuously acquired new clients and now serves a broad customer base of more than 150 companies.

Part of the group since December 2019

gripsware datentechnik GmbH develops and distributes software solutions to support the ideal construction process. The modularly bookable license products include a mobile construction diary with included deficiency management, as well as solutions for construction time and project planning, financing or budget control, but also, for example, modules for monitoring health and safety plans. Its more than 2,500 customers primarily include engineering and architecture firms, but also construction companies, public authorities and municipalities.

Part of the group since August 2019

Parity Software GmbH is a provider of highly customizable standard ERP solutions. The company develops and distributes its own modular ERP solution, PARITY.ERP, which supports core business functions with a strong focus on inventory management and B2B-trade. A key strength of the platform lies in its release-safe customization tools, enabling tailored configurations without compromising future updates. Parity serves SME commercial and industrial enterprises across Germany, offering cross-platform compatibility and seamless integration into existing IT environments.

FINANCIAL TECHNOLOGIES

Part of the Group since May 2025

Expatrio GmbH is a digital platform for international students, professionals and expats moving to Germany. With services such as a blocked account, health insurance and a German bank account, Expatrio offers a comprehensive all-in-one "value package". The platform also provides support with visa requirements and study choices to make the start in Germany easier. Expatrio has already supported over 200,000 users since 2017.

Part of the Group since December 2024

Coracle GmbH is a German FinTech company that has been offering digital solutions for international students for over seven years. It offers a fully digital blocked account with no monthly fees that is recognized by German embassies. In addition, the PRIME package also includes health and travel insurance to facilitate the visa application process. Every year, Coracle supports over 15,000 students worldwide with their start in Germany.

Part of the Group since May 2021

Founded in 2016, Fintiba GmbH has established itself as one of the leading providers of sup-port for international students and young professionals in Germany. Based in Frankfurt, Fintiba enables visa applicants to open the blocked account required for the visa process online from abroad. The company also offers support with insurance and rental guarantees. Since its foundation, Fintiba has accompanied over 300,000 international students on their way to Germany.

OTHER

KÄLTEHELDEN HAMBURG

Part of the group since August 2020

Kältehelden GmbH is a master company for refrigeration and air conditioning technology based in Hamburg. The company offers consulting, planning, new construction and maintenance with a 24-hour emergency service. In addition to refrigeration and air conditioning solutions, the range of services also includes air purification. The focus is on a comprehensive service approach that serves customers throughout Germany. For further expansion, we support the founder in setting up a modern refrigeration/air conditioning technology group.

EMC expertise meets cable

Part of the group since January 2019

E-M-C-direct GmbH & Co. KG is a specialist wholesaler and developer of cable management and protection solutions, with a core focus on photovoltaic EPCs and installers. It also serves B2B customers in industrial sectors such as commercial vehicle construction and mechanical engineering. The company operates primarily in the DACH region through a direct sales model and offers comprehensive service packages to support long-term customer relationships. Following the 2021 acquisition of TOOLOVA, E-M-C-direct expanded into crimping and cutting tools, supplying private label and OEM solutions to leading tool brands.

REPORT OF THE SUPERVISORY BOARD

Dear shareholders, dear friends of the company,

In fiscal year 2025, CHAPTERS Group AG consequently executed its growth trajectory. With numerous acquisitions and the merger of Expatrio with Fintiba, significant milestones in the company's development were achieved during the reporting year.

To finance further growth, the company carried out a capital increase against cash contribution in March 2025 and also issued its first senior unsecured bond in August. An additional tranche of the senior unsecured bond was issued in October 2025. Furthermore, a capital increase against contribution in kind took place in September 2025.

CHAPTERS Group AG keeps on strengthening its position as home for companies that offer mission-critical digital solutions—with a focus on vertical software and digital solutions in the financial sector for international expats in and on their way to Germany.

The platform companies belonging to the Group have acquired stakes in 17 additional operating companies. At the end of the year, a total of 60 companies were part of the Group.

During the reporting period, the Supervisory Board performed the duties incumbent upon it under the law and the Articles of Association. It monitored the Management Board of CHAPTERS Group AG on the basis of written and verbal reports and provided advice in join discussions.

The Supervisory Board was informed by the Management Board about ongoing business developments and matters of particular significance and was directly involved in all decisions of fundamental importance to the company. In addition, an exchange of information took place between members of the Supervisory Board and the Management Board throughout the entire fiscal year.

In accordance with the Articles of Association, the Supervisory Board consisted of four members during the reporting period.

In July 2025, the Supervisory Board resolved to establish its first two subcommittees: an Audit Committee chaired by Dr. Martin Possienke with Dr. Mathias Saggau as a member, and an HR Committee chaired by Edda Heidbrink with Dr. Mathias Saggau as a member.

In 2025, ten Supervisory Board meetings and several additional strategy days took place.
All members of the Supervisory Board participated in all meetings in person or via videoconference. At times, experts were consulted for individual meetings.

The focus of the meetings and deliberations was on:

- Planning, support and oversight of the development of the platform companies in the three segments: Public Software, Enterprise Software, and Financial Technologies.
- Supporting and approving a capital increase against cash contribution in March 2025.
- Supporting the buyback offer for the perpetual bond (2020) in March 2025 and approving the issuance of the new bearer bond 2025/2030 in August 2025
- Review and approval of the merger of Expatrio Global Services GmbH with the Group subsidiary Fintiba GmbH in accordance with the resolution passed in May 2025.

- Review, consultation, and approval of the capital increase against contribution in kind as part of the Fintiba/Expatrio transaction in September 2025.
- Accompanying the group-wide implementation of the Manuscript method, as well as endorsing ongoing initiatives and the creation of dedicated resources, including resourced to support the AI readiness in the portfolio companies.
- Review, consultation, and oversight of the Global Heart Beteiligungsgesellschaft mbH project.
- Review, advise on, and approve the potential establishment of additional investment platforms in Germany and abroad.
- Approval of the appointment of a platform CFO for Altamount as well as external consultants for future IFRS readiness.
- Review and support of further acquisitions by the platform companies in the three segments and their subsidiaries.
- Monitoring of reporting on the securities portfolio of CHAPTERS Group AG.
- During the reporting year, the Supervisory Board carefully reviewed potential conflicts of interest and compliance with corporate governance principles; in transactions involving related parties or shareholders, care was taken to ensure compliance with the *arm's-length* principle, and an independent external valuation was obtained where necessary; affected Supervisory Board members abstained from deliberations and voting in such cases.

The Supervisory Board reviewed, discussed, and consulted with the Management Board regarding the annual financial statements prepared in accordance with the German Commercial Code, as well as the consolidated financial statements of CHAPTERS Group AG and the combined management report. The annual and consolidated financial statements for the fiscal year from January 1, 2025, to December 31, 2025, were audited by the auditing firm BDO AG, Antonia Ramm, Hamburg, and issued an unqualified audit opinion.

These documents and the auditor's report were submitted to all members of the Supervisory Board. The auditor provided a detailed explanation of the audit results for the consolidated and annual financial statements to the Supervisory Board at its meeting to approve the financial statements on May 21, 2026, and answered questions from the Supervisory Board.

The Supervisory Board acknowledged and approved the audit report for CHAPTERS Group AG. Based on the final results of its review, the Supervisory Board raised no objections to the documents presented. The Supervisory Board has approved the consolidated and annual financial statements and the combined management report. The annual financial statements are thus adopted in accordance with Section 172 of the German Stock Corporation Act.

The Supervisory Board thanks the Management Board and all employees throughout the Group for their great commitment and the work they have performed.

COMBINED MANAGEMENT REPORT FOR THE FISCAL YEAR 2025

A. Background of the Group and CHAPTERS Group AG

BUSINESS ACTIVITY AND ORIENTATION

CHAPTERS Group AG aims to build the home for "mission critical digital solutions". For us, "mission critical" means products and services that are essential for end customers—be it an ERP system or a blocked account for the visa process.

More than 60 companies have become part of the Group since the first investment at the beginning of 2019. Since the 2024 fiscal year, we have structured our portfolio into three core verticals:

- Digital Solutions for Public Sector Clients and Civic Institutions (“Public“)
- Digital Solutions for Private Sector Companies (“Enterprise“)
- Digital Solutions for Financial Services (“Financial Technologies“)

Each segment follows its own strategic logic—whether driven by regulatory stability, industry-specific digitalization trends, or platform-scaling opportunities.

This segmentation enables us to strengthen our portfolio through targeted capital allocation across key market verticals, identify attractive value chains, and more effectively capture synergies within the respective clusters.

As we further develop the Group, our three core values serve as guiding principles:

WE THINK IN DECADES

We make our investments with an unlimited time horizon. Divestitures aimed at generating short-term value gains are explicitly not part of our strategy. That said, we may pursue divestitures in cases where they enable a company and its management to take the next step on their growth path.

Companies that become part of CHAPTERS Group AG have typically developed their solutions over many years, building on strong customer focus as well as deep market and industry expertise. These solutions are closely tailored to their clients' needs.

In developing these companies further, we follow a sustainable and entrepreneurial approach. Together with local management and employees, we work to preserve and enhance long-term competitiveness while continuously improving and expanding the solutions offered to customers.

WE GROW TOGETHER

Our investments are typically made through subsidiaries of CHAPTERS Group AG, our platforms. Each platform defines its own strategy and focus, led by its respective management team. Through equity participation, we enable these teams to participate in the long-term value creation they help drive.

WE SERVE THE EDGE

We operate in a decentralized operational model built on autonomy. The companies within the Group retain their individual corporate cultures, which we actively support and preserve. Decision-making remains with the teams closest to the customer rather than being centralized. At the same time, networking and knowledge exchange across the Group—through benchmarking, best practice sharing, as well as access to centralized resources and experts in key areas—help foster the continued development of all companies.

OBJECTIVES AND STRATEGY

CHAPTERS Group AG is committed to the sustainable growth of the Group's enterprise value over the long term. As a key indicator of enterprise value development, we measure the long-term development of earnings per share, which has been calculated since 2020. Earnings per share are primarily influenced by the organic development of our companies, inorganic growth, and the Group's financing structure.

SUSTAINABLE DEVELOPMENT OF OPERATING SUBSIDIARIES

Our goal is the long-term and sustainable development of our portfolio companies. This includes targeted growth initiatives such as best practice sharing in areas like sales and pricing.

FURTHER ACQUISITIONS AS A GROWTH DRIVER

In recent years, acquisitions of new operating companies have been a central driver of growth. We intend to continue pursuing this path, with a particular focus on acquiring companies active in industries where other Group companies already operate, as well as businesses offering solutions that complement our existing portfolio.

OPTIMIZATION OF THE FINANCING STRUCTURE

Our portfolio companies are characterized by high and stable cash flow conversion. Historically, a portion of purchase prices has been financed with debt capital, while liquidity surpluses from operating companies have been primarily used to repay existing debt financing. This continuous deleveraging creates additional capacity for new financing. Furthermore, optimizing repayment structures toward partial bullet maturities provides additional flexibility to finance future acquisitions with reduced equity requirements.

MANAGEMENT CONTROL SYSTEM

We operate in a decentralized operational model built on **autonomy**. Decision-making is not centralized; **authority** rests with the teams closest to the customer—whether within the operating companies or at the platform level in connection with company management, the identification and evaluation of new investment opportunities, and transaction structuring.

To ensure effectiveness within this decentralized framework, clearly defined parameters and **accountability** are essential. Decision-makers across our organization are expected to take responsibility for results while remaining open to learning from one another.

INVESTMENT DECISIONS BASED ON DEFINED FRAMEWORK PARAMETERS

The responsibility for identifying and analyzing new investment opportunities lies with our platforms. Together with the platform managers, we have established defined framework parameters for acquisitions, including key metrics such as size (revenue and number of employees), share of recurring revenue, customer concentration, churn rate, and EBITDA margin, which serve as the foundation for investment discussions. In addition to these metrics, the company's positioning with regard to artificial intelligence is also an integral part of the framework parameters.

Potential acquisitions are presented to CHAPTERS Group AG and reviewed by the Management Board—together with the Supervisory Board if required—before a final investment decision is taken.

MANUSCRIPT METHOD AS THE FOUNDATION OF ACCOUNTABILITY

Responsibility for the development of the Group's operating companies lies with the respective platform managers. CHAPTERS Group AG monitors performance through monthly key financial performance indicators, with particular focus on revenue and total output growth as well as adjusted operating earnings before interest, taxes, and depreciation (Adjusted EBITDA), benchmarked against both the prior-year period and the budget agreed upon between the managing directors, platform managers, and CHAPTERS Group AG.

In collaboration with the platform teams, we refine our Manuscript Method. In addition to best practice sharing, the Manuscript Method comprises a series of standardized processes for implementation across Group companies. These include the definition of strategic priorities for the coming years with corresponding improvement initiatives and action plans, regular reviews of pricing strategies, and a standardized approach to identifying and developing talent within the organization.

Implementation and execution of the Manuscript Method is the responsibility of the platform managers. Monthly review meetings between CHAPTERS Group AG and the platform provide a forum for discussing key developments within the companies belonging to each platform and—where necessary—to define corrective measures early in cases of potential underperformance or ensure that emerging opportunities are effectively leveraged.

EQUITY PARTICIPATION AS A MANAGEMENT INSTRUMENT

A central management instrument within CHAPTERS Group is our investment and incentive structure. Platform teams typically hold equity stakes in the platforms they manage.

For the financing of acquisitions of new operating subsidiaries—and, where required, for capital support to the companies—CHAPTERS Group AG provides shareholder loans bearing an annual interest rate of 10%. This structure creates a clear incentive for Group companies to pursue only those investments with expected returns well above this threshold, while also encouraging excess liquidity to be returned to CHAPTERS Group AG when reinvestment in their own business does not promise higher value creation.

B. Economic report

MACROECONOMIC AND SECTOR-SPECIFIC ENVIRONMENT

Gross domestic product in the European Union increased overall by approximately 1.5% (compared with 1.1% in 2024), thereby remaining broadly in line with the global growth levels. The modest recovery trend seen in 2024 thus continued, although growth remained at a comparatively low level. In the countries particularly relevant to the companies of the CHAPTERS Group (Germany, Austria, and France), growth ranged between 0.2% and 0.6%, remaining below the European level.[1]

MONETARY EASING

The European Central Bank continued the easing cycle initiated in 2024 and reduced the key interest rate in several steps from 3.00% at the beginning of the year to 2.00% as of June 2025. Since then, key interest rates have remained unchanged.

INCREASING ADOPTION OF ARTIFICIAL INTELLIGENCE (AI)

Artificial intelligence was among the key technological growth drivers in the 2025 fiscal year and has become increasingly relevant for investment decisions by companies and public institutions. Generative AI in particular enables digital transformation within companies and public institutions and continues to gain importance as a strategic factor for productivity, innovation, and competitiveness.

The adoption of AI solutions among European companies with more than 10 employees increased significantly in 2025 from 13.5% to 20%, driven primarily by large companies (more than 250 employees). In Germany, the figure of approximately 26% was slightly above the European average.[2]

AI FIRST POLICY OF THE EUROPEAN UNION

In October 2025, the European Commission introduced the so-called "AI First Policy" as part of the Apply AI Strategy. The strategy aims to significantly accelerate the adoption of artificial intelligence in key European industries as well as in the public sector. Public authorities and public-sector entities are expected to systematically evaluate the use of artificial intelligence in order to make processes more efficient, faster, and more citizen-friendly. In addition, the EU plans to provide a dedicated AI Toolbox for public administrations aimed at offering standardized and preferably European AI solutions.

As part of the strategy, the European Commission also intends to provide computing capacities, testing environments, and funding programs in order to facilitate faster access to AI technologies, particularly for small and medium-sized enterprises. At the same time, European providers are to be strengthened in order to reduce dependence on non-European platforms and build independent digital value creation.[3]

CYBER SECURITY AS KEY INVESTMENT FACTOR

Cybersecurity continued to gain importance during the 2025 fiscal year, particularly in mission-critical and regulated industries. These include, among others, energy supply, healthcare, industry, transport, financial services, and public infrastructure. Key drivers are the increasing digitalization of core processes, the growing threat posed by cyberattacks, and stricter regulatory requirements.

According to a study by the European Union Agency for Cybersecurity (ENISA), investments in cybersecurity measures in the relevant industries increased from a median of EUR 0.6 million p.a. in 2021 to EUR 1.5 million p.a. in 2024. While implementation of the European directives aimed at strengthening cybersecurity (NIS Directive) has been the primary driver in recent years, future investments are expected to be driven mainly by efforts to strengthen the resilience of organizations, processes, and systems.[4]

NUMBER OF INTERNATIONAL STUDENTS AT GERMAN UNIVERSITIES CONTINUES TO GROW

According to surveys conducted by the German Academic Exchange Service (DAAD), the number of international students at German universities increased again in the winter semester 2024/25 compared to the previous year, rising by 5.8% to 402.08 thousand.[5] Germany is the most important non-English-speaking host country for international students and ranks third overall among host countries, behind the United States and the United Kingdom.

1 Statistical Office of the European Union, price-adjusted
2 Eurostat News, December 11, 2025: 20% of EU enterprises use AI technologies
3 Communication from the Commission to the European Parliament and the Council, Apply AI Strategy, October 8, 2025
4 European Union Agency for Cybersecurity (ENISA), NIS Investments 2025
5 Wissenschaft weltoffen, 2025 (DAAD/GWHZ)

The share of students coming to Germany from the Asia/Pacific region increased again slightly to 34.7% (previous year: 32.9%), followed by North Africa and the Middle East with approximately 17.3% (previous year: 19.3%). The proportion of students from Sub-Saharan Africa rose slightly to 7.3% compared to 5.4% in the previous year, while approximately 5% of students continue to come from Latin America.

According to an OECD study from 2022, approximately 67% of international students attend German universities for a master's degree or doctorate. More than 50% remain in Germany for at least five years after graduation, while 45% stay for more than ten years.[6]

CONTINUED EXPANSION IN THE FIBER OPTIC SECTOR

In the first half of 2025 alone, the share of households equipped with fiber optic connections in Germany increased from approximately 49% to around 53%.[7] Although Germany has caught up in a European comparison, it still remains significantly below the European average of approximately 79% (as of September 2025).[8]

NUMBER OF PENDING COMPANY SUCCESSIONS IN GERMANY REMAINS AT A HIGH LEVEL

A large portion of our investments in companies has historically taken place in the context of succession solutions, where founders and managing directors seek to withdraw from operational business activities for personal reasons. After the number of pending company successions in the German SME sector had increased for many years, a stagnation is now becoming apparent.

According to estimates by the *Institut für Mittelstandsforschung Bonn*, approximately 186 thousand companies in Germany are expected to require succession solutions in the period from 2026 to 2030 because their owners intend to withdraw from management for personal reasons. This represents approximately 4 thousand fewer company successions than in the previous forecast period from 2022 to 2026.[9]

At 31.1%, companies offering business-related services still account for by far the largest share, although this proportion has also declined compared to the previous forecast period. Around 40% of the expected successions relate to companies within the size category particularly relevant to the Group, namely businesses generating between EUR 1 million and EUR 50 million in revenue.

Against the backdrop of demographic developments in Europe, it can be assumed that comparable trends exist in other European countries.

BUSINESS PERFORMANCE

The 2025 fiscal year was characterized by significant inorganic growth. The merger of Fintiba GmbH (including its subsidiary Coracle GmbH) with Expatrio Global Services GmbH, completed in May 2025, represented the largest transaction since 2019 and established a leading group in the field of digital (financial) solutions for international students and skilled professionals in Germany.

We also recorded the strongest growth in the vertical market software segment since 2019. In the 2025 fiscal year, a total of 16 companies became part of the Group, thereof 8 in the Public segment and 8 in the Enterprise segment.

The spin-off of the GfW Group, completed in April 2025 as part of a management buy-out, whose three operating companies are active in the education sector, also marked the completion of the process of focusing on the Group's core verticals.

Taking into account mergers of operating companies serving comparable customer groups, a total of 60 operating companies were majority-owned by the Group as of December 31, 2025 (previous year: 48 companies).[10]

In addition to inorganic growth,[11] the Group also significantly strengthened its organic growth and profitability profile in 2025 compared to the previous year. Despite the challenging macroeconomic environment, the Group companies achieved organic growth of 1.5% in total output and 12% in EBITDA.

The positive development of the Group companies demonstrates both the effectiveness of the Manuscript Method and the strong positioning of the Group companies as providers of mission-critical solutions to their end customers.

10 Excluding companies in which CHAPTERS Group AG holds a direct or indirect minority interest. These companies are not included in the calculation of the key figures.
11 We define organic growth as full year results for a financial year based on the relevant group structure as of June 30 of that financial year – compared to full year results for the same group for the previous financial year: For organic growth in 2025, the full year results for 2025 based on the group structure as of June 30, 2025 are compared to full year results for 2024 for the same group.

KEY FINANCIAL FIGURES AS OF DECEMBER 31, 2025

The successfully continued growth of the Group in the 2025 fiscal year is reflected in the development of the Group's key financial figures, with the development of total output and EBITDA representing the key management metrics.

	2025	2024
Operating subsidiaries (majority shareholdings)	60	48
Pro-forma total output (revenue less changes in inventories) of operating subsidiaries (majority shareholdings) Organic growth (total output)	EUR 195.0 MM 1.5%	EUR 124.6 MM[12] 11.4%
Pro-forma adjusted EBITDA of operating subsidiaries (majority shareholdings) Organic growth (adjusted EBITDA)	EUR 49.1 MM 12.0%	EUR 30.3 MM 1.0%
Adjusted earnings per share excluding net income from securities and result from share-based compensation[13]	EUR -0.05	EUR 0.28
Adjusted earnings per share excluding net income from securities[13]	EUR -0.48	EUR 0.14
Adjusted earnings per share[13]	EUR -0.03	EUR 0.22
Net debt[14] Invested capital[15]	EUR 138.51 MM EUR 563.4 MM[16]	EUR 20.17 MM EUR 260.0 MM[17]
Additionally invested capital in the acquisition of and investments in minority shareholdings	*EUR 21.7 MM[18]*	*EUR 38.3 MM*

[12] The 2024 consolidated financial statements contain revenue instead of total output, which was approximately EUR 1.2 million higher.
[13] Includes earnings from the sale of operating subsidiaries by NGC Nachfolgekapital amounting to EUR 0.05 per share in 2024 and EUR 0.27 per share in 2025.
[14] Includes bank liabilities, the bond (less treasury-held portions), seller loans, provisions for purchase prices, and liabilities to minority shareholders.
[15] Comprises the total capital invested in the acquisition of Group companies (including debt financing and equity contributions from minority shareholders) as well as funds provided by CHAPTERS Group AG for the operating business activities of subsidiaries. The Company has decided to no longer include investments in minority shareholdings in the amount presented here, but to disclose them separately instead. In the case of minority shareholdings, only the amount invested by CHAPTERS Group AG for the acquisition of the company is taken into account.
[16] Includes an implicit equity contribution of minority shareholders in the Financial Technologies segment amounting to EUR 98.1 million, resulting from the contribution of shares into the newly established holding company.
[17] Includes invested capital of EUR 11.3 million relating to the companies of the GfW Group, which were spun off in 2025.
[18] The decrease compared to December 31, 2024 is attributable on the one hand to the sale of shares in Software Circle plc. In addition, part of the purchase price in connection with the merger of Expatrio Global Services GmbH and Fintiba GmbH was settled through shares in CHAPTERS Beteiligungen 1 GmbH & Co. KG (which itself holds a 48.9% interest in Frankfurt International Bank AG). The amount invested in the company was reclassified proportionately into invested capital.

The figures for total Output and adjusted EBITDA presented here represent a pro forma view including all operating Group companies belonging to the Group as of December 31, 2025 for the entire fiscal year.

Adjusted earnings per share do not take into account the effects on consolidated net income, which are solely attributable to the consolidation requirements of the German Commercial Code (HGB). This mainly relates to the amortization of assets disclosed as part of the purchase price allocation and the associated deferred taxes as well as amortization of goodwill.

In addition, pursuant to Section 301 HGB, the results of operating subsidiaries are included in the consolidated financial statements only from the date of acquisition onward. For the adjusted earnings per share, results generated prior to the acquisition date are also taken into account. Further adjustments (e.g. for one-off expenses as included in the calculation of adjusted EBITDA) are not applied.

The negative adjusted earnings per share in the 2025 fiscal year were primarily attributable to three factors:

1. In the fourth quarter of 2024 and the first quarter of 2025, three companies became part of the Group within the Public segment that made a significantly negative earnings contribution during the 2025 fiscal year. For both companies, the necessary measures were initiated in 2025 in order to significantly improve operational profitability in 2026.
2. In connection with the merger of Fintiba GmbH and Expatrio Global Services GmbH, one-off costs were incurred on the one hand, while on the other hand initial synergies were already realized, the full earnings impact of which will only materialize from 2026 onward.
3. In connection with the placement of the corporate bond (25/30) by CHAPTERS Group AG as well as the raising of financing at subsidiary level, one-off costs from placement and structuring fees were incurred, which also weighed on earnings.

These one-off effects impacted earnings in 2025; for 2026, the Company expects a normalization of earnings per share.

TOTAL OUTPUT AND EBITDA

In the 2025 fiscal year, the Company decided to focus primarily on total output in the future rather than revenue. Total output is defined as revenue less changes in inventories before effects from purchase price allocation.

The reasoning for this decision is the increasing importance of the Public segment, in which long-term service projects are common. Depending on the completion date of projects, annual revenue figures and the corresponding changes in inventories may fluctuate significantly, meaning that total output provides a more accurate picture of the actual business performance. In the 2025 fiscal year, this was particularly relevant in connection with the acquisition of Peak Mobility GmbH (formerly PSI Transcom GmbH), whose customers primarily include companies operating in the field of public transportation.

The figures presented here represent a pro forma view including all operating Group companies belonging to the Group as of December 31, 2025 for the entire fiscal year.

RECONCILIATION OF TOTAL OUTPUT TO THE CONSOLIDATED FINANCIAL STATEMENTS

		2025 in EUR MM	2024 in EUR MM
	Total revenue of operating subsidiaries	**205.88**	**125.84**

=	**Amount reported in the consolidated financial statements**	**2.07**	**11.77**

ADJUSTMENTS

Adjustments were significantly above historical levels in the 2025 fiscal year. This development was driven by three main effects:

1. In the fourth quarter of 2024 and the first quarter of 2025, the Group acquired interests in three companies within the Public segment that possess strong market positions and established products but require operational repositioning with a focus on cost discipline, process optimization, and efficiency improvements. The responsible platform companies initiated the necessary measures, including organizational adjustments, focused project and cost management, as well as the preparation of value-based pricing adjustments for 2026. In addition, earnings were burdened by the economically unfavorable termination of individual projects and by corrections to accounting practices under previous ownership. In total, the three companies contributed negative EBITDA of EUR 10.07 million, which was adjusted back to zero as part of the adjustments. The figures also include the companies of the CarMa Group, which contributed negative EBITDA of EUR 1.13 million (previous year: EUR 1.41 million).

[20] For the calculation of reported EBITDA, reductions in inventories of finished and unfinished goods resulting from purchase price allocation, gains and losses from foreign currency translation, as well as gains, losses, and costs from the disposal of fixed assets are not taken into account. The calculation is included in the explanations relating to the Group's earnings position.

2. At the end of May 2025, Fintiba GmbH and Expatrio Global Services GmbH were combined within the newly established Financial Technologies segment. In connection with the transaction, one-off bonus payments amounting to EUR 1.83 million were incurred. In addition, the adjustments include transaction-related costs (primarily legal advisory fees as well as costs for tax advisory and financial statement preparation), costs resulting from duplicate personnel structures within the companies, and other duplicated cost structures. In total, adjustments for this segment amounted to EUR 5.44 million in the 2025 fiscal year.

3. In the 2025 fiscal year, deferred revenue accruals were recognized for the first time at several companies in order to ensure harmonization of accounting standards across the Group. The one-off effect on total output and EBITDA amounted to EUR 1.11 million.

The remaining adjustments amounting to EUR 4.94 million relate primarily to:

- payments to sellers of companies as well as duplicate managing director salaries during transition phases, included in personnel expenses or consulting expenses (EUR 1.36 million)
- transaction-related costs incurred in preparation for the sale of a company (EUR 0.92 million)
- external development costs for products that have since been discontinued or completed (EUR 0.38 million)
- provisions for severance payments (EUR 0.70 million), and
- one-off consulting expenses (EUR 0.69 million)

One-off income amounting to EUR 0.48 million was deducted in the calculation of adjusted EBITDA.

HOLDING COMPANY COSTS

In the fiscal year 2025, net holding costs totaled EUR 10.96 million, compared with EUR 7.11 million in the previous year. Adjusted for one-off financing-related effects, total holding company costs amounted to EUR 9.46 million compared to EUR 6.34 million in the previous year and therefore increased at a lower rate than adjusted operating EBITDA.

EBITDA at the level of CHAPTERS Group AG includes approximately EUR 1.5 million in costs related to the placement of the corporate bond (25/30) in the 2025 fiscal year. Adjusted for these one-off effects, holding company costs amounted to EUR 5.04 million and were therefore approximately EUR 2.04 million above the previous year's level. The increase reflects investments in the Group's strategic development, resulting in higher personnel and legal advisory expenses, as well as the continued growth of the Group and the increasing requirements associated with the role of the holding company.

At platform level, costs amounted to EUR 4.44 million in the 2025 fiscal year. The previous year's figure of EUR 4.10 million included EUR 0.77 million in costs related to the raising of financing; adjusted for these effects, platform costs in the previous year amounted to EUR 3.33 million. The increase was primarily attributable to the establishment of new platforms in the second half of 2024, which were active throughout the entire 2025 fiscal year. At the same time, additional resources were built up within the platforms—similar to the AG level—in order to further strengthen both organic and inorganic growth.

With the introduction of the Manuscript Method in 2024 and its further development in 2025, the role of both the AG and the platforms has changed. Today, both entities are substantially more involved in the operational development of portfolio companies. Regular pricing reviews as well as detailed and professionally managed pricing adjustment projects are now conducted and implemented by operational management together with the respective platform. In addition, central functions for AI and cybersecurity were established. Beginning with the 2026 fiscal year, part of the platform costs will be allocated to operating EBITDA, as these expenses directly contribute to the operational value creation of the portfolio companies.

ORGANIC GROWTH OF THE GROUP

We define organic growth as the full-year results for a fiscal year based on the respective Group structure as of June 30 of that fiscal year, compared with the results of the same Group structure for the preceding fiscal year. For organic growth in 2025, the full-year results for 2025 based on the Group structure as of June 30, 2025, are compared with the full-year results for 2024 for the same Group structure.

Organic growth in total output amounted to approximately 1.5%, below the expectation updated as part of the 2025 half-year financial statements, which anticipated growth in the mid-single-digit percentage range. The main drivers were the above-mentioned loss-making termination of projects and corrections to accounting practices under previous ownership relating to service projects included in order backlog, which had an effect of approximately EUR 4.26 million. In addition, the effect from the initial recognition of deferred revenue amounted to EUR 1.11 million. Adjusted for these two effects, growth amounted to approximately 4.7% and was therefore in line with expectations.

Growth in adjusted operating EBITDA amounted to 12.0% and was therefore within the expected range of 10–13%.

ADJUSTED EARNINGS PER SHARE

Inherent to the business model of CHAPTERS Group AG and its subsidiaries, the company's consolidated earnings are particularly affected by the results of capital consolidation, the resulting amortization of (intangible) assets, the release of the order backlog identified as part of the purchase price allocation and the associated release of deferred tax liabilities. In addition, the amortization of goodwill has a significant impact on the consolidated result.

For purposes of calculating adjusted consolidated profit, the consolidated net loss for the year is adjusted for these effects (and the related effects on income attributable to non-controlling interests). In addition—as for total output and EBITDA—the earnings of the companies acquired in the current fiscal year that were generated prior to the acquisition by a Group company are also taken into account (adjusted proportionately for the shares of non-controlling shareholders at the various levels).

The result from associated companies is only included in the calculation if it relates to distributions (after taxes). Further adjustments (e.g. for one-off expenses as included in the calculation of adjusted EBITDA) are not applied.

RECONCILIATION FROM CONSOLIDATED NET INCOME TO ADJUSTED EARNINGS PER SHARE

		2025 in EUR '000	2024 in EUR '000
	Net loss for the year	-40,214.18	-12,247.36
-	Minority interests	-10,568.98	-778.08
=	**Consolidated net loss**	**-29,645.20**	**-11,469.28**
±	Decrease/increase in inventories of finished goods from purchase price allocation	-144.70	2,022.25
+	Amortization of assets from purchase price allocation and goodwill	43,877.48	17,544.73
-	Release of deferred taxes[21]	2,283.95	1,528.86
-	thereof included in income attributable to non-controlling interests	12,013.46	2,308.62
+	Other consolidation-related adjustments (to the extent attributable to the parent company)	-1,223.07	-1,613.25
	Adjustment of the consolidated net loss for effects resulting from capital consolidation	**28,212.29**	**14,116.24**
-	Results from associated companies	520.22	-306.86
+	Dividend received from associated companies	0.00	0.00
	Adjustment of the consolidated net loss for results from associated companies	**-520.22**	**306.86**
±	Results of subsidiaries before the date of acquisition date / disposal date	-302.22	3,300.43
-	thereof attributable to non-controlling interests	-1,627.85	1,141.38
	Adjustment of the consolidated net loss for results prior to acquisition date	**1,325.63**	**2,159.06**
=	**Adjusted consolidated profit**	**-627.51**	**5,112.87**
/	Number of shares at year-end	23,842,152	22,986,027
=	**Adjusted earnings per share**	**-0.03**	**0.22**
-	Earnings per share from the securities portfolio of CHAPTERS Group AG	0.45	0.08
=	**Adjusted earnings per share excluding result from the securities portfolio**	**-0.48**	**0.14**
-	Earnings per share from share-based compensation	-0.43	-0.14
	Adjusted earnings per share excluding result from the securities portfolio and share-based compensation[22]	**-0.05**	**0.28**

[21] Differences compared to the income statement amounting to EUR 4.01 thousand (previous year: EUR 35.89 thousand) result from deferred taxes at the level of the operating companies, which are not adjusted.

[22] Includes one-off income from the sale of an operating subsidiary by NGC Nachfolgekapital amounting to EUR 0.05 per share in 2024 and EUR 0.27 per share in 2025.

EARNINGS POSITION OF THE GROUP

The Company has decided to focus primarily on total output before purchase price allocation effects in the future rather than on revenue.

The reasoning for this decision is the increasing importance of the Public segment, in which longterm service projects are common. Depending on the completion date of projects, annual revenue figures and the corresponding changes in inventories may fluctuate significantly, meaning that total output provides a more accurate picture of the actual business performance. In the 2025 fiscal year, this was particularly relevant in connection with the acquisition of Peak Mobility GmbH (formerly PSI Transcom GmbH), whose customers primarily include companies operating in the field of public transportation.

Total output before effects from purchase price allocation amounted to EUR 170.21 million in the fiscal year (previous year: EUR 110.83 million) and consisted of revenue of EUR 180.80 million (previous year: EUR 110.67 million) and changes in inventories at the level of the operating Group companies amounting to EUR -10.59 million (previous year: EUR 0.16 million).

As already explained in the section on business activities, the Company decided in the 2024 fiscal year to introduce a division into three main segments:

	Total in EUR MM	Public in EUR MM	Enterprise in EUR MM	Financial Technologies in EUR MM	Other in EUR MM	Holding companies in EUR MM
Pro forma revenue 2024	**125.96**	**49.08**	**41.55**	**17.22**	**17.99**	**0.12**
Changes in inventories (operating level)	*-1.22*	-1.38	0.19	0.00	-0.02	*0.00*
Pro forma total output 2024	**124.75**	**47.71**	**41.73**	**17.22**	**17.99**	**0.12**
thereof from companies deconsolidated in 2025	*15.64*				*15.51*	*0.12*
Total output from companies already included in the consolidated group in 2024	118.48	46.97	43.71	18.36	9.39[23]	0.06
Total output from companies that became part of the Group in 2025 (pro rata temporis)	51.74	28.47	5.61	17.66	0.00	0.00
Consolidated total output 2025	**170.21**	**75.44**	**49.32**	**36.01**	**9.39**	**0.06**
Less total output from companies deconsolidated in 2025	-6.12				-6.07	-0.05
Plus total output generated in the months prior to inclusion in the consolidated financial statements	30.95	16.53	3.66	10.76	0.00	0.00
Pro forma total output 2025	**195.05**	**91.96**	**52.98**	**46.78**	**3.32**	**0.01**

[23] Includes only the Total Output relevant up to the date until which the companies were part of the Group.

The **increase in inventories of finished and unfinished goods and unfinished services from purchase price allocation** amounted to EUR 0.14 million in the 2025 fiscal year (previous year: decrease of EUR 2.02 million). In the 2025 fiscal year, two companies became part of the Group for which

inventories were considered significantly overvalued from the perspective of CHAPTERS Group AG. As part of the purchase price allocation, corresponding hidden liabilities amounting to EUR 4.26 million were recognized and released at year-end, offset against the decrease in inventories of finished and unfinished goods from other companies amounting to EUR 4.12 million. The increase in purchase price allocation effects from the remaining companies is attributable to the continued growth of the Group.

Other operating income amounted to EUR 29.68 million (previous year: EUR 8.40 million), of which EUR 11.76 million (previous year: EUR 2.76 million) related to gains from disposals of and write-ups on securities at the level of CHAPTERS Group AG.

Income from the disposal of companies from the consolidated group amounting to EUR 11.48 million is included, of which EUR 9.60 million was realized in cash and EUR 1.88 million relates to non-cash income, primarily resulting from the derecognition of retained losses (offset against the derecognition of retained earnings carryforwards where relevant). In the previous year, income from the disposal of companies from the consolidated group amounting to EUR 3.52 million was included, of which EUR 2.10 million was non-cash.

Cost of materials amounted to EUR 22.43 million (previous year: EUR 18.91 million). The cost of materials ratio declined from 17% in the previous year to 12%. This decrease is primarily attributable to the deconsolidation of the companies of the ENTRO Group[24] in the 2024 fiscal year. Due to the nature of their business model, these companies are characterized by a high cost of materials ratio and had been included in the consolidated financial statements for nine months in the 2024 fiscal year.

Personnel expenses amounted to EUR 103.65 million (previous year: EUR 54.98 million). This includes expenses for share-based compensation at the level of CHAPTERS Group AG amounting to EUR 10.20 million (previous year: EUR 2.79 million). In addition, transaction bonuses amounting to EUR 2.36 million were paid to employees (thereof EUR 1.83 million in connection with the merger of Fintiba GmbH and Expatrio Global Services GmbH). Furthermore, in the 2025 fiscal year, pension provisions for the French subsidiaries were recognized as part of the consolidation and harmonization of accounting standards. The amount of EUR 0.53 million is fully included in personnel expenses.

Adjusted for these effects, personnel expenses amounted to EUR 90.56 million in the fiscal year (previous year: EUR 52.19 million), resulting in a personnel expense ratio (based on total output before purchase price allocation) of 53.5%, compared with 47.1% in 2024. The increase is primarily attributable to the deconsolidation of companies during the first half of 2025 that generated a large portion of their costs through purchased services and therefore exhibited a relatively low personnel expense ratio. Due to the lower weighting of these companies in the 2025 fiscal year, the personnel expense ratio increased.

Depreciation and amortization amounted to EUR 47.67 million (previous year: EUR 20.37 million). Of this amount, EUR 8.33 million (previous year: EUR 3.44 million) related to amortization of hidden reserves on assets identified as part of purchase price allocation, while EUR 35.54 million (previous year: EUR 14.11 million) related to amortization of goodwill resulting from capital consolidation. The increase in the 2025 fiscal year is attributable on the one hand to the inclusion of additional companies in the Group and, on the other hand, to the fact that amortization of intangible assets and goodwill acquired in the 2024 fiscal year was recognized for the full fiscal year, whereas in the previous year amortization had only been recognized on a pro rata basis due to the acquisition dates.

Other operating expenses amounted to EUR 49.14 million (previous year: EUR 27.62 million). Losses from the disposal of fixed assets amounting to EUR 0.77 million (previous year: EUR 0.08 million) are primarily attributable to losses from disposals within the securities portfolio of CHAPTERS Group AG and disposals from the consolidated group.

The significant increase in ordinary operating expenses from EUR 26.76 million to EUR 47.55 million is primarily attributable to the continued growth of the Group.

For the calculation of **reported EBITDA** (earnings before taxes, interest, depreciation and amortization, excluding share-based compensation) at Group level amounting to EUR 2.07 million (previous year: EUR 11.77 million), not only depreciation and amortization but also the decrease in inventories of finished goods resulting from the release of the order backlog identified as part of purchase price allocation is added back to earnings before taxes. In addition, expenses and income from foreign currency translation and gains and losses from disposals of fixed assets and related costs are excluded from the calculation.

The consolidation-related expenses and income primarily include expenses resulting from the initial recognition of pension provisions for the French subsidiaries as part of the harmonization of accounting standards. To a lesser extent, other operating income includes, among other things, income from the reversal of differences arising from capital consolidation.

EBITDA includes expenses amounting to EUR 10.20 million (previous year: EUR 2.79 million) in connection with the recognition of provisions for share-based compensation at the level of CHAPTERS Group AG. Excluding these amounts, reported EBITDA would have amounted to EUR 12.27 million (previous year: EUR 14.56 million).

		2025 in EUR MM	2024 in EUR MM
	Earnings before interest and taxes according to the consolidated income statement	**-22.85**	**-4.67**
+	Decrease in inventories from purchase price allocation	-0.14	2.02
+	Depreciation and amortization	47.67	20.37
±	Expenses / income from foreign currency translation	-0.46	0.39
-	Gains from disposals / write-ups of fixed assets	-23.38	-6.47
+	Losses from disposals of fixed assets	0.77	0.08
±	Consolidation-related expenses / income	0.47	0.00
+	Disposal and formation costs (other operating expenses)	0.00	0.07
=	**EBITDA after results from disposals of fixed assets**	**2.07**	**11.77**
+	**Share-based compensation**	**10.20**	**2.79**
=	**EBITDA after results from disposals of fixed assets and share-based compensation**	**12.27**	**14.56**

[24] The companies offer installation, replacement and repairs in the field of electronic gate and door systems, barriers and fire and smoke protection systems, among other things, and therefore have a rather high cost of sales inherent in their business model.

For the calculation of adjusted EBITDA, reference is made to the explanations in the section on business performance.

Net financial result amounted to EUR -14.97 million overall (previous year: EUR -4.72 million). The composition is shown in the following table.

	2025 in EUR MM	2024 in EUR MM
Result from associated companies	**0.52**	**-0.31**
Income from participations	**0.01**	**0.01**
Income from other securities and loans classified as financial assets	**0.22**	**0.41**
thereof at the level of CHAPTERS Group AG	*0.22*	*0.36*
thereof at the level of subsidiaries	*0.00*	*0.05*
Other interest and similar income	**1.44**	**1.69**
thereof at the level of CHAPTERS Group AG	*0.62*	*1.23*
thereof at the level of subsidiaries	*0.82*	*0.46*
Interest and similar expenses	**-15.86**	**-5.39**
thereof at the level of CHAPTERS Group AG	*-1.85*	*-1.99*
thereof at the level of subsidiaries	*-14.01*	*-3.40*
Write-downs on financial assets	**-1.29**	**-1.13**
thereof at the level of CHAPTERS Group AG	*-1.24*	*-1.13*
thereof at the level of subsidiaries	*-0.05*	*0.00*
Financial result	**-14.96**	**-4.72**

The financial result attributable to CHAPTERS Group AG is explained in the following presentation of the earnings position of CHAPTERS Group AG.

Other interest and similar income at subsidiary level amounting to EUR 0.82 million includes EUR 0.10 million in interest income from companies in which an equity investment is held. EUR 0.22 million relates to interest income from seller loans issued in connection with the spin-off of companies in 2024 and 2025, which have since been fully repaid. The remaining amounts relate to interest income from cash deposits.

Interest and similar expenses amounted to EUR 15.86 million (previous year: EUR 5.39 million) against gross debt of EUR 245.25 million at year-end (previous year: EUR 78.68 million) and include one-off structuring fees payable to financing partners amounting to EUR 2.24 million. The significant increase at subsidiary level is primarily attributable to the raising of debt financing of approximately EUR 47 million to finance new acquisitions in the Public and Enterprise segments, as well as the assumption of bank and seller loans amounting to approximately EUR 93.3 million in connection with the merger of Fintiba GmbH and Expatrio Global Services GmbH. Expenses also include interest expenses payable to minority shareholders amounting to EUR 0.28 million

In the previous year, the **result from associated companies** was primarily affected by amortization of the acquired goodwill attributable to Software Circle plc included in the result. CHAPTERS Group AG held more than 20% of the company until October 2025. At year-end, CHAPTERS Group AG held 9.81% of the shares, meaning that no result from associated companies in connection with Software Circle plc is recognized anymore. In addition, the increase is attributable to the positive result of the included MedNation AG.

Income taxes amounted overall to EUR 2.17 million (previous year: EUR 2.76 million), including EUR 2.28 million (previous year: EUR 1.49 million) from the reversal of deferred tax assets and liabilities (primarily resulting from purchase price allocation effects), offset against current taxes incurred at the level of the individual companies amounting to EUR 4.45 million (previous year: EUR 4.26 million).

The **consolidated net loss** for the year amounted to EUR 40.21 million overall (previous year: EUR 12.25 million). Of this amount, EUR 10.57 million (previous year: EUR 0.78 million) was attributable to minority shareholders at the various levels of the Group and EUR 29.65 million (previous year: EUR 11.47 million) to the parent company. For the consolidation-related effects on consolidated net income, reference is made to the reconciliation from consolidated net loss to adjusted earnings per share in the presentation of business performance.

LIQUIDITY POSITION OF THE GROUP

Cash and cash equivalents increased overall by EUR 48.23 million in the 2025 fiscal year to EUR 106.74 million (December 31, 2024: EUR 58.51 million). During the reporting period, the CHAPTERS Group AG Group generated positive cash flow from operating activities amounting to EUR 18.50 million (previous year: EUR 11.60 million).[25]

Cash flow from investing activities amounted overall to EUR -102.23 million (previous year: EUR -97.40 million), of which EUR 131.80 million (previous year: EUR 100.18 million) related to payments for the acquisition or increase of interests in operating subsidiaries. Cash inflows from the disposal of companies from the consolidated group (and, to a lesser extent, from reductions in the share attributable to the Group) amounted to EUR 10.29 million (previous year: EUR 8.89 million).

Payments for investments in property, plant and equipment amounting overall to EUR 1.66 million (previous year: EUR 3.70 million) related in the amount of EUR 0.59 million (previous year: EUR 2.30 million) to investments in the completion of fiber optic networks and the associated investments in active network technology by companies belonging to CarMa Holding GmbH. The remaining payments related to smaller investments within the Group companies.

Payments for financial assets amounting overall to EUR 10.54 million (previous year: EUR 16.49 million) primarily resulted from the acquisition of securities at the level of CHAPTERS Group AG. The previous year's figure additionally included EUR 5.19 million paid into the capital reserve of an associated company and EUR 0.74 million for the acquisition of shares in Software Circle plc.

Cash inflows from the disposal of financial assets amounted overall to EUR 33.74 million (previous year: EUR 13.23 million). Of this amount, EUR 32.14 million (previous year: EUR 12.60 million) resulted from the sale of securities by CHAPTERS Group AG, primarily shares in Software Circle plc. EUR 1.25 million related to payments on claims deferred in previous years by CHAPTERS Beteiligungsgesellschaft mbH in connection with disposals of companies from the consolidated group. In the 2025 fiscal year, a bridge loan amounting to EUR 2.62 million was also granted to an associated company.

Cash flow from financing activities amounted to EUR 122.76 million (previous year: EUR 85.79 million[25]). Of this amount, EUR 16.49 million (previous year: EUR 84.93 million) related to the cash capital increase carried out by CHAPTERS Group AG in April 2025. The capital increase against contribution in kind completed in September 2025 is not included, as it did not affect cash flow.

Minority shareholders at the level of various Group companies contributed a total amount of EUR 1.69 million (previous year: EUR 0.28 million), of which EUR 0.81 million was used to refinance shareholder loans previously provided by the same minority shareholders.

Distributions to minority shareholders amounted to EUR 2.19 million (previous year: EUR 0.33 million), of which EUR 1.74 million related to disposals of companies from the consolidated group.

Cash inflows from the issuance of bonds and the raising of loans include EUR 65.16 million from the issuance of the corporate bond (25/30) by CHAPTERS Group AG. The nominal amount of EUR 72 million was offset against the portions repurchased by the Company for its own account and increased by accrued interest received in connection with the tap issue in October 2025.

Subsidiaries raised debt financing amounting to EUR 83.09 million in total (previous year: EUR 32.92 million). Newly assumed seller loans are not included, as they are not cash-effective.

Repayments of bank financing amounted to EUR 7.44 million. Also included is an amount of EUR 15.87 million relating to the repurchase and subsequent full repayment of the perpetual bond by CHAPTERS Group AG. Seller loans from previous years were repaid in the amount of EUR 4.61 million.

The amount of cash and cash equivalents acquired as part of the acquisition of new operating subsidiaries by the platform companies amounted to EUR 12.10 million (previous year: EUR 8.66 million). The change resulting from the disposal of companies that belonged to the 2024 consolidated group amounted overall to EUR -2.79 million (previous year: EUR -1.00 million).

Exchange rate-related changes in cash and cash equivalents amounting to EUR -0.10 million resulted from companies belonging to the consolidated group that prepare their financial statements in foreign currencies (United States, China, Czech Republic, and Switzerland) and from differences in the exchange rates applied for the consolidation of local cash balances as of December 31, 2024 and the translation as of December 31, 2025

[25] The deviation from the amounts included in the 2024 consolidated financial statements of EUR 11.47 million for cash flow from operating activities and EUR 85.92 million for cash flow from financing activities results from the allocation of costs related to corporate actions.

NET ASSETS POSITION OF THE GROUP

The Group's **total assets** increased by approximately 88% in the 2025 fiscal year, from EUR 353.74 million to EUR 665.02 million, as a result of the Group's continued acquisition activity.

Fixed assets of the Group increased from EUR 267.91 million to EUR 510.50 million in the 2025 fiscal year, with the increase in intangible assets of EUR 247.17 million offset by a reduction in property, plant and equipment of EUR 0.35 million and in financial assets of EUR 4.23 million.

Driven by the strong acquisition activity in the 2025 fiscal year, the share of goodwill[26] as well as hidden reserves on assets identified as part of purchase price allocation in total non-current assets increased from 76% to 88%.

The decrease in **financial assets** is primarily attributable to the reduction in shares in Software Circle plc held by CHAPTERS Group AG. As of December 31, 2024, CHAPTERS Group AG was the largest shareholder in Software Circle plc with a stake of 29.9%, and the investment was reported under investments in associated companies. During the 2025 fiscal year, CHAPTERS Group AG reduced its shareholding in several steps to 9.81% at year-end. The remaining shareholding is now reported under **securities held as financial assets** and is a key driver of the increase in this position. In addition, financial assets include portions amounting to EUR 7.32 million of own shares in the corporate bond (25/30), which was placed for the first time in 2025.

The increase in **inventories** by EUR 3.99 million is primarily attributable to hidden reserves identified in connection with existing contracts as part of the purchase price allocation.

The increase in **receivables from associated companies** results from the provision of a bridge loan to Global Heart Beteiligungsgesellschaft mbH, which in turn used the funds for an increase in the equity of FIB Frankfurt International Bank AG. In the 2026 fiscal year, the loan was partially replaced through an equity contribution, and the remaining amount is expected to be settled in the first half of 2026. In addition, trade receivables by Fintiba GmbH from FIB Frankfurt International Bank AG are included. FIB Frankfurt International Bank AG acts as partner for Fintiba GmbH for blocked accounts since summer 2025.

The increase in **receivables and other assets** is primarily attributable to the acquisition of additional subsidiaries. The development of the individual positions is shown in the following table.

	Trade receivables in EUR MM	Other assets in EUR MM
December 31, 2024	**10.34**	**8.97**
Change from companies acquired in 2025	11.48	2.07
Change from companies deconsolidated in 2025	-0.24	-1.87
Change from companies that were part of the Group in both years	1.34	-0.94
December 31, 2025	**22.92**	**8.23**

Equity increased by EUR 16.5 million as a result of the cash capital increase carried out by CHAPTERS Group AG as the Group's parent company and registered in April. The capital increase against contribution in kind completed in October 2025 increased equity by EUR 13.47 million. As contribution in kind, the subscribers to the capital increase contributed a loan repayment claim against CHAPTERS Beteiligungsgesellschaft mbH amounting to EUR 13.47 million.

The **currency translation difference** from revaluation decreased from EUR 1.38 million to EUR 0.71 million. This position results from Group companies that do not prepare their financial statements in euro. Due to differing exchange rates between valuation at the acquisition date and preparation of the consolidated interim financial statements, differences arise in the revalued assets identified as part of purchase price allocation, which are offset through this position. The decrease is primarily attributable to the appreciation of the Czech koruna against the euro.

Retained earnings attributable to the Group decreased by EUR 0.26 million due to the increase in the shareholding of a minority shareholder at the level of one of the subsidiaries. Similar to consolidated net income, retained earnings are significantly influenced by the effects of capital consolidation. The effect attributable to the Group from prior years relating to amortization of goodwill and assets identified as part of purchase price allocation, as well as related deferred taxes, amounted to EUR -33.81 million and is reflected in retained earnings.

Taking into account the consolidated net loss for the year and the interests of minority shareholders in equity at the various levels of the Group, **consolidated equity** amounted to EUR 313.57 million as of December 31, 2025 (previous year: EUR 224.99 million). The equity ratio amounted to 47.2% (previous year: 63.6%)

The **difference arising from capital consolidation** amounting to EUR 2.13 million (previous year: EUR 2.14 million) results from the acquisition of two companies out of insolvency by CarMa Holding GmbH in 2023, for which the purchase price paid was below the revalued amount of the acquired non-current assets due to the insolvency situation. Both companies developed positively in the 2025 fiscal year in line with expectations at the time of acquisition. As expected, one of the companies reached break-even in 2025, while the second company is expected to reach break-even in 2026 as originally planned, meaning that no adjustment for expected losses was required.

The **special item** amounting to EUR 1.68 million (previous year: EUR 1.62 million) relates to subsidies received in previous years for the expansion of a fiber optic network at a company belonging to the Glasfaser Direkt Group. The subsidy received is recognized as a liability and released to other operating income over the useful life of the subsidized network.

Provisions for pensions and similar obligations amounting to EUR 5.82 million were recognized for the first time in the consolidated financial statements as of December 31, 2025. This includes EUR 4.31 million relating to pension obligations of subsidiaries acquired in the 2025 fiscal year. In addition, EUR 0.53 million relates to provisions for pension obligations of French subsidiaries recognized as part of the consolidation and harmonization of accounting standards.

[26] Of this amount, EUR 1.77 million (previous year: EUR 1.06 million) relates to goodwill already recognized in the acquired companies prior to their acquisition by CHAPTERS Group AG and its subsidiaries

	Tax provisions in EUR MM
December 31, 2024	**7.03**
Increase from companies acquired in 2025	2.42
Decrease from companies deconsolidated in 2025	-0.04
Decrease from companies that were part of the Group in both years	-1.60
December 31, 2025	**7.81**

The slight increase in **tax provisions** from EUR 7.03 million to EUR 7.81 million is primarily attributable to the addition of companies to the consolidated group, while tax provisions at companies that were part of the consolidated group in both years were reduced through payments.

Other provisions amounting to EUR 32.12 million (previous year: EUR 12.17 million) include provisions for share-based compensation at the level of CHAPTERS Group AG amounting to EUR 13.86 million (previous year: EUR 3.66 million). The share-based compensation program was introduced in the 2023 fiscal year. Further explanations regarding the calculation of these provisions are included in the following explanations relating to the financial position and net assets position of CHAPTERS Group AG.

Provisions for earn-out obligations amounting to EUR 1.30 million were newly recognized, while provisions from previous years amounting to EUR 0.40 million were reversed following the corresponding payment. EUR 0.9 million were reclassified into liabilities to sellers, as the final payment amount has now been determined. As of year-end 2025, the carrying amount therefore totaled EUR 2.28 million (previous year: EUR 2.29 million). The remaining increase in provisions is primarily attributable to the acquisition of additional subsidiaries. The development of the individual positions is shown in the following table.

	Other provisions in EUR MM
December 31, 2024	**12.17**
Increase in provisions for share-based compensation	10.20
Change in provisions for earn-out obligations	- 0.01
Increase from companies acquired in 2025	8.16
Decrease from companies deconsolidated in 2025	-1.14
Change in companies that were part of the Group in both years	2.72
December 31, 2025	**32.12**

Liabilities to banks increased by a total of EUR 67.84 million in the 2025 fiscal year to EUR 111.19 million. Of this amount, EUR 35 million relates to financing raised for the merger of Fintiba GmbH and Expatrio GmbH, while EUR 10.17 million relates to financing raised for transactions completed in 2024, which was used to refinance bridge financing previously provided by CHAPTERS Group AG.

The positive development of the relevant operating subsidiaries, together with repayments made in previous years, additionally enabled the raising of EUR 37.4 million, which was used to finance additional transactions in 2025. The remaining effects are shown in the following table.

	Liabilities to credit institutions in EUR MM
December 31, 2024	**43.35**
New acquisition financing	82.57
Repayment of acquisition financing	-6.54
Disposal of companies from the consolidated group	-8.41
Borrowings / repayments at operating level	-0.13
Addition of companies to the consolidated group	0.25
Capitalized interest	0.09
December 31, 2025	**111.19**

The increase in **trade payables** and **advance payments received** is primarily attributable to the addition of companies to the consolidated group:

	Trade payables in EUR MM	Advance payments received in EUR MM
December 31, 2024	**4.34**	**0.16**
Increase from companies acquired in 2025	5.26	1.46
Decrease from companies deconsolidated in 2025	-0.39	0.00
Decrease from companies that were part of the Group in both years	-1.17	-0.05
December 31, 2025	**8.03**	**1.57**

The **liabilities to associated companies** relate to liabilities by Fintiba GmbH to FIB Frankfurt International Bank AG.

Other liabilities amounted to EUR 77.23 million (previous year: EUR 22.89 million), including **liabilities from seller loans** amounting to EUR 64.52 million (previous year: EUR 14.25 million). In connection with transactions completed in the 2025 fiscal year, purchase prices amounting to EUR 60.33 million were deferred in the form of seller loans. Seller loans from previous years amounting to EUR 4.61 million were repaid through payments. An amount of EUR 8.80 million was derecognized without cash effect. The Company is of the opinion that payment is not required, as extensive warranty claims exist against the seller. EUR 2.18 million relates to capitalized interest on seller loans, while EUR 1.17 million relates to reclassifications from earn-out provisions and payment obligations arising from

transactions from previous years in excess of the corresponding provisions.

In addition, other liabilities include **liabilities to minority shareholders** amounting to EUR 2.58 million (previous year: EUR 2.80 million). An amount of EUR 0.43 million of the decrease is attributable to the disposal of companies from the consolidated group.

Deferred income amounting to EUR 17.14 million (previous year: EUR 10.18 million) includes payments already received at the level of the operating subsidiaries for contracts extending beyond the reporting date. Of the increase, EUR 5.51 million is attributable to the addition of companies to the consolidated group, while disposals of companies from the consolidated group resulted in a change of EUR 1.61 million. At companies that were part of the consolidated group in both 2024 and 2025, deferred income amounting to EUR 3.06 million was built up.

Deferred tax liabilities amounting to EUR 14.5 million (previous year: EUR 8.85 million) primarily result from the purchase price allocation carried out as part of capital consolidation.

EARNINGS POSITION OF CHAPTERS GROUP AG (PARENT COMPANY OF THE GROUP)

The **revenue** generated in the 2025 fiscal year amounting to EUR 2.20 million (previous year: EUR 0.33 million) relates to the recharge of costs borne by CHAPTERS Group AG (primarily personnel expenses) to subsidiaries (platforms).

	2025 in EUR MM	2024 in EUR MM
Realized gains from the sale of securities	10.90	2.48
Reversal of write-downs from previous years	0.18	0.28
Write-ups on securities classified as financial assets	0.69	0.00
Realized losses from the sale of securities	-0.28	-0.24
Reversal of write-downs from previous years	0.07	0.17
Dividends and interest income from fixed-income investments	0.09	0.25
Write-downs on financial assets	-0.44	-1.13
Result from securities portfolio	**11.22**	**1.81**

Interest income from shareholder loans granted (including loans to companies in which CHAPTERS Group AG holds a minority interest) as well as interest-like income from affiliated companies amounted to EUR 14.68 million[27] in total (previous year: EUR 9.75 million), slightly above the expected range of EUR 12.00 million to EUR 14.00 million. The significant increase in interest income compared to the previous year reflects the continued investment activity in the 2025 fiscal year and the resulting increase in shareholder loans provided by CHAPTERS Group AG to finance acquisitions.

Total **interest expense** for the 2025 fiscal year amounted to EUR 1.85 million (previous year: EUR 1.99 million). Of this amount, EUR 0.40 million (previous year: EUR 1.99 million) related to the perpetual bond outstanding until May 2025. An amount of EUR 1.43 million relates to the corporate bond (25/30), which was placed for the first time in August 2025.

The **result from the securities portfolio** of CHAPTERS Group AG amounted to EUR 11.22 million in the 2025 fiscal year (previous year: EUR 1.81 million). The composition is shown in the adjacent table.

In addition to write-downs on securities, write-downs amounting to EUR 0.81 million were recognized on a shareholder loan granted to one of the Company's minority investments. The company was sold in the second half of 2025, and a betterment clause relating to the loan was agreed in connection with the sale.

The costs of CHAPTERS Group AG as a standalone entity primarily consist of personnel expenses, legal and consulting expenses, as well as costs associated with the Company's legal structure.

[27] of which EUR 0.13 million (previous year: EUR 0.12 million) is reported under income from loans classified as financial fixed assets

Personnel expenses amounted to EUR 12.70 million in the 2025 fiscal year (previous year: EUR 3.61 million). Of this amount, EUR 10.20 million (previous year: EUR 2.79 million) relates to provisions recognized in connection with share-based compensation (in addition to the provisions already existing from the previous year).

In the 2023 fiscal year, the Company's Supervisory Board established a virtual share option plan ("Virtual Share Option Plan", "VSOP") for the members of the Management Board. In the 2024 fiscal year, the share option plan was extended to key employees of the Company. As of December 31, 2025, the number of granted and vested options amounted to 855,105, of which 750,000 relate to the Management Board. Taking into account the respective strike prices and the remaining term until exercise, the options are valued using the Black-Scholes model at option values ranging between EUR 14.21 and EUR 16.38. Further information regarding the VSOP can be found in the notes to the consolidated financial statements under "Compensation of Governing Bodies".

The increase in other personnel expenses is primarily attributable to the hiring of additional employees—both to fulfill the role of the holding company and for the platforms. As in the previous year, personnel expenses for the position of Chief Operating Officer for the vertical market software segment, created in March 2024, are not included. The related personnel expenses are borne by a wholly owned subsidiary of the AG and charged to CHAPTERS Group AG. In the standalone financial statements of CHAPTERS Group AG, the amount is included in other operating expenses.

Legal and consulting expenses of EUR 2.16 million were significantly above the previous year's level of EUR 0.53 million. An amount of EUR 0.69 million relates to legal and consulting expenses borne by CHAPTERS Group AG in connection with the merger of Fintiba GmbH and Expatrio Global Services GmbH, which were recharged to the relevant subsidiaries. The additional increase is primarily attributable to consulting expenses in connection with the continued strategic development and evaluation of growth opportunities for the Group.

Costs associated with the Company's legal structure amounted to EUR 0.64 million in the 2025 fiscal year, slightly above the previous year's level of EUR 0.60 million. The increase is primarily attributable to higher audit fees resulting from the continued growth of the Group.

Other operating expenses amounted to EUR 1.72 million (previous year: EUR 1.24 million). Of the total increase of EUR 0.78 million, EUR 0.21 million relates to non-deductible input VAT, **particularly in connection with the costs of the placement of the corporate bond.**

Other operating expenses amounted to EUR 1.72 million (previous year: EUR 1.24 million). Of the total increase of EUR 0.78 million, EUR 0.21 million relates to non-deductible input VAT, particularly in connection with the costs of the placement of the corporate bond.

Overall, the costs of CHAPTERS Group AG—net of revenue—for the 2025 fiscal year excluding share-based compensation amounted to EUR 6.27 million (previous year: EUR 2.86 million), slightly above the range of EUR 5.5 million to EUR 6.0 million expected according to the half-year report.

Income taxes amounted to EUR 0.87 million (previous year: EUR 1.43 million). Since the 2023 fiscal year, no tax loss carryforwards have existed anymore.

Overall, as of December 31, 2025, the Company reported **net income** for the year of EUR 6.48 million (previous year: EUR 3.64 million). The **accumulated profit** therefore amounted to EUR 3.51 million (previous year: accumulated deficit of EUR 2.97 million).

FINANCIAL POSITION, NET ASSETS POSITION AND LIQUIDITY POSITION OF CHAPTERS GROUP AG (PARENT COMPANY OF THE GROUP)

Total assets of the Company as of December 31, 2025, increased by EUR 107.13 million compared to the previous year to EUR 378.67 million. Taking into account net income for the year of EUR 6.48 million as well as the increase in share capital and capital reserves totaling EUR 29.96 million resulting from the capital increases completed in April and October 2025, **total equity** of the Company increased to EUR 286.37 million as of December 31, 2025 (previous year: EUR 249.93 million).

The increase in **provisions** from EUR 5.28 million to EUR 17.45 million is primarily attributable to the addition of EUR 10.20 million to provisions in connection with share-based compensation (Virtual Share Option Plan, "VSOP"). Further information regarding the VSOP can be found in the explanations relating to the earnings position of CHAPTERS Group AG as well as in the notes to the consolidated financial statements under the explanations regarding provisions. The increase in other provisions is primarily attributable to provisions for consulting services payable only in 2028. Tax provisions increased from EUR 1.32 million to EUR 2.19 million.

Under **liabilities**, the issued perpetual bond amounting to EUR 16.00 million was reported until May 2025. Following a repurchase in March 2025, the bond was fully repaid in May 2025.

In August 2025, the Company placed the first tranche of its corporate bond (25/30) in the amount of EUR 32 million, while a second tranche in the amount of EUR 40 million was placed in October 2025.

Shares in affiliated companies increased from EUR 43.47 million to EUR 130.10 million in the 2025 fiscal year. The Company contributed a total of EUR 86.60 million to the capital reserves of CHAPTERS Beteiligungsgesellschaft mbH, which in turn used the funds, on the one hand, to finance the merger of Fintiba GmbH and Expatrio Global Services GmbH and the related increase in the Company's interest in the merged group from 55% to 61.74%, and, on the other hand, to finance the investment in Finfox Software and Technology AG through a Swiss subsidiary.

As in the previous year, **participations** continue to include the shares in NPV Nachfolge Beteiligungen GmbH, Dorsten and MedNation AG, Bonn (ISIN DE0005653604), held by CHAPTERS Group AG. The interest in MedNation AG increased from 20% to 21.49% during the 2025 fiscal year. The investment is recognized at acquisition cost of EUR 2.44 million (previous year: EUR 2.34 million). In the previous year, the position also included the shares in Software Circle plc, Manchester (ISIN GB0009638130), held by CHAPTERS Group AG, recognized at acquisition cost of EUR 17.36 million. During the 2025 fiscal year, CHAPTERS Group AG reduced its shareholding from 29.9% to 9.81%. The remaining shares are recognized at acquisition cost under securities classified as financial assets.

In its role as Group holding company, CHAPTERS Group AG provides the funds required for the acquisition of new operating companies by the platform companies and, to a lesser extent, for financing the build-up of business operations, either in the form of **shareholder loans or contributions to the capital reserves** of subsidiaries. In connection with the financing of acquisitions of operating companies, a portion of the purchase price is typically financed through debt capital provided by banks.

Where bridge financing is required during the transaction process for the period between the

acquisition of a company and the provision of external financing, such financing is provided through shareholder loans. Refinancing typically takes place within a few weeks. Interest accruing on the shareholder loans may either be capitalized or paid at the discretion of the subsidiaries. In principle, payment of the interest by the subsidiaries is intended. The bridge loans and capitalized interest are reported in current assets under receivables from affiliated companies and participations. As of December 31, 2025, the total amount was EUR 22.89 million (previous year: EUR 46.31 million). Of this amount, EUR 5.62 million (previous year: EUR 32.35 million) related to shareholder loans granted as part of bridge financing arrangements. Of this amount, EUR 1.08 million had already been repaid after the reporting date. The amount of capitalized interest (including interest from previous years to the extent not yet paid) totaled EUR 13.56 million (previous year: EUR 13.97 million). Of this amount, EUR 2.52 million had already been repaid after the reporting date. The remaining amount of EUR 0.50m in receivables from affiliated companies relates to trade receivables.

Shareholder loans that are not intended to be refinanced in the short term but are instead intended to be repaid over the coming years from the operating cash flow of the acquired companies are recognized as loans to affiliated companies and participations under non-current assets due to their long-term nature. Overall, the amount of long-term shareholder loans increased by EUR 17.77 million during the fiscal year to EUR 140.28 million and reflects the investment activity of the platform companies in the 2025 fiscal year.

Other assets amounting to EUR 1.86 million (previous year: EUR 3.77 million) primarily include a bridge loan granted to a co-shareholder.

The cash deposit included in the previous year in connection with the delisting of MedNation AG amounting to EUR 2.11 million was repaid in January 2025, less the amount attributable to the shares acquired by CHAPTERS Group AG plus proportional costs.

As part of its **liquidity management**, CHAPTERS Group AG partially invests excess liquidity in securities. Equity investments are measured in accordance with the lower of cost or market principle under German commercial law (§ 253 (3) sentence 5 HGB) at the lower of acquisition cost and market value as of December 31, 2025, whereby a write-down to market value is only recognized if the market value is at least 5% below acquisition cost.

The carrying amount of EUR 14.40 million is significantly below market value. During the 2025 fiscal year, the (convertible) bonds included in previous years were repaid or sold. As of December 31, 2025, the market value of the securities portfolio (excluding the shares in MedNation AG) amounted to EUR 19.34 million (previous year: EUR 8.27 million). Of this amount, EUR 10.51 million related to Software Circle plc.

As of December 31, 2025, in addition to the shares in Software Circle plc, the portfolio consisted of seven further positions, including five individual securities and two funds. Based on market values as of December 31, 2025, the share of the individual positions in the total portfolio (including Software Circle) ranged between 1.3% and 25.07%.

LIQUIDITY POSITION OF CHAPTERS GROUP AG

CHAPTERS Group AG received cash inflows of EUR 16.49 million from the cash capital increase completed in April 2025. As part of the capital increase against contribution in kind in October 2025, a receivable against a direct subsidiary of CHAPTERS Group AG was contributed in kind—the amount was offset against investments in the equity of subsidiaries. Costs relating to both Corporate Actions amounted to approximately EUR 57 thousand. From the issuance of the corporate bond (25/30), CHAPTERS Group AG received total proceeds of EUR 63.92 million, including accrued interest and net of costs amounting to EUR 1.48 million, excluding the portions subscribed by CHAPTERS Group AG itself.

Together with the net proceeds from the reduction of the securities portfolio, the available capital was used to grant new shareholder loans and provide equity for the acquisition of additional operating Group companies by the platforms, as well as for the repurchase and subsequent full repayment of the perpetual bond.

[28] including the shares in MedNation AG amounting to EUR 1.68 million (previous year: EUR 0.94 million), which are reported under participations. The previous year's figure also included the shares in Software Circle plc amounting to EUR 32.31 million, which were likewise reported under participations in 2024.

C. Opportunity and Risk Report

CHAPTERS Group AG pursues the objective of building the home for "mission-critical digital solutions" and increasing the value of the Group on a long-term and sustainable basis.

The principal **risks** for the CHAPTERS Group AG Group are presented below in descending order of their relevance (as assessed by the Company) for the future development of the Group.

The Company sees significant **opportunities** for the long-term and sustainable increase in the value of the Group in a stronger focus on the organic growth of the existing Group companies, the development of AI-native additional functionalities with tangible customer benefits, as well as participations in additional operating companies within the established segments.

RISKS RELATED TO THE ACQUISITION OF NEW OPERATING COMPANIES

As part of the acquisition of new operating companies, the participation platforms conduct comprehensive market analyses as well as tax, legal and financial due diligence reviews. Nevertheless, it cannot be ruled out that not all risks are known or identified at the time of acquisition. To limit the resulting risks, new operating companies are generally acquired through legally independent acquisition vehicles. Control and profit transfer agreements between CHAPTERS Group AG and its subsidiaries generally do not exist. In addition, the purchase agreements contain extensive warranties from the sellers regarding the completeness and accuracy of the information provided.

In the 2025 fiscal year, this risk partially materialized in connection with two acquisitions in different business areas.

In the case of one participation, it became apparent after completion of the transaction that certain processes did not fully comply with regulatory requirements, contrary to the information available during due diligence. The responsible platform reacted by promptly transferring the operations into a compliant setup.

In the case of another participation, it became apparent after the acquisition that operating profitability was below the assumptions underlying the acquisition process. The responsible platform initiated corresponding operational and structural measures to restore the company's earnings power in the 2026 fiscal year to the level expected at the time of acquisition.

In both cases, contractual claims against the respective sellers are being reviewed and asserted. Whether and to what extent these claims will result in payments cannot currently be reliably assessed. In the case of one of the two companies, a payment amounting to EUR 8.8 million under the seller loan was outstanding. The parent company offset this amount against the asserted claims in accordance with the contractual provisions. Following comprehensive legal advice, it is not expected that a lawsuit for payment brought by the sellers would be successful, although such a risk cannot be entirely excluded.

The economic effects remain limited to the respective participation companies and negatively impacted the results of the 2025 fiscal year. Material long-term negative effects on the net assets, financial position and results of operations of the Group are currently not expected.

Lessons learned from both transactions were used to strengthen future due diligence reviews in selected areas.

RISKS ARISING FROM PERSONNEL DEPENDENCIES AND THE SHORTAGE OF SKILLED WORKERS

At the level of the holding company and the participation platforms, there is a dependency on individual key executives in certain critical areas. In addition, the ongoing shortage of skilled workers, particularly in technology-related functions, may negatively impact the growth of individual participations.

RISKS RELATED TO CYBERSECURITY

Cybersecurity represents a key risk area for companies operating in the software industry. Cyberattacks, system outages or data protection incidents may lead to business interruptions, data loss, reputational damage and financial burdens.

The Group benefits from its decentralized structure with largely independent IT infrastructures. During the 2025 fiscal year, a Group-wide competence center for IT security as well as a framework for assessing security levels and deriving corresponding measures were established.

In the 2025 fiscal year, CHAPTERS Group AG experienced a phishing incident resulting from the compromise of an email account. The Company used the incident as an opportunity to further strengthen existing protective measures, in particular through the introduction of the email security solution developed and operated by its subsidiary GBS Europa GmbH.

RISKS ARISING FROM THE DEVELOPMENT OF THE OPERATING PARTICIPATIONS

The diversified structure of the Group reduces its dependence on individual participation companies. No company in the Public and Enterprise segments accounts for more than 7.2% of the Group's adjusted operating EBITDA (based on results for the 2025 fiscal year). Following the merger of Fintiba GmbH and Expatrio Global Services GmbH, the Financial Technologies segment grew significantly and accounted for approximately 39% of the Group's adjusted operating EBITDA in 2025.

Increasingly, participations are bundled and refinanced through joint acquisition companies. However, the operating business development of the individual companies remains largely independent. In addition, the joint refinancing structure reduces financing risks, as the interest and repayment burden can be shared among several companies.

Significant risks in the **segment Financial Technologies** arise in particular from changes in regulatory, anti-money laundering and data protection requirements, as well as from technological requirements relating to business operations.

In addition, demand developments at individual participations may be affected by economic downturns, geopolitical tensions, exchange rate fluctuations or changes in migration and visa policy frameworks.

The Company addresses these risks through scalable IT systems, structured compliance processes and broad diversification across customer groups and target markets.

The companies in the **segment Public** provide specialized vertical market software solutions for customers from various areas of public administration and infrastructure and are significantly influenced by structural factors such as digitalization, regulatory requirements, and public budgetary and investment decisions.

The companies in the segment generally maintain long-term customer relationships, high switching barriers and a significant share of recurring revenues. As a result, the segment as a whole demonstrates a high degree of resilience against short-term fluctuations.

The companies in the **segment Enterprise** provide specialized vertical market software solutions for various industries, including more cyclical sectors such as construction, industrial manufacturing, and the wood and metal processing industries. As a result, the companies are more dependent on general economic conditions as well as developments in the respective end markets of their customers. Due to broad customer bases and significant recurring revenues, the overall risk structure is nevertheless considered robust.

INTEREST RATE RISKS

In the Financial Technologies segment, a significant portion of earnings depends on developments in the ECB key interest rate. Interest rate cuts would negatively impact the earnings of this segment and would only be partially offset by lower financing costs in other Group companies. Conversely, risks arising from increased financing costs are more than offset at Group level.

OPPORTUNITIES FOR THE FURTHER GROWTH OF THE GROUP

Including the transactions completed since the end of the fiscal year, the Group now comprises 61 companies providing digital solutions for their customers. The Company sees three key opportunities for the further growth of the Group, which are presented below in order of increasing importance to the Group.

In the Public and Enterprise segments, the **organic growth profile** was further improved through the continued application and development of the Manuscript Method as well as the Group-wide exchange of best practices. The continued high relevance of cybersecurity opens up additional opportunities for organic growth in both segments. In addition to the continuous enhancement of the security of existing products, there is potential for complementary functionalities, compliance-related solutions and additional services within the existing customer base.

With the merger of Fintiba GmbH and Expatrio Global Services GmbH in the 2025 fiscal year, a leading platform for digital financial and service solutions for international students and skilled workers in Germany was created. During 2025, a unified organizational model was established for the combined group and initial synergies were successfully realized. For the 2026 fiscal year, the Company sees attractive opportunities for further organic growth in this segment.

The increasing adoption of **artificial intelligence** creates additional growth and innovation opportunities for the Group. Many companies within the Group act as mission-critical system-of-record providers for their customers' operational processes and relevant data sets. This creates attractive opportunities to develop AI-native functionalities with tangible customer benefits. To capitalize on these opportunities, Group-wide initiatives to identify, prioritize and implement specific AI use cases were launched in 2026 under the leadership of the CTO appointed at the level of CHAPTERS Group AG in October 2025.

In addition, the use of artificial intelligence within the Group companies creates further efficiency potential, particularly in software development, quality assurance, technical support, sales, administration and internal service processes. For this purpose, a Group-wide AI Maturity Framework was established in 2026 as part of the Manuscript Method.

The Company also sees **additional opportunities** in acquisition-driven growth along the established segments. In the 2025 fiscal year, the geographic focus was further expanded and additional transaction opportunities outside the previous core markets were evaluated. The Group's growing European presence improves access to attractive target companies, local entrepreneur networks and industry-specific market opportunities. At the same time, acquisition criteria were further refined in light of the increasing relevance of artificial intelligence. Based on its operational experience and decentralized platform structure, the Company believes it is well positioned to successfully capitalize on attractive acquisition opportunities even under these changing conditions.

OVERALL ASSESSMENT OF THE RISK AND OPPORTUNITY SITUATION

In the 2025 fiscal year, the Group successfully continued its growth through additional transactions as well as positive operating development of the existing participation companies. In addition to EBITDA growth in the low teens percentage range, further progress was made in the organizational development of the Group, the strengthening of the organic growth profile and the expansion of Group-wide structures.

In 2026, additional initiatives were launched in the areas of artificial intelligence, cybersecurity, technology governance and Group-wide operational excellence, which are intended to further strengthen the competitiveness and scalability of the Group.

The Company believes the Group is well positioned to respond flexibly to emerging opportunities and to continue its growth on a long-term and sustainable basis.

Based on the information currently available, no risks are identifiable that, individually or in aggregate, could jeopardize the continued existence of individual Group companies, the Group as a whole or CHAPTERS Group AG.

KEY FEATURES OF THE INTERNAL CONTROL AND RISK MANAGEMENT SYSTEM WITH REGARD TO THE GROUP FINANCIAL REPORTING PROCESS

The consolidated financial statements are prepared in accordance with the provisions of the German Commercial Code (HGB) and the German Stock Corporation Act (AktG). The consolidated financial statements are based on the individual financial statements prepared by the consolidated companies. Responsibility for the financial reporting process and compliance with the relevant accounting standards lies with the respective subsidiaries.

The platform companies belonging to the Group work with a small number of selected tax consulting firms, which are responsible for the preparation of the financial statements at the level of the respective subsidiaries and in many cases also handle the accounting. Following the acquisition of a new operating portfolio company, responsibility is generally transferred to the partner firms within a few months. The ongoing bookkeeping of CHAPTERS Group AG and the preparation of its annual financial statements are also performed by a tax advisory firm in order to ensure a four-eyes principle and compliance with generally accepted accounting principles.

The individual financial statement data supplied by the Group companies are consolidated by CHAPTERS Group AG with the help of consolidation software, through which the necessary consolidation procedures are also performed. Recording is largely automated and reviewed in a four-eye-process. During the recording process, the figures are also validated, including consistency checks against the previous year.

In addition to capital consolidation, debt consolidation is particularly relevant with regard to shareholder loans provided by CHAPTERS Group AG for acquisition financing. Purchase price allocation is also carried out at the level of CHAPTERS Group AG (with support from Baker Tilly GmbH & Co. KG Wirtschaftsprüfungsgesellschaft).

D. Outlook Report

A central theme in the development of the Group over the past approximately two years has been a stronger focus on the Public, Enterprise and Financial Technologies segments, as well as the establishment of a culture of organic growth within our companies.

We define organic growth as the full-year results for a fiscal year based on the respective Group structure as of June 30 of that fiscal year compared with the full-year results of the same Group structure for the previous fiscal year. For organic growth in 2025, the full-year results for 2025 based on the Group structure as of June 30, 2025, are compared with the full-year results for 2024 for this Group structure.

In the 2026 fiscal year, the Group has already grown through the addition of two further companies, both in the Public segment. In addition, the participation in Kältehelden GmbH was reduced to 49%. As of the publication date, the Group therefore comprises a total of 61 companies, which generated total output of approximately EUR 197 million and adjusted operating EBITDA of approximately EUR 52 million in the 2025 fiscal year.

For the 2026 fiscal year, we expect organic growth in total output in the high single-digit percentage range (7-9%), with the growth rate in recurring revenues expected to exceed overall growth. For adjusted operating EBITDA, the Company expects organic growth of 14–17% in 2026.

In addition, we again expect strong inorganic growth in 2026. The platforms of CHAPTERS Group AG continuously evaluate the acquisition of additional operating participation companies within their respective markets and related strategies. No forecast can be made regarding the volume and timing of further investments. A forecast for the absolute level of total output and Group EBITDA for the 2026 fiscal year therefore cannot be provided on a reliable basis. The Group continues to evolve dynamically and pursues opportunities where they are considered strategically sensible and financially feasible.

CHAPTERS GROUP AG AS GROUP PARENT COMPANY

The main earnings contribution at the level of CHAPTERS Group AG primarily consists of interest income from shareholder loans granted to finance the acquisition of operating participation companies. As a result of the continued investment activity of the platform companies, interest income increased significantly again in the 2025 fiscal year compared to the previous year. For the 2026 fiscal year, the Company expects a further increase in interest income. Based on the currently outstanding shareholder loans, we expect interest income of between EUR 18 million and EUR 20 million. Developments in the 2026 fiscal year will continue to depend to a significant extent on the ongoing investment activity of CHAPTERS Group AG and its platform companies. No reliable forecast can currently be made regarding the volume and timing of further transactions.

With regard to the operating costs of CHAPTERS Group AG, the Company expects an increase to EUR 6 million to EUR 6.5 million, among other things due to the continued growth of the Group and the expansion of the team at the level of CHAPTERS Group AG. In addition, approximately EUR 4 million is expected for the implementation of two major strategic projects. In order to capitalize on the significant opportunities identified by the Company in the development of AI-native additional functionalities, CHAPTERS Group AG provides the companies with corresponding budgets. Additional costs are also incurred in connection with a project launched at the end of 2025 to achieve IFRS readiness across the Group. Costs recharged within the Group and share-based compensation are not included.

The annual result of CHAPTERS Group AG is also influenced by the results of the securities portfolio and the recognition of provisions for share-based compensation. In addition, further costs may arise in connection with the placement of the 2025/2030 corporate bond.

DISTRIBUTIONS

No distributions by CHAPTERS Group AG are planned for the 2025 fiscal year or for the coming years. We are convinced that the income generated in the operating Group companies—in addition to servicing existing debt financing at the various levels of the Group—can be used sensibly and in a value-creating manner for further organic and acquisitive growth.

The amount attributable to non-controlling interests before revaluation reserve, equity difference from currency translation and net profit/loss for the year corresponds to the proportionate interest of the respective minority shareholders in the share capital and the capital reserve of the subsidiaries concerned. The significant increase in the 2025 fiscal year results from the merger of Fintiba GmbH with Expatrio Global Services GmbH and the contribution of equity interests by the former (minority) shareholders of both companies. The minority interests in the revaluation reserve result from capital consolidation. Insofar as minority shareholders have a direct interest in the acquired company, their share of the purchase price allocation is reported here. The decrease in the 2025 fiscal year results from the merger of Fintiba GmbH with Expatrio Global Services GmbH, which led to a change in the minority interests and the relevant level at which the minority interests are allocated. The share in these items attributable to the Group are eliminated as part of capital consolidation. The currency difference from revaluation item results from the Czech subsidiary newly added to the Group in the 2023 fiscal year and the subsidiary in Switzerland newly added in the 2024 fiscal year as well as the shares in associated companies in the UK. The shares in the associated company in the UK were disposed of in the 2025 fiscal year. Differences in exchange rates between the valuation at the time of acquisition and the preparation of the consolidated financial statements result in a difference in the revalued assets from purchase price allocation, which is offset by this item.

Consolidated Cash Flow Statement for the year ended December 31, 2025

	Fiscal year in EUR '000	Previous year in EUR '000
Profit for the period (including profit/loss attributable to non-controlling interests)	-40,214.18	-12,247.36

Interest and dividend payments received	1,660.58	1,425.50
Cash flow from investing activities	**-102,231.01**	**-97,398.92**
Proceeds from corporate actions of CHAPTERS Group AG	16,492.66	84,926.55
Proceeds from capital contributions by other shareholders	1,694.88	276.06
Payments for the repayment of liabilities to shareholders	-497.77	-131.93
Payments to company owners and minority shareholders	-2,189.53	-325.31
Proceeds from the issuance of bonds and the raising of (financial) loans	148,224.31	33,167.79
Payments for the repayment of bonds and (financial) loans	-27,942.37	-28,915.62
Payments in connection with corporate actions and bond placement	-1,541.25	-130.69
Interest paid	-11,484.44	-3,079.51
Cash flow from financing activities	**122,756.49**	**85,787.34**
Cash-effective changes in cash and cash equivalents	**39,024.86**	**-14.61**
Cash and cash equivalents at the beginning of the period	**58,507.77**	**50,843.20**
Exchange rate and valuation-related changes in cash and cash equivalents	-104.39	12.77
Changes in cash and cash equivalents resulting from changes in the scope of consolidation	9,309.55	7,666.41
Cash and cash equivalents at the end of the period	**106,737.79**	**58,507.77**

Cash and cash equivalents correspond to the balance sheet item "Cash on hand and bank balances". Of this amount, EUR 120.00 thousand (previous year: EUR 120.00 thousand) has been pledged as collateral for a bank guarantee issued by CHAPTERS Group AG and is therefore subject to corresponding restrictions on disposal. An amount of EUR 0.00 thousand (previous year: EUR 5,239.05 thousand) is held by subsidiaries where the consent of minority shareholders is required in order to dispose of the funds. An amount of EUR 0.00 thousand (previous year: EUR 529.50 thousand) held by subsidiaries is subject to restrictions on disposal. Other non-cash income (previous year: expenses) mainly includes the results from associated companies. Further explanations regarding the development of the Group's liquidity position can be found in the summarized management report. The exchange rate-related changes in cash and cash equivalents result from companies belonging to the consolidated group that prepare their financial statements in foreign currencies (United States, China, Czech Republic, and Switzerland).

Notes to the Consolidated Financial Statements for the Financial Year 2025

A. General information

CHAPTERS Group AG is headquartered in Hamburg and registered in the commercial register of the Local Court of Hamburg under registration number HRB 182147. The Company's shares have been traded in the Open Market segment of the Frankfurt Stock Exchange (WKN 661 830) since June 3, 2005. The Open Market is not a regulated market within the meaning of Section 2 (11) WpHG.

CHAPTERS Group AG invests—usually indirectly through subsidiaries—in companies currently located exclusively in Europe and the United States. As of the balance sheet date, the Company directly or indirectly holds majority interests in 117 companies (previous year: 96), thereof 76[1] operating subsidiaries (previous year: 59). As of the balance sheet date, the Company holds five (previous year: seven) minority participations in which it holds more than 20%, including one participation in a listed stock corporation. The companies in which CHAPTERS Group AG holds majority interests are, insofar as they are domiciled in Germany, classified as medium-sized corporations within the meaning of Section 267 (2) HGB and as small corporations within the meaning of Section 267 (1) HGB.

As the ultimate parent company, CHAPTERS Group AG prepares consolidated financial statements and a consolidated management report for the 2025 fiscal year. The size criteria pursuant to Section 293 (1) HGB were exceeded for the first time in the 2021 fiscal year. As of December 31, 2025, the balance sheet total of the CHAPTERS Group AG Group amounts to EUR 665.02 million (previous year: EUR 353.74 million), revenue amounts to EUR 180.80 million (previous year: EUR 110.67 million), and the average number of employees in the 2025 fiscal year amounts to 1,253 (previous year: 805). For companies that became part of the scope of consolidation during the 2025 fiscal year, employees are included on a pro rata basis only for the period during which the company was part of the Group. Managing directors and, in the case of CHAPTERS Group AG, members of the Management Board are not included in the calculation of the number of employees.

The consolidated financial statements for the 2025 fiscal year are prepared in accordance with the provisions of the German Commercial Code (HGB) and the German Stock Corporation Act (AktG) and comprise the consolidated balance sheet, the consolidated income statement, the consolidated cash flow statement, the consolidated statement of changes in equity and the notes to the consolidated financial statements (including the statement of liabilities and fixed asset schedule). Differences may arise due to rounding in the use of rounded amounts and percentages. The fiscal year of CHAPTERS Group AG and the majority of the consolidated subsidiaries begins on January 1 and ends on December 31 of each calendar year. The consolidated income statement is prepared using the total cost method, as are the income statements of the consolidated companies.
The consolidated management report of the CHAPTERS Group AG Group has been combined with the management report of CHAPTERS Group AG in accordance with Section 315 (5) HGB in conjunction with Section 298 (2) HGB.

B. Scope and methods of consolidation

SCOPE OF CONSOLIDATION

The reporting date for the consolidated financial statements is December 31 of the fiscal year. This corresponds to the reporting date of the annual financial statements of the parent company CHAPTERS Group AG. The annual financial statements of the companies included in the consolidated financial statements were prepared for the period from January 1, 2025, to December 31, 2025. For the purposes of the consolidated financial statements, the companies were included according to the period during which they belonged to the Group.

In accordance with Section 294 (1) HGB, all companies in which CHAPTERS Group AG directly or indirectly holds more than 50% of the capital as of the consolidated balance sheet date of December 31, 2025, are included in the consolidated financial statements. Companies in which the indirect ownership interest of CHAPTERS Group AG is less than 50%, but where more than 50% of the capital at each level of the ownership chain is held by a Group company, are also included. As of December 31, 2025, there are no companies in which CHAPTERS Group AG holds less than 50% of the capital but controls more than 50% of the voting rights.

The date of initial consolidation is the acquisition date of the respective subsidiary. If interim financial statements are not prepared as of the acquisition date for transactions occurring during the year, these are derived using the pro rata temporis method. Subsidiaries acquired during the 2025 fiscal year are included in the consolidated income statement only on a pro rata basis with the results generated since the acquisition date.

As of December 31, 2025, the scope of consolidation comprises, in addition to the parent company, 117 companies (previous year: 96 companies) that are fully consolidated. One company (previous year: three companies) is not included in the consolidated financial statements pursuant to Section 296 (2) HGB.

Five companies (previous year: seven companies) in which CHAPTERS Group AG indirectly holds more than 20% but less than 50% of the capital are included in the consolidated financial statements as associated companies using the equity method.

CHAPTERS Group AG directly holds less than 20% of the capital in one company and indirectly holds less than 20% of the capital in one company. These participations are accounted for as other participations in companies.

[1] The deviations from the figures presented in the summarized management report result from the aggregation of several legal entities into one operating unit and vice versa.

Footnotes to the table p. 98-102

[2] Effective 01/07/2025, BleTec Beteiligungs GmbH (formerly OSW 4 Ookam Beteiligungs GmbH) was merged into Vortex Software GmbH (formerly OSW Ookam Beteiligungs GmbH).
[3] Effective 01/01/2025, OSW 7 Ookam Beteiligungs GmbH and OSW 10 Ookam Beteiligungs GmbH were merged into Via Unita prima GmbH (formerly OSW 6 Ookam Beteiligungs GmbH).
[4] The companies own and lease property, plant and equipment to other subsidiaries within the Group.
[5] Effective 01/01/2025, Technocarte Ingenierie SAS was merged into Technocarte Holding SAS.
[6] Effective 01/01/2025, Bostein Sol GmbH was merged into Coracle GmbH.
[7] Effective from 01/07/2025, Finfox Research and Consulting AG was merged into Finfox Software and Technology AG.
[8] Effective 01/07/2025, Verkehrsautomatisierung Berlin GmbH was merged into Peak Mobility GmbH (formerly PSI Transcom GmbH).

Footnotes to the table below

[9] NPV Nachfolge Beteiligungen GmbH holds 100% of the shares in E-M-C direct GmbH & Co. KG as well as in its general partner, NVP Elektroinstallationen Handel GmbH.
[10] CHAPTERS Group AG has held shares in MedNation AG (formerly Eifelhöhen-Klinik AG) since August 2020. The threshold of 20% was exceeded for the first time in November 2021.
[11] CHAPTERS Group AG has held shares in TraFin Scout GmbH since April 2022. The threshold of 20% was exceeded for the first time in August 2022.

WAIVER OF INCLUSION

For one company (previous year: three companies), consolidation was waived pursuant to Section 296 (2) HGB due to its minor significance for the consolidated financial statements.

HUP Benelux B.V., headquartered in AP Bergschenhoek, Netherlands, is a wholly owned subsidiary of HUP GmbH. HUP Benelux B.V. was not operationally active in the 2024 fiscal year or in the 2025 fiscal year.

The company was also not included in the consolidated financial statements as of 12/31/2025 and is reported under other participations at its carrying amount of EUR 30.00 thousand (corresponding to the proportionate share capital).

Tilia Software GmbH and NGC Service GmbH were likewise not included in the consolidated financial statements in the 2024 fiscal year pursuant to Section 296 (2) HGB. These participations were disposed of in the 2025 fiscal year.

CAPITAL CONSOLIDATION

The capital consolidation of companies directly or indirectly acquired from third parties or newly established by CHAPTERS Group AG is carried out using the acquisition method pursuant to Section 301 HGB. The carrying amount at the direct parent company of the acquired or newly established company is offset against the amount of the revalued equity attributable to these shares in the subsidiary. Under the revaluation method applied, the assets, liabilities, prepaid expenses and deferred income, and special items to be recognized are measured at their fair values at the time of their initial inclusion in the consolidated financial statements, which (with the exception of Fintiba GmbH, EIFEL-NET GmbH and Glasfaser Direkt GmbH) corresponds to the acquisition date. For the revaluation of equity, CHAPTERS Group AG prepared a purchase price allocation (with the support of Baker Tilly GmbH & Co. KG Wirtschaftsprüfungsgesellschaft). The revalued assets resulting from the purchase price allocation are recognized for the consolidated financial statements at the level of the respective acquired subsidiary and are depreciated or amortized there.

Any positive difference between the carrying amount at the direct parent company and the revalued equity of the subsidiary resulting from the purchase price allocation is recognized as goodwill for the consolidated financial statements at the level of the direct parent company and amortized there.

Any negative difference between the carrying amount at the direct parent company and the revalued equity of the subsidiary resulting from the purchase price allocation is recognized as a difference arising from capital consolidation for the consolidated financial statements at the level of the direct parent company and reported there as a separate item after equity. The difference from capital consolidation is recognized in income over the weighted average remaining useful life of the acquired depreciable assets. If the acquired assets consist to a significant extent of non-depreciable assets, the accounting treatment of the difference from capital consolidation is based on the consumption or disposal of the non-depreciable assets. In this case, the difference from capital consolidation is recognized in income to the extent that the non-depreciable assets are impaired or derecognized, for example due to a sale.

In accordance with Section 301 (2) HGB, valuation takes place at the time of acquisition of the respective subsidiary. If interim financial statements are not prepared as of the acquisition date for transactions occurring during the year, these are derived using the pro rata temporis method. Subsidiaries acquired during the 2025 fiscal year are included in the consolidated income statement only on a pro rata basis with the results generated since the acquisition date.

In the case of successive acquisitions of shares, the date on which CHAPTERS Group AG obtained control, and the parent-subsidiary relationship was established is used as the date of the initial capital consolidation and thus also for the transition from equity accounting to full consolidation.

NON-CONTROLLING INTERESTS

Within the Group structure of CHAPTERS Group AG, minority shareholders hold interests in subsidiaries at several levels. Pursuant to Section 307 HGB, a compensatory item is recognized for the shares in a subsidiary included in the consolidated financial statements that are held by shareholders outside the Group, in the amount of the proportionate equity attributable to them. In the consolidated income statement, the profits and losses attributable to other shareholders (including the portions attributable to them from capital consolidation and the resulting depreciation and amortization) are reported separately, and the compensatory item within equity is updated accordingly.

CONSOLIDATION OF LIABILITIES, EXPENSES AND INCOME, ELIMINATION OF INTERCOMPANY PROFITS AND LOSSES

Receivables and liabilities, revenue as well as expenses and income within the scope of consolidation were eliminated. This includes in particular (shareholder) loans existing within the scope of consolidation as well as the related interest charged thereon. There were no material intercompany profits or losses resulting from transactions between consolidated companies.

FOREIGN CURRENCY TRANSLATION

For the translation of the financial statements of subsidiaries whose currency is not the euro, the modified closing rate method pursuant to Section 308a HGB is applied. Assets and liabilities are generally translated using the spot exchange rate as of the balance sheet date. Expenses and income are translated into euros using the average exchange rate. Equity items are translated using the historical exchange rates applicable at the time of initial consolidation. Accounting currency translation differences are recognized in equity under reserves in the item “Currency difference from revaluation” without affecting profit or loss until the disposal of the foreign business operation.

SHARES IN ASSOCIATED COMPANIES

Shares in associated companies are accounted for using the equity method at acquisition cost, adjusted by the changes in equity arising at the associated company since the acquisition of the participation. If the associated company prepares consolidated financial statements, these are used as the basis; otherwise, the individual financial statements are used. No adjustments are made for accounting and valuation methods in the relevant financial statements of the associated companies that differ from those applied in the consolidated financial statements. The result from changes in equity of associated companies is based on the respective net profit/loss after taxes. Profit distributions received are deducted. If the acquisition cost at the acquisition date differs from the proportionate equity acquired, the difference is recognized in an ancillary calculation either as a negative difference or as goodwill and is released or amortized on a straight-line basis over a period of 10 years; the resulting effects are included in the result from associated companies. If the cumulative loss of the respective company since the acquisition of the participation by CHAPTERS Group AG exceeds the carrying amount of the participation, the shares are recognized at a value of EUR 1.00 until recovered by ongoing income generated by the company.

The consolidated financial statements of the CHAPTERS Group AG Group are prepared on the basis of the individual financial statements of the fully consolidated subsidiaries included in the Group and the associated companies included using the equity method. If the associated company prepares consolidated financial statements, these are used as the basis. The fully consolidated subsidiaries do not prepare consolidated financial statements. In the case of subsidiaries domiciled outside Germany, material differences between local accounting regulations and the HGB are eliminated.

Permissible accounting options are exercised consistently throughout the consolidated financial statements in accordance with Section 308 HGB, irrespective of their treatment in the annual financial statements of the companies included in the consolidated financial statements.

INTANGIBLE ASSETS

At the level of the fully consolidated subsidiaries included in the consolidated financial statements, **acquired intangible assets** are recognized at acquisition cost and amortized on a straight-line basis over their useful economic lives (3 to 10 years). These mainly comprise acquired licenses as well as externally commissioned (further) development of software products. Internally developed software of the companies themselves is not capitalized in the consolidated financial statements.

As part of the **purchase price allocation**, intangible assets of the acquired fully consolidated subsidiaries are identified and revalued. These primarily comprise the respective brands and software products of the fully consolidated subsidiaries. The valuation is based on the relief-from-royalty method. The identified intangible assets are amortized on a straight-line basis over their customary useful economic lives of 15 years for brands and 3 to 7 years for software. Other intangible assets identified as part of the purchase price allocation comprise a favorable lease agreement, which is valued based on the difference compared to market-standard rent and the remaining term of the lease agreement and amortized on a straight-line basis over a period of 10 years.

Goodwill represents the remaining positive difference between the acquisition cost of the business combination and the fair value of the revalued net assets of the acquired company attributable to the Group as of the acquisition date. Goodwill reflects the long-term business relationships and the strong operating earnings capacity of the operating portfolio companies.
The recognized goodwill is amortized on a straight-line basis over a period of 10 years.

As of December 31, 2025, there were no indications of a likely permanent impairment and therefore no requirement for unscheduled amortization of intangible asse

PROPERTY, PLANT AND EQUIPMENT

The **operating properties** reported under property, plant and equipment are recognized at acquisition cost less accumulated straight-line depreciation. The depreciation period ranges between 30 and 50 years. As part of the purchase price allocation, hidden reserves amounting to EUR 316.00 thousand were identified in the 2021 fiscal year on the basis of a market valuation report. These hidden reserves are depreciated on a straight-line basis over the expected remaining useful life of 22 years.

Technical equipment and machinery are recognized at acquisition cost less accumulated scheduled depreciation and, where necessary, impairment losses. Scheduled depreciation is generally recognized on a straight-line basis over the expected useful economic life of the asset. The expected useful economic life is predominantly between 8 and 10 years. In the 2023 fiscal year, CarMa Holding GmbH acquired 100% of the shares in Jobst Net GmbH. The company provides internet services and owns fiber optic lines connecting local distribution points to regional network nodes. The depreciation period for these assets amounts to 20 years.

Other equipment and operating and office equipment are recognized at acquisition cost less accumulated scheduled depreciation and, where necessary, impairment losses. Scheduled depreciation is generally recognized on a straight-line basis over the expected useful life of the asset. The expected useful life ranges from 3 to 10 years.

Low-value assets with individual acquisition costs of up to EUR 250.00 are treated as immediately deductible operating expenses. Assets with acquisition or production costs of more than EUR 250.00 up to EUR 800.00 are generally fully depreciated in the year of acquisition or production.

FINANCIAL ASSETS

Loans to associated companies and **other loans** are generally valued at nominal value or acquisition cost. As of December 31, 2025, there were no indications of a likely permanent impairment and therefore no requirement for unscheduled write-downs on loans to associated companies. Unscheduled write-downs on other loans were recognized as of December 31, 2025.

Other participations in companies and **shares in affiliated companies** (to the extent not consolidated) are recognized at acquisition cost. In the event of a likely permanent impairment, unscheduled write-downs are recognized. Unscheduled write-downs were recognized as of December 31, 2025.

Securities are recognized as fixed assets. Upon acquisition, securities are valued individually in accordance with the acquisition cost principle. The acquisition cost corresponds to the purchase price paid upon acquisition of the shares plus transaction fees incurred. If the securities are denominated in foreign currencies, translation is performed in accordance with Section 256a HGB using the spot exchange rate as of December 31, 2025.

Securities are generally held as medium-term investments. In accordance with the lower of cost or market principle under commercial law (Section 253 (3) sentence 5 HGB), equity investments are recognized with the lower of cost or market value on December 31, 2025. A write-up is if the fair value is expected to remain permanently above the carrying amount recognized on the relevant reporting date before appreciation.. Bond investments are valued at the lower of acquisition cost and nominal value.

As of December 31, 2025, there were indications of a likely permanent impairment in relation to the equities and therefore a requirement for unscheduled write-downs. Unscheduled write-downs were recognized.

Self-held interests in the corporate bond are valued at acquisition cost.

CURRENT ASSETS

Raw materials and supplies are valued at average acquisition cost. If lower replacement prices are available, these are recognized in accordance with the strict lower of cost or market principle..

Work in progress and unfinished services are valued at production cost, taking into account the stage of completion. The valuation includes directly attributable direct costs as well as appropriate portions of the necessary overhead costs. Borrowing costs were not capitalized.

Work in progress was determined on the basis of the respective project progress as of the balance sheet date, taking into account the services rendered and costs incurred to date. Where necessary, identifiable risks and impairments were taken into account through appropriate reductions in value.

Finished goods and merchandise include the hidden reserves from the order backlog identified as part of the purchase price allocation of the acquired companies. If customer contracts (usually maintenance contracts for software) exist at the time of acquisition that require the payment of fees, the income resulting from these contracts until the next possible termination date is valued and capitalized. The order backlog identified in this way is amortized over the remaining term of the contracts. As of December 31, 2025, there were no indications of impairment and the resulting need for write-down.

Receivables and other assets are valued at nominal amounts or acquisition cost and, where necessary, less impairments for individual risks.

Bank balances and cash on hand are recognized at nominal value.

PROVISIONS

Provisions take into account all future obligations identifiable at the time the financial statements are prepared and are recognized at the settlement amount deemed necessary based on prudent commercial judgment, taking into account future price and cost increases. Provisions with a remaining term of more than one year are discounted using the average market interest rate corresponding to their remaining term. For the recognition of provisions for share-based compensation, an option valuation based on the Black-Scholes model is carried out.

For the first time, **provisions for pensions and similar obligations** are recognized in the consolidated financial statements as of December 31, 2025. These provisions result, on the one hand, from pension obligations of subsidiaries acquired during the 2025 fiscal year. On the other hand, the provisions result from pension obligations of French subsidiaries.

	in %
Discount rate (10-year average)	2.06
Discount rate (7-year average)	2.22
Salary trend p. a.[12]	0—5
Pension trend	0—3.50
Employee turnover rate	0.00—1.00

Pension obligations are determined actuarially using biometric probabilities (“Heubeck Richttafeln 2018 G” by Prof. Dr. Klaus Heubeck; table réglementaire TV 88/90; INSEE mortality tables) in accordance with the projected unit credit method.

The amount of the pension obligations (present value of pension obligations) was calculated using actuarial methods based on the assumptions shown below. The difference amount pursuant to Section 253 (6) HGB amounts to EUR -73.71 thousand.

Pension obligations and plan assets as well as the related expenses and income are presented on a net basis in accordance with Section 246 (2) sentence 2 HGB. The pension obligations are secured by pledged, insolvency-protected backing insurance policies serving exclusively this purpose. In

[12] Part of the pension commitments was replaced as of 12/31/2006. Salary trends are not relevant for the calculation of the obligation for this portion.

the course of applying IDW RH FAB 1.021, the backing insurance policies were valued based on congruent valuation.

The amortized acquisition cost of the plan assets amounts to EUR 372.84 thousand (previous year: EUR 0.00 thousand). The fair value of the plan assets based on congruent valuation amounts to EUR 422.94 thousand (previous year: EUR 0.00 thousand). The settlement amount of the offset liabilities amounts to EUR 833.81 thousand (previous year: EUR 0.00 thousand).

Interest expense from the unwinding of the discount on pension obligations amounts to EUR 87.59 thousand (previous year: EUR 0.00 thousand). Expenses from the valuation of offsetable assets amount to EUR 10.40 thousand (previous year: EUR 0.00 thousand). The resulting net expense after offsetting of EUR 97.99 thousand (previous year: EUR 0.00 thousand) is reported in the financial result. Income from the discounting of pension obligations amounts to EUR 52.84 thousand (previous year: EUR 0.00 thousand) and is reported in the financial result.

The provisions adequately cover all identifiable risks.

LIABILITIES

Liabilities (with the exception of the corporate bond) are recognized at their settlement amounts. The corporate bond is recognized at its nominal amount. The bond terms provide for early repayment at a lower amount; the difference relevant as of the reporting date between the nominal amount and the repayment amount pursuant to the bond terms is recognized under prepaid expenses.

Contingent purchase price payments in connection with the acquisition of new companies are reported in the consolidated financial statements as seller loans under other liabilities. If payment is contingent upon the achievement of certain operational targets (“earn-out payments”), these are reported under provisions if, at the time the consolidated financial statements are prepared, achievement of the targets and thus payment of the additional purchase price components is considered probable.

PREPAID EXPENSES AND DEFERRED INCOME

Prepaid expenses and deferred income were recognized for expenditures and income before the balance sheet date to the extent that they represent expenses or income for a specific period after the balance sheet date.

DEFERRED TAXES

Deferred tax liabilities are recognized in connection with the purchase price allocation and the (temporary) differences between the carrying amounts in the tax balance sheet of the respective individual company and the carrying amounts in the HGB consolidated financial statements. Deferred tax assets are recognized in connection with negative differences between the carrying amounts of assets in the HGB consolidated financial statements and the respective individual financial statements.

Deferred taxes are released in line with the depreciation and amortization of the assets resulting from the purchase price allocation or in line with the reversal of the negative differences between the carrying amounts in the HGB consolidated financial statements and at the level of the individual company. For companies domiciled in Germany, a simplified average combined tax rate of 30% is applied uniformly for all companies, while for companies domiciled outside Germany, the local tax rate at the time of the acquisition of shares is applied. No offsetting is performed pursuant to Section 306 sentence 2 HGB.

D. Notes to the Consolidated Balance Sheet

FIXED ASSETS

The development of the individual items of fixed assets and the depreciation and amortization recognized can be found in the consolidated fixed asset schedule attached to the notes to the consolidated financial statements.

Shares in associated companies are recognized at their carrying amount as adjusted over time. For the adjusted carrying amount, the acquisition costs are increased or decreased by the proportionate annual result attributable to CHAPTERS Group AG (or its direct subsidiaries) as well as by the amortization of goodwill or the release of negative differences. If the cumulative loss of the respective company since the acquisition of the participation by CHAPTERS Group AG exceeds the carrying amount of the participation, the shares are recognized at a value of EUR 1.00 until recovered by ongoing income generated by the company. The difference between the adjusted carrying amount (to the extent negative) and the carrying amount recognized in the balance sheet amounts to EUR 606.1 thousand (previous year: EUR 452.69 thousand). If the offsetting of the acquisition costs against the proportionate equity of the respective company results in goodwill or a negative difference (if the acquisition costs are lower than the equity of the company at the acquisition date), this is amortized or released to income on a straight-line basis over a period of 10 years from the acquisition date. In fiscal year 2025, an amount of EUR 9,042.84 thousand in goodwill (including EUR 733.20 thousand in amortization) was derecognized in connection with the reduction of the shareholding in Software Circle plc.

The amortization of goodwill arising in previous years in connection with the other associated companies amounts cumulatively to EUR 253.84 thousand, of which EUR 61.68 thousand was recognized in fiscal year 2025. As of December 31, 2025, the remaining goodwill amounts to EUR 363.00 thousand (previous year: EUR 9,468.93 thousand[13]). The negative difference amount (badwill) arising in fiscal year 2021, after reversal during the fiscal year, amounts to EUR 125.60 thousand as of December 31, 2025 (previous year: EUR 132.92 thousand). The **goodwill** identified as part of the purchase price allocation developed during the 2025 fiscal year as follows:

	Opening balance on 01/01/2025 in EUR '000	Additions in 2025 (incl. changes in the scope of consolidation) in EUR '000	Disposals in 2025 // Transfers // Currency differences in EUR '000	Depreciation and amortization in 2025 in EUR '000	Ending balance on 12/31/2025 in EUR '000
From purchase price allocation	174,445.47	262,516.31	29.87	-35,544.80	401,446.84
From individual financial statements	1,064.95	1,160.28	0.40	-552.25	1,673.38

[13] Correction of the amount stated in the annual report 2024 of EUR 7,123.60 thousand.

Tangible fixed assets of the Group decreased by EUR 350.60 thousand to EUR 10,307.85 thousand during the fiscal year.

FINISHED GOODS AND MERCHANDISE FROM PURCHASE PRICE ALLOCATION

The order backlog and contract portfolio identified as part of the purchase price allocation developed during the 2025 fiscal year as follows:

Opening balance on 01/01/2025 in EUR '000	Additions in the fiscal year in EUR '000	Disposals in the fiscal year in EUR '000	Reversals in the fiscal year in EUR '000	Ending balance on 12/31/2025 in EUR '000
2,728.31	5,782.56	-4,263.63	144.70	4,391.94

RECEIVABLES AND OTHER ASSETS

Trade receivables amounting to EUR 22,922.12 thousand (previous year: EUR 10,342.08 thousand) exist at the level of the operating subsidiaries included in the consolidated financial statements. EUR 11,484.60 thousand were added through the acquisition of additional subsidiaries. Trade receivables amounting to EUR 241.52 thousand from the previous year were derecognized as part of the deconsolidation of subsidiaries.

Receivables from associated companies amount to EUR 3,901.97 thousand (previous year: EUR 332.02 thousand). An amount of EUR 2,795.88 thousands relates to loan receivables from minority participations within the Group structure. In addition, trade receivables by Fintiba GmbH from FIB Frankfurt International Bank AG are included.

CASH ON HAND AND BANK BALANCES

Liquid funds amounting to EUR 106,737.79 thousand (previous year: EUR 58,507.77 thousand) consist predominantly of bank balances. Cash on hand amounting to EUR 20.79 thousand (previous year: EUR 23.51 thousand) is included therein. An amount of EUR 58,488.25 thousand (previous year: EUR 26,490.11 thousand) relates to the liquid funds of CHAPTERS Group AG as the ultimate parent company, while liquid funds at the level of the subsidiaries amount to EUR 48,249.54 thousand (previous year: EUR 32,017.66 thousand). No cash pooling arrangements are in place. A detailed analysis of changes in cash and cash equivalents can be found in the consolidated cash flow statement. The amount of liquid funds acquired as part of the acquisition of new operating portfolio companies by the platform companies amounts to EUR 12,099.90 thousand. The change resulting from the disposal of companies that were part of the 2024 scope of consolidation amounts in total to EUR -2,790.35 thousand.

PREPAID EXPENSES AND DEFERRED INCOME

Deferred income is recognized at the level of the operating subsidiaries in connection with payments already received in the 2025 fiscal year for contracts with terms extending beyond the balance sheet date and amounts to EUR 17,143.49 thousand (previous year: EUR 10,182.92 thousand). The increase is attributable in the amount of EUR 5,513.58 thousand to the addition of companies to the scope of consolidation. Prepaid expenses amount to EUR 2,132.12 thousand (previous year: EUR 1,808.44 thousand). The increase in prepaid expenses is attributable in the amount of EUR 691.60 thousand to companies added during the 2025 fiscal year.

EQUITY

The detailed changes in equity are presented in the consolidated statement of changes in equity.

As of the balance sheet date, the **subscribed capital** of CHAPTERS Group AG amounts to EUR 23,842.15 thousand (previous year: EUR 22,986.03 thousand) and is divided into 23,842,152 no-par value bearer shares (previous year: 22,986,027). Upon registration on April 7, 2025, the share capital was increased by EUR 471.22 thousand. In this context, the **capital reserve** was increased by EUR 16,021.45 thousand. Upon registration on October 29, 2025, a second increase of the share capital by EUR 384.91 thousand took place. In this context, the capital reserve was increased by a further EUR 13,086.80 thousand and amounts to EUR 259,017.98 thousand as of December 31, 2025 (previous year: EUR 229,909.73 thousand).

On July 9, 2025, the Annual General Meeting resolved to increase the Company's share capital once or several times from EUR 23,457.25 thousand by up to nominally EUR 11,728.62 thousand to up to EUR 35,185.87 thousand (Authorized Capital 2025). In the course of this resolution, the previously existing Authorized Capital 2023/I and 2024/I were cancelled. Following partial utilization in September 2025, Authorized Capital as of December 31, 2025, amounts to EUR 11,343.72 thousand.

PROVISIONS

Provisions amounting to EUR 45.748,33 thousand (previous year: EUR 19,203.59 thousand) are composed as follows:

	12/31/2025 in EUR '000	Previous year in EUR '000
Provisions for pensions and similar obligations	**5,818.98**	**0.00**
Tax provisions	**7,814.35**	**7,028.76**
Other provisions	**32,115.00**	**12,174.83**
thereof for annual accounts and audit	*1,053.08*	*699.36*
thereof for personnel expenses (excluding share-based compensation)	*2,537.42*	*1,302.96*
thereof for share-based compensation at CHAPTERS Group AG level	*13,856.70*	*3,655.57*
thereof vacation accruals	*2,866.54*	*1,240.99*
thereof for warranties	*16.60*	*84.34*
thereof for potential additional purchase price payments (earn-outs)	*2,280.92*	*2,285.00*

Tax provisions increased by EUR 785.59 thousand compared to the previous year. The change is attributable in the amount of EUR 2,423.32 thousand to companies that became part of the Group during the 2025 fiscal year. Deconsolidation resulted in a decrease of EUR 41.90 thousand. Companies that were part of the Group in both 2024 and 2025 accounted for a decrease in tax provisions of EUR 1,595.82 thousand.

The increase in other provisions, amounting to EUR 8,162.17, thousand is attributable to the growth of the Group. EUR 1,139.55 thousand relates to the effects from deconsolidation.

In the 2023 fiscal year, the Supervisory Board of the Company established a share option plan ("Virtual Share Option Plan", "VSOP") for the members of the Company's Management Board. In the 2024 fiscal year, the share option plan was extended to key employees of the Company. Further information on the options can be found under "Remuneration of the executive bodies". The share options are valued using the Black-Scholes model.

	Management board	Key employees
Options granted *thereof vested as of 12/31/2025*	1,000,000 *750,000*	448,500 *105,105*
Earliest exercise date	12/31/2026	12/31/2027– 09/30/2029
Strike Price	22.27	26.03-62.45
Option value per option on 12/31/2025	16.38	14.21-15.06

LIABILITIES

Liabilities totaling EUR 270,250.07 thousand (previous year: EUR 86,741.35 thousand) include the **corporate bond** issued by CHAPTERS Group AG during the 2025 fiscal year in the amount of EUR 72,000.00 thousand (previous year: EUR 16,000.00 thousand). On July 31, 2025, the Management Board resolved the issuance of a new corporate bond with a maximum volume of EUR 100,000.00 thousand. An initial partial issuance of the bond in the amount of EUR 32,000.00 thousand took place on August 8, 2025. A further issuance in the amount of EUR 40,000.00 thousand took place on October 20, 2025. A term of 5 years was agreed and no pledges or similar rights were granted. The interest rate amounts to 7%. The perpetual bond placed in May 2020 and reported under liabilities in the previous year was fully repaid and terminated following a partial repurchase in March 2025 and May 2025.

Liabilities to credit institutions mainly relate to acquisition loans raised to finance the acquisition of operating subsidiaries. These financings are entered into either at the level of the acquisition companies or at the level of the operating companies themselves. Where the financing was entered into at the level of the acquisition company, it is generally secured either by a pledge of the shares in the operating company by the acquisition company or by a guarantee provided by the operating company in favor of the financing bank. The amount secured by pledged shares totals EUR 78.148,43 thousands (previous year: EUR 7.225,93 thousands). No joint liability exists on the part of other Group companies or CHAPTERS Group AG ("ring-fencing"). In some cases, interest hedging transactions were entered into for the loans. The funds were used for the partial repayment of shareholder loans provided by CHAPTERS Group AG as the ultimate parent company for the acquisition.

As a result of companies leaving the scope of consolidation, liabilities to credit institutions decreased by EUR 8,405.70 thousand, while existing financings at acquired companies amounting to EUR 254.63 thousand were assumed. Repayments on financings totaling EUR 6,536.63 thousand were made. In total, EUR 82,565.00 thousand of new acquisition financings were raised.

Trade payables amounting to EUR 8,029.21 thousand (previous year: EUR 4,338.08 thousand) mainly comprise liabilities for services received at the level of the operating subsidiaries. Compared to the previous year, trade payables increased by EUR 3,691.13 thousand. Of this amount, EUR 5,257.77 thousand is attributable to the growth of the Group through the acquisition of additional subsidiaries. Trade payables from the previous year amounting to EUR 393.16 thousand were derecognized as part of the deconsolidation of subsidiaries. For companies that were part of the Group in both the 2024 and 2025 fiscal years, a decrease in trade payables of EUR 1,173.48 thousand was recorded.

The **liabilities to associated companies** arise from liabilities of Fintiba GmbH to FIB Frankfurt International Bank AG.

Other liabilities include **seller loans** amounting to EUR 64,516.98 thousand (previous year: EUR 14,246.38 thousand), resulting from the deferral of purchase prices by the sellers in connection with the acquisition of operating companies. Additions of companies to the scope of consolidation resulted in an increase of EUR 60,774.50 thousand. Companies that had already been part of the Group in the 2024 fiscal year repaid seller loans amounting to EUR 10,503.90 thousand.

Also included are **liabilities to minority shareholders** amounting to EUR 2,576.57 thousand (previous year: EUR 2,797.54 thousand). The shareholder loans granted by minority shareholders are provided under the same conditions as the shareholder loans granted by CHAPTERS Group AG.

The maturities of liabilities are presented in the following statement of liabilities:

		Total in EUR '000	Up to 1 year in EUR '000	From 1 to 5 years in EUR '000	More than 5 years in EUR '000

DEFERRED TAXES

The recognized deferred tax liabilities result from the purchase price allocation in the course of the preparation of the consolidated financial statements and developed during the fiscal year as follows:

Opening balance on 01/01/2025 in EUR '000	Additions/disposals during the fiscal year in EUR '000	Reversals during the fiscal year in EUR '000	Currency-related changes during the fiscal year in EUR '000	Ending balance on 12/31/2025 in EUR '000
8,853.00	9,083.33/-894.64	-2,559.71	13.27	14,495.25

Deferred tax assets amounting to EUR 2,223.09 thousand (previous year: EUR 1,485.70 thousand) result in the amount of EUR 122.94 thousand (previous year: EUR 125.13 thousand) from internally generated intangible assets capitalized in the individual financial statements of a subsidiary, which are depreciated for tax purposes in accordance with local regulations. In the HGB consolidated financial statements, the internally generated intangible assets are not capitalized. Deferred tax assets amounting to EUR 1,314.87 thousand (previous year: EUR 1,360.56 thousand) result from a lower valuation of tangible fixed assets as part of the purchase price allocation compared to the carrying amount in the individual financial statements of the relevant company. Deferred tax assets amounting to EUR 268.61 thousand result from the recognition of pension obligations of the French subsidiaries.

CONTINGENT LIABILITIES

As of December 31, 2025, contingent liabilities amounting to EUR 793.32 thousand (previous year: EUR 838.90 thousand) exist as a result of the assumption of maximum amount guarantees for lease and supplier agreements of a subsidiary. Based on the business development of the subsidiary, utilization is not expected.

E. Notes to the Consolidated Income Statement

REVENUE

Total consolidated revenue amounted to EUR 180,800.48 thousand (previous year: EUR 110,673.47 thousand), thereof EUR 85,881.14 thousand attributable to the Public segment (previous year: EUR 31,580.30 thousand), EUR 49.550,88 thousand to the Enterprise segment (previous year: EUR 33,512.34 thousand), EUR 36,013.91 thousand to the Financial Technologies segment (previous year: EUR 14,907.63 thousand) and EUR 9,296.18 thousand to the Other segment (previous year: EUR 30,548.90 thousand). Revenue from holding companies (to the extent not eliminated within the scope of consolidation) amounting to EUR 58.37 thousand (previous year: EUR 124.30 thousand) is included.

Revenue is generated primarily from the sale of services as well as software licenses and related maintenance agreements. Of total revenue, 67.2% was generated in Germany, 27.9% in Europe and 4.9% outside Europe.

Revenue amounting to EUR 118,787.38 thousand was generated by companies that had already been part of the scope of consolidation in the 2024 fiscal year, thereof EUR 6,117.12 thousand attributable to companies deconsolidated during the 2025 fiscal year, which were included in the consolidated financial statements only with their results up to the date of deconsolidation in April. Excluding these companies, revenue from companies included in the scope of consolidation in both years amounts to EUR 112,670.26 thousand (previous year: EUR 79,783.68 thousand). Revenue amounting to EUR 62,013.09 thousand resulted from companies included in the consolidated financial statements for the first time during the 2025 fiscal year.

OTHER OPERATING INCOME

Other operating income is composed as follows:

	2025 in EUR '000	Previous year in EUR '000
Ordinary operating income	3,757.11	1,413.93
Income from the disposal of and write-ups to non-current assets	23,381.80	6,469.02
Income from the reversal of provisions	1,449.93	128.03
Income relating to other periods	496.49	370.95
Income from currency translation	596.36	22.91
Other operating income	**29,681.69**	**8,404.84**

Ordinary operating income includes income from the offsetting of non-cash benefits amounting to EUR 731.96 thousand (previous year: EUR 470.45 thousand).

Ordinary operating income amounting to EUR 1,738.83 thousand is attributable to companies

newly added to the scope of consolidation during the 2025 fiscal year. Income amounting to EUR 1,060.03 thousand relates to companies that were included in the consolidated financial statements with their full fiscal year in both fiscal years. The previous year's amount for these companies totaled EUR 981.17 thousand. EUR 934.55 thousand relates to companies that were included in the consolidated financial statements on a pro rata basis in the previous year in the amount of EUR 224.43 thousand. Ordinary other operating income amounting to EUR 23.69 thousand relates to companies deconsolidated in 2025. In the previous year, ordinary operating income amounting to EUR 47.63 thousand related to these companies.

Income from the disposal of and write-ups on fixed assets includes income from the sale of securities amounting to EUR 11,078.87 thousand (previous year: EUR 2,764.97 thousand) as well as income amounting to EUR 685.52 thousand (previous year: EUR 0.00 thousand) from the reversal of write-downs recognized in previous years by CHAPTERS Group AG. Of exceptional significance in the 2025 fiscal year is the income from the deconsolidation of companies included in this item amounting to EUR 11,476.62 thousand (previous year: EUR 3,523.27 thousand), thereof an amount of EUR 1,879.31 thousand (previous year: EUR 2,101.22 thousand) attributable to non-cash income from deconsolidation.

DEPRECIATION AND AMORTIZATION

	2025 in EUR '000	Previous year in EUR '000
Depreciation and amortization of intangible fixed assets and tangible fixed assets from purchase price allocation	-8,332.68	-3,439.35
Amortization of intangible fixed assets at the level of the individual companies	-1,690.75	-1,027.81
Depreciation of tangible fixed assets at the level of the individual companies	-1,997.06	-1,771.06
Amortization of goodwill from consolidation	-35,544.80	-14,105.38
On current assets (to the extent exceeding the write-downs customary in the Company)	-103.71	-28.02
Depreciation and amortization	**-47,669.00**	**- 20,371.63**

Depreciation and amortization of intangible fixed assets and tangible fixed assets from purchase price allocation amounting to EUR 2,935.00 thousand result from companies that became part of the scope of consolidation during the 2025 fiscal year. An amount of EUR 2,377.55 thousand results from companies that had already been included in the scope of consolidation with their full fiscal year in the 2024 fiscal year. An amount of EUR 2,946.80 thousand results from companies that were included only on a pro rata basis in the previous year. An amount of EUR 73.30 thousand is attributable to companies deconsolidated during the 2025 fiscal year.

Amortization of intangible fixed assets at the level of the individual companies amounting to EUR 505.32 thousand results from companies that became part of the scope of consolidation during the 2025 fiscal year. An amount of EUR 234.82 thousand results from companies that had already been included in the scope of consolidation with their full fiscal year in the 2024 fiscal year. An amount of EUR 868.44 thousand results from companies that were included in the Group only on a pro rata basis in the previous year in the amount of EUR 408.16 thousand. An amount of EUR 82.17 thousand is attributable to companies deconsolidated during the 2025 fiscal year. In the previous year, amortization of intangible fixed assets at the level of the individual companies amounting to EUR 298.95 thousand related to these companies.

Depreciation of tangible fixed assets at the level of the individual companies amounting to EUR 388.40 thousand results from companies that became part of the scope of consolidation during the 2025 fiscal year. An amount of EUR 1,067.27 thousand results from companies that had already been included in the scope of consolidation with their full fiscal year in the 2024 fiscal year. An amount of EUR 460.43 thousand results from companies that were included in the Group only on a pro rata basis in the previous year in the amount of EUR 357.78 thousand. A total of EUR 80.95 thousand is attributable to companies deconsolidated during the 2025 fiscal year. In the previous year, depreciation of tangible fixed assets amounting to EUR 231.07 thousand related to these companies.

Amortization of goodwill from consolidation in an amount of EUR 11,895.60 thousand results from companies that became part of the scope of consolidation during the 2025 fiscal year. An amount of EUR 15,743.73 thousand results from companies that had already been included in the scope of consolidation with their full fiscal year in the 2024 fiscal year. An amount of EUR 7,644.55 thousand results from companies that were included in the Group only on a pro rata basis in the previous year. An amount of EUR 260.92 thousand in the 2025 fiscal year is attributable to companies deconsolidated during the 2025 fiscal year.

OTHER OPERATING EXPENSES

	2025 in EUR '000	Previous year in EUR '000
Cost of premises	-5,363.42	-4,539.23
Insurance/contributions	-996.52	-965.44
Vehicle costs	-1,999.43	-1,718.75
Advertising and travel expenses	-6,066.69	-5,064.83
Maintenance and repair	-2,345.05	-1,188.50
Legal and consulting costs	-7,083.28	-3,123.74
Costs of accounting and preparation of annual financial statements	-1,712.88	-1,264.78
Costs resulting from the legal form of CHAPTERS Group AG (including the costs of auditing the consolidated and annual financial statements)	-637.29	-604.14
External services	-8,924.32	-2,140.64
Licenses and concessions	-2,268.36	-1,065.36
Addition to provisions for outstanding services	-1,034.33	0.00
Addition to provisions for onerous contracts	-322,93	0.00
Other operating expenses	-8,795.74	-5,086.47
Ordinary operating expenses	**-47,550.25**	**-26,761.88**
Expenses from currency translation	-134.37	-392.83
Expenses relating to other periods	-458.73	-284.31
Losses from the disposal of fixed assets	-766.58	-83.07
Losses from impairments, from the disposal of current assets and additions to the value adjustment for receivables	-234.27	-94.83
Other operating expenses	**-49,144.20**	**-27,616.92**

Losses from the disposal of fixed assets include losses from the sale of securities classified as fixed assets at the level of CHAPTERS Group AG amounting to EUR 59.39 thousand (previous year: EUR 70.89 thousand).

Of the ordinary operating expenses amounting to EUR 47.550,25 thousand, an amount of EUR 16.654,92 thousand is attributable to companies newly added to the scope of consolidation during the 2025 fiscal year. An amount of EUR 20,956.77 thousand is attributable to companies that were included in the consolidated financial statements with their full fiscal year in both the 2025 and 2024 fiscal years (previous year: EUR 15,625.77 thousand). The increase is attributable on the one hand to higher (one-off) legal and consulting expenses in connection with external financing raised in 2025 and on the other hand to increased costs associated with additional revenue in 2025. An amount of EUR 8,204.45 thousand results from companies that were included in the consolidated financial statements only on a pro rata basis in the previous year in the amount of EUR 3,340.29 thousand. Taking into account the results prior to the date of initial consolidation, ordinary operating expenses of these companies amounted to EUR 7,553.86 thousand in the previous year. The increase is related to additional revenue. Companies deconsolidated during the 2025 fiscal year were included with their results up to April 2025. The amount of ordinary operating expenses attributable to the deconsolidated companies in 2025 amounts to EUR 1,734.11 thousand compared to EUR 5,086.35 thousand in the 2024 consolidated financial statements.

RESULT FROM ASSOCIATED COMPANIES

	2025 in EUR '000	Previous year in EUR '000
Proportionate net profit attributable to CHAPTERS Group AG	554.55	491.99
Proportionate net loss attributable to CHAPTERS Group AG	-128.84	-149.46
Losses exceeding the carrying amount	128.96	142.27
Net profit used for value recovery	0.0	-17.15
Amortization of goodwill	-61.68	-795.09
Release of negative differences	27.23	20.59
Total result from associated companies	**520.22**	**-306.86**

The Group did not receive any distributions from associated companies in 2025 or 2024.

INCOME FROM OTHER SECURITIES AND LOANS CLASSIFIED AS FINANCIAL FIXED ASSETS

Income amounting to EUR 221.73 thousand (previous year: EUR 408.71 thousand) includes EUR 26.35 thousand (previous year: EUR 242.09 thousand) from dividends received by CHAPTERS Group AG on securities and EUR 25.68 thousand (previous year: EUR 0.00 thousand) from interest received by CHAPTERS Group AG on bond investments held in the securities portfolio. Also included are interest income on loans to companies in which a participation is held amounting to EUR 125.57 thousand (previous year: EUR 118.38 thousand).

OTHER INTEREST AND SIMILAR INCOME

Other interest and similar income totaling EUR 1,441.52 thousand (previous year: EUR 1,691.39 thousand) mainly results from interest income on demand deposits as well as interest hedging transactions. Included therein is interest income amounting to EUR 107.52 thousand (previous year: EUR 506.19 thousand) on treasury holdings of the corporate bonds. Interest and similar income also includes interest income from the discounting of pension obligations amounting to EUR 52.84 thousand (previous year: EUR 0.00 thousand).

WRITE-DOWNS ON FINANCIAL ASSETS

The write-downs on financial assets amounting to EUR 1,293.38 thousand (previous year: EUR 1,131.14 thousand) include EUR 437.09 thousand in non-scheduled impairment losses on securities held by CHAPTERS Group AG, as the group's ultimate parent company, within the framework of its liquidity management. Furthermore, write-downs on financial assets amounting to EUR 806.70 thousand and EUR 49.50 thousand result from non-scheduled impairment losses on other investments.

INTEREST AND SIMILAR EXPENSES

Interest and similar expenses amounting to EUR 15,858.54 thousand (previous year: EUR 5,392.86 thousand) in the 2025 fiscal year include EUR 400.30 thousand (previous year: EUR 1,992.69 thousand) from the pro rata reversal of the discount recognized under prepaid expenses in connection with the bond, as well as EUR 1,430.34 thousand (previous year: EUR 0.00 thousand) from interest on the newly issued corporate bond of CHAPTERS Group AG as the ultimate parent company. At the level of the subsidiaries, interest expense amounts to EUR 14,013.05 thousand (previous year: EUR 3,400.17 thousand) and mainly relates to acquisition loans raised by the companies for the (re-)financing of company acquisitions. Interest and similar expenses include interest ex-

pense from the unwinding of the discount on pension obligations amounting to EUR 87.59 thousand (previous year: EUR 0.00 thousand) as well as expenses from plan assets eligible for offsetting amounting to EUR 10.40 thousand (previous year: EUR 0.00 thousand). This results in a total expense of EUR 97.99 thousand (previous year: EUR 0.00 thousand).

INCOME TAXES

Income taxes are paid at the level of the respective individual companies. Tax groups for income tax purposes generally exist between the acquisition company and the operating company in which it directly holds a participation. No other tax groups for income tax purposes exist; accordingly, losses of other Group companies are not offset.

SHARES ATTRIBUTABLE TO OTHER SHAREHOLDERS IN THE RESULT

Shares attributable to other shareholders in the result amounting to EUR -10,568.98 thousand (previous year: EUR -778.08 thousand) are presented net as shares in profits and losses. Profit attributable to other shareholders amounts to EUR 4,047.95 thousand (previous year: EUR 2,606.13 thousand) and is offset against a share of losses amounting to EUR -14,616.93 thousand (previous year: EUR -3,384.21 thousand).

F. Other Disclosures

EMPLOYEES

The average number of employees during the 2025 fiscal year amounted to 1,253 (previous year: 805). For companies that became part of the scope of consolidation during the 2025 fiscal year, employees are only taken into account on a pro rata basis for the period during which the company was part of the Group. Managing directors and, in the case of CHAPTERS Group AG, members of the Management Board are not included in determining the number of employees.

The average number of employees is distributed as shown in the following overview. With the exception of CHAPTERS Group AG and Kältehelden GmbH, the number of employees stated also includes the employees of companies in which the listed companies hold a majority interest.

	12/2025	12/2024
CHAPTERS Group AG	16	5
CHAPTERS Software GmbH (previously Ookam Software GmbH)	386	300
NGC CNC Beteiligungen GmbH (in the previous year included in the figures for NGC Nachfolgekapital GmbH)	42	33
Lumeira Holding GmbH (previously: Blitz F25-951 GmbH) (previous year: Fintiba GmbH)	139	72
Altamount Software GmbH	172	36
mlog Capital SAS	101	34
CarMa Holding AG	26	29
Waterkant Software GmbH	119	26
CHAPTERS Switzerland Software GmbH	77	19
Kältehelden GmbH	22	16
Companies no longer part of the Group as of 12/31/2025	153	235
Total	**1,253**	**805**

OTHER FINANCIAL OBLIGATIONS

As of the balance sheet date, other financial obligations from rental and lease agreements amount to EUR 12,236.73 thousand.

FEES OF THE GROUP AUDITOR

The fee of the Group auditor for the 2025 fiscal year is expected to amount to approximately EUR 427.32 thousand for audit services (previous

year: EUR 220.00 thousand) plus expenses and includes, in addition to the fee for the audit of the consolidated and annual financial statements of CHAPTERS Group AG, the audit of (consolidated) financial statements of domestic subsidiaries as well as the review of the half-year financial report. Other assurance services in connection with the review of the sustainability report prepared for the first time for 2025 are expected to amount to EUR 55.00 thousand. In addition, other services amounting to approximately EUR 5.00 thousand were invoiced by BDO within the Group.

INFORMATION ON THE EXECUTIVE BODIES

The following persons were appointed as members of the **Management Board** during 2025:

1. Mr. Jan-Hendrik Mohr, Hamburg, MSc. Financial Mathematics, BSc. Business Administration, Bank Clerk (Chairman of the Management Board since October 19, 2021)
   Mr. Jan-Hendrik Mohr was appointed to the Management Board of the Company effective March 1, 2020. Mr. Jan-Hendrik Mohr is also Managing Director of JMX Capital GmbH, Hamburg.
   Within the Management Board, Mr. Jan-Hendrik Mohr is responsible for the areas of Mergers & Acquisitions and general corporate matters as well as, jointly with Ms. Carl, for Investor Relations, Treasury and IT.

2. Ms. Marlene Carl, Hamburg, MSc. Finance, BSc. Business Administration, Bank Clerk
   Ms. Marlene Carl was appointed to the Management Board of the Company effective October 19, 2021. Ms. Marlene Carl is also a member of the Board of Directors of Tucows Inc., headquartered in Toronto, Canada.
   Within the Management Board, Ms. Marlene Carl is responsible for the areas of Finance, Administration and Taxes as well as, jointly with Mr. Mohr, for Investor Relations, Treasury and IT.

The following persons were elected as members of the **Supervisory Board** during 2025:

1. Dr. Mathias Saggau, Bonn, Investment Manager, MSA Capital GmbH (Chairman of the Supervisory Board). Since June 2025, Dr. Mathias Saggau has also been a member of the Supervisory Board of GESCO SE, Wuppertal, Germany.
2. Dr. Martin Possienke, Bad Homburg v.d. Höhe, Investment Manager, Falkenstein Management GmbH (Deputy Chairman of the Supervisory Board). Dr. Martin Possienke is also Managing Director of Long-Term Group GmbH and, since December 2025, a member of the Supervisory Board of GFEI Aktiengesellschaft, Hanover, Germany.
3. Ms. Edda Heidbrink, Cologne, Senior Vice President HSE, Global Labour Relations, Syndikusrechtsanwältin and Authorized Signatory at SMS group GmbH (Deputy Chairwoman of the Supervisory Board). Until November 2025, Ms. Edda Heidbrink was also Chairwoman of the Supervisory Board of AMEVIDA SE.
4. Mr. Paul Buser, Bradenton (Florida), USA, Investment Manager, Sator Grove Holdings. Mr. Paul Buser is also a member of the Board of Directors of Hunt Club, Inc., Chicago, USA and, since October 2025, a member of the Advisory Board of Seqos GmbH, Munich, Germany. Until September 2025, Mr. Paul Buser was also a member of the Board of Directors of Kimelo, San Francisco (California), USA.

REMUNERATION OF THE EXECUTIVE BODIES

During the 2025 fiscal year, the Management Board received fixed compensation totaling EUR 314.00 thousand (previous year: EUR 288.75 thousand). In addition, in the 2023 fiscal year, the Supervisory Board of the Company established a Virtual Share Option Plan ("VSOP") for the members of the Management Board in addition to the fixed compensation, which incentivizes the long-term increase in enterprise value and rewards a sustainable increase in the share price.

Under the VSOP, a total of 1,000,000 virtual share options with a commencement date of January 1, 2023, were granted to the Management Board, which may be exercised no earlier than December 31, 2026, and no later than December 31, 2027. Each option entitles the holder to payment of the difference between the relevant share price at the exercise date (calculated as the volume-weighted average share price over the last 30 trading days) and the strike price determined by the Supervisory Board. The strike price for the Management Board share options was set at EUR 22.27 per option. Compensation under the VSOP for each member of the Management Board is capped at EUR 12.0 million; this amount would be reached at a relevant share price above EUR 46.27 four years after the grant date. Settlement may be effected either in cash or by delivery of shares in CHAPTERS Group AG, at the sole discretion of the Supervisory Board.

The options are subject to a four-year vesting period during which the options vest pro rata on a quarterly basis. Standard market "bad leaver" provisions apply, under which all options lapse irrespective of timing. Following expiry of the four-year vesting period, the options may be exercised within one year. Payment is made in three tranches, with the first tranche amounting to one third of the total amount payable upon exercise. The remaining amount is paid one and two years after exercise, respectively, in equal tranches multiplied by the development of the Company's share price since exercise.

During the 2025 fiscal year, a total of 250,000 share options were vested for the members of the Management Board, resulting in a total of 750,000 vested share options for each member. The resulting payment amount cannot be finally determined before December 31, 2026.

The Supervisory Board received total compensation of EUR 96.00 thousand.

GROUP RELATIONSHIPS

CHAPTERS Group AG, headquartered in Hamburg, is the ultimate parent company and prepares consolidated financial statements and a combined Group management report for the 2025 fiscal year. The size criteria pursuant to Section 293 (1) HGB were exceeded for the first time in the 2021 fiscal year. The consolidated financial statements of CHAPTERS Group AG are published in the Company Register.

APPROPRIATION OF EARNINGS

The Executive Board proposes to carry forward the unappropriated surplus of CHAPTERS Group AG as the individual company in the amount of EUR 3,514.33 thousand, consisting of net profit for the year amounting to EUR 6,481.32 thousand and a loss carryforward amounting to EUR 2,966.99 thousand.

G. Supplementary Report

By the time the financial statements were prepared, subsidiaries of CHAPTERS Group AG acquired participations in two additional companies, thereof one company headquartered in France and one in Austria.

In connection with these transactions, a total amount of EUR 23.7 million was invested, thereof EUR 14.7 million from equity and EUR 9.00 million from newly raised debt capital. In addition, an existing subsidiary raised debt capital amounting to EUR 6.00 million, which is available for new acquisitions.

In April 2026, CHAPTERS Group AG placed a third tranche of the 2025/2030 corporate bond amounting to EUR 10 million. Of this amount, the Company subscribed EUR 5 million itself.

In April 2026, the Group reduced its participation in Kältehelden GmbH from previously 80% to 49%.

In May 2026, the Company sold its shares held in NPV Nachfolge Beteiligungen GmbH (44 % of the share capital) to the existing majority shareholder and managing director of the company. As part of the transaction, the Group will receive an amount of approximately EUR 2.8 million, thereof EUR 2.26 million attributable to repayments of existing loans. Closing of the transaction is expected during the first half of the year.

Independent Auditor's Report

To CHAPTERS Group AG, Hamburg

AUDIT OPINIONS

We have audited the consolidated financial statements of CHAPTERS Group AG, Hamburg, and its subsidiaries (the Group), consisting of the consolidated balance sheet as of December 31, 2025, the consolidated income statement, the consolidated statement of changes in equity, and the consolidated cash flow statement for the fiscal year from January 1, 2025 to December 31, 2025, as well as the notes to the consolidated financial statements, including a summary of significant accounting policies.

In addition, we have audited the combined management report of CHAPTERS Group AG for the fiscal year from January 1, 2025 to December 31, 2025.

Based on the findings of our audit, in our opinion:

- the accompanying consolidated financial statements comply, in all material respects, with the requirements of German commercial law and, in accordance with the German principles of proper accounting, provide a true and fair view of the Group's net assets, financial position, and results of operations as of December 31, 2025 and for the fiscal year from January 1, 2025 to December 31, 2025; and
- the accompanying combined management report as a whole provides an accurate view of the Group's position. In all material respects, this combined management report is consistent with the consolidated financial statements, complies with German legal requirements, and appropriately presents the opportunities and risks of future development.

In accordance with § 322 paragraph 3 sentence 1 of the German Commercial Code (HGB), we declare that our audit has not led to any objections regarding the propriety of the consolidated financial statements and the combined management report.

BASIS FOR THE AUDIT OPINIONS

We conducted our audit of the consolidated financial statements and the combined management report in accordance with § 317 HGB and in compliance with the German generally accepted standards for financial statement audits as promulgated by the Institut der Wirtschaftsprüfer (IDW).

Our responsibilities under those requirements and principles are further described in the section "AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS AND THE COMBINED MANAGEMENT REPORT" of our auditor's report. We are independent of the Group entities in accordance with the provisions under German commercial and professional law and have fulfilled our other professional responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions on the consolidated financial statements and the combined management report.

OTHER INFORMATION

The legal representatives or the supervisory board are responsible for the other information. The other information includes all parts of the annual report except for the audited consolidated financial statements, the combined management report, and our auditor's report.

Our audit opinions on the consolidated financial statements and the combined management report do not cover the other information, and accordingly, we do not express any audit opinion or any other form of assurance thereon.

In connection with our audit of the consolidated financial statements, it is our responsibility to read the other information and to consider whether there are:

- material inconsistencies with the consolidated financial statements, the combined management report, or the knowledge obtained during the audit; or
- the other information otherwise appears to be materially misstated.

RESPONSIBILITY OF THE LEGAL REPRESENTATIVES AND THE SUPERVISORY BOARD FOR THE CONSOLIDATED FINANCIAL STATEMENTS AND THE COMBINED MANAGEMENT REPORT

The legal representatives are responsible for the preparation of the consolidated financial statements in accordance with the requirements of German commercial law in all material respects and that, in compliance with the German principles of proper accounting, the consolidated financial statements provide a true and fair view of the net assets, financial position, and results of operations of the Group. They are also responsible for such internal controls as they determine are necessary under the German principles of proper accounting to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the legal representatives are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless actual or legal circumstances indicate otherwise.

Furthermore, the legal representatives are responsible for the preparation of the combined management report that as a whole provides a suitable view of the Group's position and is consistent with the consolidated financial statements in all material respects, complies with the German statutory requirements, and appropriately presents the opportunities and risks of future development. They are also responsible for the precautions and measures (systems) deemed necessary to enable the preparation of the combined management report in accordance with applicable German legal provisions and to provide sufficient appropriate evidence for the statements made therein.

The supervisory board is responsible for overseeing the financial reporting process used to prepare the consolidated financial statements and the combined management report.

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS AND THE COMBINED MANAGEMENT REPORT

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and whether the combined management report as a whole provides an accurate view of the Group's position, is consistent in all material respects with the consolidated financial statements and the findings of the audit, complies with German legal requirements,

and appropriately presents the opportunities and risks of future development, and to issue an auditor's report that includes our audit opinions on the consolidated financial statements and the combined management report.

Reasonable assurance is a high level of assurance, but not a guarantee, that an audit conducted in accordance with § 317 HGB and the German generally accepted standards for financial statement audits as established by the IDW will always detect a material misstatement. Misstatements may arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements and the combined management report.

As part of an audit in accordance with these standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the consolidated financial statements and the combined management report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our audit opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls;
- obtain an understanding of internal control relevant to the audit of the consolidated financial statements and of the systems relevant to the audit of the combined management report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal controls or systems;
- evaluate the appropriateness of accounting policies used by the legal representatives and the reasonableness of estimates and related disclosures made by them;
- conclude on the appropriateness of the legal representatives' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements and the combined management report or, if such disclosures are inadequate, to modify our audit opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements present the underlying transactions and events in a manner that achieves fair presentation in accordance with the German principles of proper accounting;
- plan and perform the audit of the consolidated financial statements so as to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express audit opinions on the consolidated financial statements and the combined management report. We are responsible for the direction, supervision, and performance of the group audit. We remain solely responsible for our audit opinions;
- evaluate the consistency of the combined management report with the consolidated financial statements, its compliance with the law, and the overall presentation of the Group's position;
- perform audit procedures on the forward-looking statements made by the legal representatives in the combined management report. On the basis of sufficient appropriate audit evidence, we in particular evaluate the significant assumptions used by the legal representatives as a basis for the forward-looking statements and evaluate the proper derivation of the forward-looking statements from these assumptions. We do not express a separate audit opinion on the forward-looking statements or on the assumptions on which they are based. There is a significant unavoidable risk that future events will differ materially from the forward-looking statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
