Compensation Report

WACKER

Compensation Report of Wacker Chemie AG for 2025

The following Compensation Report for the 2025 fiscal year follows the recommendations of the German Corporate Governance Code in the amended version that entered into force on April 28, 2022, and complies with the requirements of Section 162 of the German Stock Corporation Act (“AktG”), as amended by the German Act Implementing the EU Shareholder Rights Directive II (“ARUG II”) of December 12, 2019. The Compensation Report for the 2025 fiscal year was prepared jointly by the Executive Board and the Supervisory Board and was adopted by both bodies on March 04, 2026. The Compensation Report has been formally reviewed by the auditors in accordance with Section 162 (3) sentence 2 of the German Stock Corporation Act. The unqualified audit opinion is included in the Compensation Report. The Compensation Report will be submitted to the Annual Shareholders’ Meeting on May 6, 2026 for approval.

Approval of the 2024 Compensation Report by the 2025 Annual Shareholders’ Meeting in accordance with Section 120a (4) of the German Stock Corporation Act

The Compensation Report of Wacker Chemie AG for the 2024 fiscal year was approved by the Annual Shareholders’ Meeting held on May 7, 2025, with 84.72 percent of the vote. Given this approval rate for the 2024 Compensation Report, there were no grounds for initiating a fundamental review of the manner of reporting. Some shareholder representatives and investors did, however, note that the transparency of the information on compensation development could be made more transparent. This prompted us to include a comparison of compensation in 2025 with compensation in 2024 in this year’s Compensation Report.

Changes in the Composition of the Executive Board and the Supervisory Board in the 2025 Reporting Year

There were no changes to the composition of either the Executive Board or the Supervisory Board in the reporting period. The appointments of Dr. Ohler and Dr. Kirsten as members of the Executive Board were extended by a further five years in each case with effect from January 1, 2026 and May 1, 2026 respectively.

A. Executive Board compensation

The compensation paid to members of the Executive Board in the 2025 reporting year was based on the compensation system approved by the Annual Shareholders' Meeting on May 17, 2023. There were no deviations from the approved compensation system.

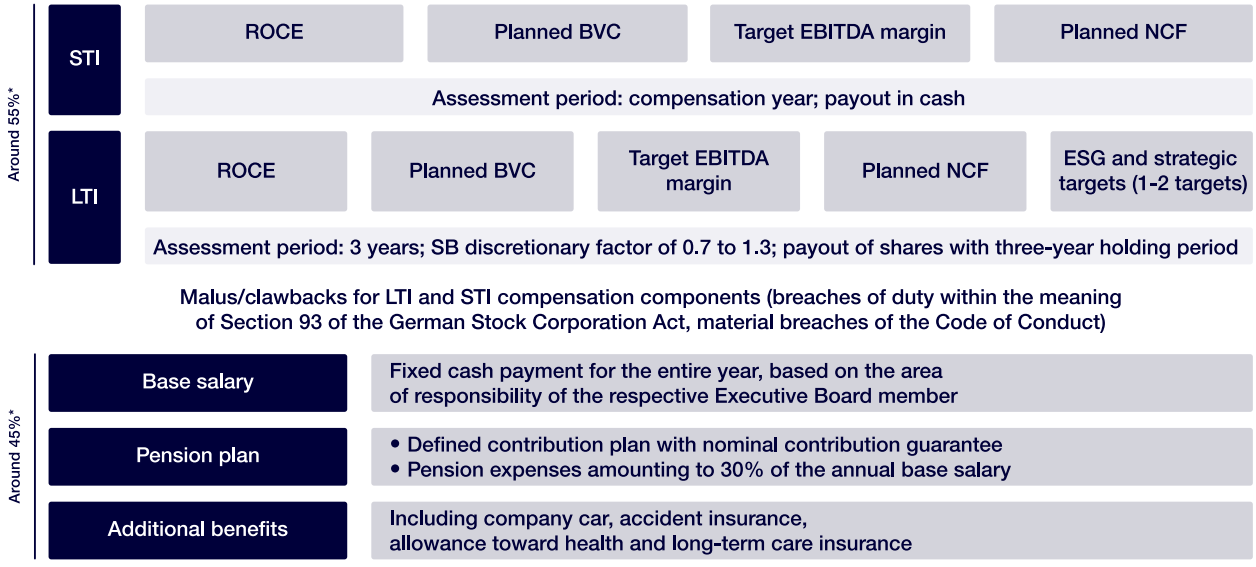

The compensation system for Executive Board members is designed to promote the company's business strategy, achieve profitable and sustainable growth, and allow the company to hold a leading competitive position in the business fields in which it operates. The compensation for the members of the Executive Board is generally made up of around 45% fixed and around 55% variable components. For newly appointed Executive Board members, deviations can arise with respect to the relative shares of the individual compensation elements because of potentially different target values for variable compensation and higher additional benefits (e.g. sign-on bonus, compensatory payments), or because of the increased share of the pension due to minimum coverage. Deviations for future fiscal years can also arise from changes to additional benefits and from the granting of other additional benefits.

The fixed components include the fixed annual base salary, additional benefits and the company pension. Variable compensation is based on the achievement of specific performance criteria. The portion of long-term variable compensation exceeds that of short-term variable compensation and is granted in the form of shares subject to a holding period, placing the emphasis on the company's long-term performance.

A complete description of the compensation system for the Executive Board can be found on the company's website at **https://www.wacker.com/cms/en-de/about-wacker/investor-relations/corporate-governance/compensation-system-board-of-directors.html.**

I. Executive Board compensation components in 2025 at a glance

The following overview provides information on the main components of the compensation system and how they relate to strategy in the 2025 fiscal year:

* Based on the target total compensation for a compensation year; the share varies slightly depending on the Executive Board member (e.g., due to a higher proportion of retirement benefits resulting from minimum protection or higher fringe benefits).

Component	Link to strategy	Structure
Fixed compensation components		
Base salary	Ensures appropriate basic income, allowing the company to attract highly qualified Executive Board members and keep them with the company	Fixed cash compensation depending on the member's role and area of responsibility within the Executive Board Paid out in twelve monthly installments In the reporting year: Dr. Hartel (President & CEO): €880,000 Dr. Ohler: €690,000 Dr. Kirsten: €610,000 Ms. Wörl: €610,000
Pension plan	Adequate benefits for Executive Board members as part of a competitive compensation package, allowing the company to attract highly qualified Executive Board members and keep them with the company	Annual pension contribution in the amount of 30 percent of the basic annual salary; paid into a group CTA; Transitional arrangements for Executive Board members who have left the company, as well as for Dr. Ohler and Dr. Hartel Basic company pension through the pension fund (Pensionskasse der Wacker Chemie VVaG) – monthly contributions paid by the company and Executive Board member (up to the contribution assessment ceiling of the German statutory pension insurance system; does not apply to Dr. Kirsten)
Additional benefits	Attractive additional benefits as part of a competitive compensation package, allowing the company to attract highly qualified Executive Board members and keep them with the company Foster the Executive Board members' efficiency, security and health, ensuring the Executive Board can perform in the long run	Assumption of the costs (and where appropriate tax on the non-cash fringe benefit) for a company car, driver, accident insurance, health checks Health and long-term care insurance subsidies D&O insurance
Variable compensation components		
Short-term incentive (STI)	Increasing the cash inflow from operating activities; Sustainably and continuously increasing the company's value in the long term	Based on target achievement in the compensation year Target value achieved: STI = 80 percent of the basic annual salary Cap: 144 percent of the basic annual salary Different rules may apply to newly appointed Executive Board members (e.g. guaranteed target achievement level or reduced percentages) In the reporting year: KPIs: Planned BVC, planned op. NCF, target EBITDA margin, target ROCE
Long-term incentive (LTI)	Incentive for sustainable corporate policy Carbon neutrality by 2045 Improved process safety management	Average of the relevant LTI bonus percentages for the reporting year and the two previous years – paid out in shares (in the form of a requirement to acquire shares) with a three-year holding period Target value achieved: LTI = 100 percent of the basic annual salary Cap: 180 percent of the basic annual salary Different rules may apply to newly appointed Executive Board members (e.g. guaranteed target achievement level or reduced percentages) The Supervisory Board can increase or reduce the LTP by 30 percent via a discretionary factor In the reporting year: KPIs: Financial: Planned BVC, planned op. NCF, target EBITDA margin, target ROCE Non-financial: Reduction in absolute CO_2 emissions, frequency of safety/environment-related incidents Different rules for Dr. Kirsten (guaranteed target achievement level due to initial appointment) No increase/reduction via the discretionary factors

Component	Link to strategy	Structure
Other compensation features		
Non-compete agreement with competitive-restriction compensation for a period of 12 months	Protection of expertise and competitiveness	Competitive-restriction compensation: 50 percent of total annual compensation (fixed annual salary, STI and LTI), calculated based on the average of the last three years; paid out monthly In the reporting year: Was not applied
Early termination benefits	Preventing inappropriate severance payments	Severance pay cap: Maximum of two annual salaries, limited to residual term of the contract In the reporting year: Was not applied
Special payments, particularly to new Executive Board members	Often a prerequisite for recruiting highly qualified individuals for the Executive Board	Special payments may include a sign-on bonus, reimbursements of forfeited variable compensation at a previous employer or of other financial disadvantages, as well as benefits associated with relocation (e.g. moving expenses, cost of running two households) Where appropriate, indemnification for attorney's fees In the reporting year: Special payments made to Dr. Kirsten in the context of his initial appointment
Malus/clawback	Compliance as a top priority	Reduction in/clawback of the amount paid out under the STI/LTI Grounds: Breach of duty within the meaning of Section 93 of the German Stock Corporation Act Material breach of the company's Code of Conduct In the reporting year: Was not applied
Maximum compensation	Appropriate ratio of Executive Board compensation to compensation paid to other employees	CEO: €5 million Ordinary members: €3.8 million In the reporting year: Not exhausted

II. Compensation of individual active and former Executive Board members in the reporting year

1. Compensation “Granted and owed” (Section 162 (1) sentence 1 of the German Stock Corporation Act), including presentation of relative shares (Section 162 (1) sentence 2 no. 1 of the German Stock Corporation Act)

In accordance with Section 162 (1) sentence 1 of the German Stock Corporation Act, all compensation granted and owed to each current or former member of the Executive Board over the last fiscal year must be disclosed. This Compensation Report is based on the understanding that compensation is classified as “granted” when the activity on which compensation is based was performed in full, even if the actual payment/inflow falls after the end of the fiscal year (vesting principle). Compensation is considered “owed” when there is a legal obligation to pay it, and this obligation has fallen due but has not yet been fulfilled.

As a result, the following disclosures are made below as compensation “granted and owed” as defined by Section 162 (1) sentence 1 of the German Stock Corporation Act:

- the fixed compensation components paid out in the reporting year (fixed compensation, additional benefits, other payments)
- the variable compensation earned for the 2025 fiscal year (STI and LTI), even if it is not paid out/invested in shares until the year following the reporting year. For the LTI, the amount reported corresponds to the virtual gross payout to be invested in shares after the Annual Shareholders’ Meeting. The number of shares actually purchased is stated in the Compensation Report for the following year (see also A. II. 2.2).

By contrast, the pension contributions granted and expenses in connection with the company pension plan for 2025 are not to be classed as compensation granted and owed based on the IDW pronouncements, but rather are reported separately in section 4 below.

The fixed and variable compensation components granted are in line with the compensation system requirements.

Compensation "Granted and owed" (Section 162 (1) sentence 1 of the German Stock Corporation Act) including presentation of relative shares (Section 162 (1) sentence 2 no. 1 of the German Stock Corporation Act) in 2025

		Fixed compensation				Variable compensation					
Active Executive Board members	Year	Fixed compensation	Additional benefits	Other benefits	Total	STI	LTI	Total	Total compensation	Share of fixed compensation relative to total compensation	Share of variable compensation relative to total compensation
President & CEO											
Dr. Christian Hartel	**2025**	**€880,000**	**€24,822**		**€904,822**	**€237,600**	**€510,400**	**€748,000**	**€1,652,822**	**55%**	**45%**
	2024	€880,000	€31,846		€911,846	€422,400	€704,000	€1,126,400	€2,038,246	45%	55%
Executive Board members											
Dr. Tobias Ohler	**2025**	**€690,000**	**€64,994**		**€754,994**	**€186,300**	**€400,200**	**€586,500**	**€1,341,494**	**56%**	**44%**
	2024	€690,000	€69,823		€759,823	€331,200	€552,000	€883,200	€1,643,023	46%	54%
Angela Wörl	**2025**	**€610,000**	**€39,171**		**€649,171**	**€164,700**	**€317,200**	**€481,900**	**€1,131,071**	**57%**	**43%**
	2024 Jan. – April	€133,333	€13,561		€580,684	€48,000	€86,667	€610,467	€1,191,151	49%	51%
	May – Dec.	€406,667	€27,123			€195,200	€280,600				
Dr. Christian Kirsten	**2025**	**€610,000**	**€23,585**	**€405,376**	**€1,038,961**	**€164,700**	**€433,100**	**€597,800**	**€1,636,761**	**63%**	**37%**
	2024	€610,000	€30,066	€369,967	€1,010,033	€292,800	€536,800	€829,600	€1,839,633	55%	45%

The "additional benefits" include the D&O insurance policy that the company takes out for its Executive and Supervisory Board members. The insurance covers the personal liability risk in the event that claims are asserted against these individuals for financial losses in connection with their work. The coverage for the Executive Board members has a deductible that meets the requirements set out in the German Stock Corporation Act.

Special features:

"Special benefits" granted to Dr. Kirsten

To allow Wacker to recruit Dr. Kirsten as a member of the Executive Board, he was granted benefits upon his initial appointment as an Executive Board member in May 2023. These included a sign-on bonus, compensatory payments for forfeited bonuses at his previous employer, and the assumption of moving and accommodation expenses. Most of the moving and accommodation expenses were already reimbursed in the 2023 compensation year and are included in the 2023 Compensation Report. Further accommodation expenses in the 2024 compensation year are included in other additional benefits. It was agreed that the sign-on bonus and compensatory payments for forfeited bonuses at Dr. Kirsten's previous employer would be paid out in tranches. The first tranches were paid out in the 2023 and 2024 compensation years and are described in the 2023 and 2024 Compensation Reports. The last tranche was paid out in the reporting year. The contract concluded with Dr. Kirsten states that he has to pay the sign-on bonus back on a pro rata basis if his appointment ends prematurely before the end of his initial appointment period (April 30, 2026) for reasons that he is responsible for (e.g. appointment revoked due to gross breach of duty, resignation for other reasons).

Transitional LTI arrangement for Dr. Kirsten

A transitional arrangement for variable compensation had to be agreed for Dr. Kirsten, who was appointed to the Executive Board for the first time in the 2023 reporting year, because he was not yet a member of the Executive Board in 2021 and 2022, or in the first half of 2023, periods that are included in the LTI calculation for the 2023, 2024 and 2025 compensation years: A hypothetical target achievement of 100 percent was agreed for 2021 and 2022, and a target achievement of at least 100 percent was agreed for 2023 – as such, the compensation year 2023 was included in his LTI calculation for the reporting year at a rate of 100 percent. The 2024 fiscal year and the reporting year were included based on the bonus percentage that was actually achieved (65 percent and 49 percent respectively).

2. Target achievement and determination of the bonus percentage for 2025

2.1 STI target achievement and determination of the bonus percentage for 2025

At its meeting held on February 27, 2025, the Supervisory Board set the following target corridors and weightings for each of the relevant performance categories of the 2025 short-term incentive (STI):

Weighting	Measure	Unit of measurement	Minimum value	Target value	Maximum value
30%	ROCE target	%	0	4.9	20
30%	Planned BVC	in EUR million	-518	-268	-18
20%	Target EBITDA margin	%	8.3	12	20
20%	Planned op. NCF	in EUR million	-111	139	389

The target corridors for operating net cash flow (operating NCF) and the business value contribution (BVC) support the corporate goal of increasing cash inflow from operating activities. The aim of BVC at WACKER is to generate a residual profit that exceeds the cost of capital, thereby creating value within the company. Planned NCF is defined as the sum of cash flow from operating activities and long-term investing activities before securities. Operating net cash flow is a simplified cash flow calculation depicting only selected operating transactions. Net cash flow shows whether we can finance ongoing operations and necessary investments with the funds from our own operating activities. The company's goal is to generate a sustained positive net cash flow.

The two measures of strategic performance, the EBITDA margin and return on capital employed (ROCE), are important criteria for achieving the specific strategic goals of growing faster than the chemical-sector average, achieving attractive margins with products, and earning the cost of capital. ROCE (earnings before interest and taxes divided by capital employed) is an indicator of how profitably the capital required for business operations is being employed. The target EBITDA margin performance category shows how successful the company is compared with the competition and provides incentives for enhancing that relative performance even further.

In 2025, the values set out in the table below were achieved, from which the individual target achievement factors and – based on the aggregation and weighting of the individual components – the overall target achievement factors presented have been derived:

The Supervisory Board made use of the option available to it as part of the compensation system to take appropriate account of exceptional developments: the actual ROCE and EBITDA margin values were corrected to reflect the restructuring expenses of €102.6 million reported in the Annual Report. These expenses constitute non-recurring effects of limited scope that are not related to operations and were neither known, nor could be predicted, at the time the target was set. The fact that the restructuring provisions were already set up in 2025 should not result in any unjustified disadvantages for Executive Board members.

At the same time, a downward correction of €30 million was made to actual EBITDA – and, as a result, also to the actual EBITDA margin – to reflect the fact that the income from the equity investment in Siltronic AG was reclassified from EBITDA to the financial result in the course of the year. The original target planning had included the pro rata net income of Siltronic AG for the year in EBITDA in the amount of €-30 million. The downward correction to actual EBITDA neutralized the change in accounting for the purposes of calculating variable compensation. This means that actual EBITDA was calculated as if the pro rata net income of Siltronic AG had still been included in EBITDA in the amount of €-30 million, as the target had planned. This prevents the reclassification of the income from the equity investment in Siltronic AG, which had not been predicted at the time the target was set, giving rise to an unjustified advantage for the Executive Board members.

The adjustments referred to above change the ROCE value by +1.8 percent and the EBITDA margin by +1.3 percent.

Measure	Unit of measurement	Actual values, 2025	Target achievement factor
ROCE target	%	**-1.31**	**0.00**
Planned BVC	in EUR million	**-534.1**	**0.00**
Target EBITDA margin	%	**9.1**	**0.23**
Planned op. NCF	in EUR million	**261.3**	**1.49**
Overall target achievement factor			**0.34**

The overall target achievement factor produces a bonus percentage of 27 percent for 2025 based on the STI corridor of 0 percent to 144 percent.

Multiplied by the relevant basic annual salary, this then results in the gross amount paid out under the STI as shown in the table under A. II. 1.

2.2 LTI target achievement and determination of the bonus percentage for 2025

At its meeting held on February 27, 2025, the Supervisory Board set the following target corridors and weightings for each of the relevant performance categories of the 2025 long-term incentive (LTI):

Weighting	Measure	Unit of measurement	Minimum value	Target value	Maximum value
25%	ROCE target	%	0	4.9	20
25%	Planned BVC	in EUR million	-518	-268	-18
20%	Target EBITDA margin	%	8.3	12	20
20%	Planned op. NCF	in EUR million	-111	139	389
5%	Reduction of CO_2 emissions vs. 2020	%	30	35	40
5%	Relevant incidents (WPSIR)	Frequency	>1.51	1.25 – 0.75	≤ 0.49

In terms of the financial performance criteria, i.e. the target ROCE, planned BVC, the target EBITDA margin and planned NCF, the incentives to promote the business strategy described above for the STI also apply here. The Supervisory Board selected CO_2 emissions and the frequency of safety/environment-related incidents as the non-financial performance criteria. Both are particularly important elements of the company's strategy. Sustainability is a strategic corporate goal and a key part of WACKER's business model. WACKER is part of the UN's "Race to Zero" climate initiative and is aiming to achieve a net zero carbon footprint by 2045. Reducing absolute CO_2 emissions will play a decisive role in this quest. WACKER is aiming to have halved its CO_2 emissions (Scope 1 and 2) by 2030 against the 2020 baseline. Safety is also a top priority for WACKER, which is why the company's strategy includes improving process safety management by systematically monitoring the number of safety/environment-related incidents per one million hours worked (WACKER Process Safety Incident Rate, WPSIR).

In 2025, the values set out in the table below were achieved, from which the individual target achievement factors and – based on the aggregation and weighting of the individual components – the overall target achievement factors presented have been derived: The principles for calculating the actual ROCE and EBITDA margin values described under II.2.1 apply accordingly.

Measure	Unit of measurement	Actual values, 2025	Target achievement factor
ROCE target	%	**-1.31**	**0.00**
Planned BVC	in EUR million	**-534.1**	**0.00**
Target EBITDA margin	%	**9.1**	**0.23**
Planned op. NCF	in EUR million	**261.3**	**1.49**
Reduction of CO_2 emissions	%	**43.4**	**2.00**
Relevant incidents	WPSIR	**1.0**	**1.00**
Overall target achievement factor			**0.49**

This overall target achievement factor was then converted into the bonus percentage for the 2025 fiscal year based on the LTI corridor of 0 percent to 180 percent (see table below). As the calculated bonus under the LTI is based on the average bonus percentages for the current compensation year and the two preceding compensation years, the individual bonus percentages for the 2023 and 2024 compensation years were included, producing the following bonus percentages to be applied for the reporting year.

Executive Board member	Bonus percentage for 2023	Bonus percentage for 2024	Bonus percentage for 2025	Bonus percentage to be applied for the reporting year
Dr. Christian Hartel	59%	65%	49%	58%
Dr. Tobias Ohler	59%	65%	49%	58%
Angela Wörl	47%	61%	49%	52%
Dr. Christian Kirsten	100%	65%	49%	71%

To arrive at the calculated bonus, this average bonus percentage was then multiplied by the average annual base salary in the reporting year.

In Dr. Kirsten's case, the contractual agreement regarding the minimum target achievement level for 2023 also applied (see above under A. II. 1). In Ms. Wörl's case, the change in the target/maximum percentages for the LTI during the year was taken into account *pro rata temporis* in 2024 by creating a pro rata weighted bonus percentage.

By way of a resolution passed on March 4, 2026, the Supervisory Board did not make use of the option to increase or reduce the calculated bonus by 30 percent for the 2025 reporting year, taking into account all circumstances, based on the Executive Board's performance and the achievement of sustainability and strategic targets.

This resulted in the individual virtual gross payout amounts shown in the table under A. II. 1. The amount of the calculated net payout is determined individually for each Executive Board member, depending on that member's personal tax situation, and must be invested in company stock by each Executive Board member. Any resulting fractions of shares are paid out in cash. The number of shares is governed by the Xetra closing price of WACKER shares on the first exchange trading day after the date of the 2026 Annual Shareholders' Meeting. Accordingly, the number of shares to be acquired by the Executive Board members under the 2025 LTI has not yet been determined. It will be stated in the compensation report for 2026.

In May 2025, the members of the Executive Board acquired the following shares as part of the LTI for the 2024 compensation year:

Executive Board member	Number of shares acquired	Vesting period
Dr. Christian Hartel	5,614	8. Mai 2028
Dr. Tobias Ohler	4,100	8. Mai 2028
Angela Wörl	2,728	8. Mai 2028
Dr. Christian Kirsten	4,280	8. Mai 2028

The table below provides an overview of the shares acquired by the Executive Board member since 2022 in the context of the LTI. The shares acquired are subject to a three-year holding period from the time of purchase.

	2022 (Acquisition on May 24, 2022)		2023 (Acquisition on May 19, 2023)		2024 (Acquisition on May 10, 2024)		2025 (Acquisition on May 09, 2025)	
	Number of shares acquired	€	Number of shares acquired	€	Number of shares acquired	€	Number of shares acquired	€
Dr. Christian Hartel	2,097	337,302	4,043	513,865	3,936	396,158	5,614	368,840
Dr. Tobias Ohler	1,732	278,592	3,063	389,307	2,961	298,024	4,100	269,370
Angela Wörl (from May 12, 2021)	591	95,062	1,658	210,731	1,571	158,121	2,728	179,230
Dr. Christian Kirsten (from May 1, 2023)	–	–	–	–	2,116	212,975	4,280	281,196
Auguste Willems (until April 30, 2023)	1,859	299,020	3,289	418,031	1,081	108,802	–	–
Dr. Rudolf Staudigl (until May 12, 2021)	912	146,695	–	–	–	–	–	–

3. Compliance with maximum compensation limits (Section 162 (1) sentence 2 no. 7 of the German Stock Corporation Act)

There is a limit (maximum compensation) for the total compensation to be granted to members of the Executive Board for a specific year (the sum total of all compensation amounts spent for that year, including annual base salary, variable compensation components (STI and LTI), pension expenses (service cost) and all additional benefits, including other benefits) – irrespective of whether they are paid out in that year or at a later date. The maximum compensation for the Chairman of the Executive Board amounts to €5,000,000 gross; for each of the ordinary members of the Executive Board, it amounts to €3,800,000 gross. As the following table shows, the maximum compensation limits were complied with in 2025.

Maximum Compensation Limits

Active Executive Board members	Year	Compensation granted and owed	Pension expenses	Total compensation to be granted for the fiscal year	Maximum compensation (per year) as defined
President & CEO					
Dr. Christian Hartel	**2025**	**€1,652,822**	**€274,187**	**€1,927,009**	**€5,000,000**
	2024	€2,038,246	€274,199	€2,312,445	€5,000,000
Executive Board members					
Dr. Tobias Ohler	**2025**	**€1,341,494**	**€183,112**	**€1,524,606**	**€3,800,000**
	2024	€1,643,023	€183,117	€1,826,140	€3,800,000
Angela Wörl	**2025**	**€1,131,071**	**€184,887**	**€1,315,958**	**€3,800,000**
	2024	€1,191,151	€166,508	€1,357,659	€3,800,000
Dr. Christian Kirsten	**2025**	**€1,636,761**	**€194,949**	**€1,831,710**	**€3,800,000**
	2024	€1,839,633	€195,769	€2,035,402	€3,800,000

4. Regular termination benefits (Section 162 (2) no. 3 of the German Stock Corporation Act)

Departing members of the Executive Board are entitled to receive a company pension after they leave, for which service cost is incurred annually:

Pension expenses (service cost) for active Executive Board members in 2025

	2024	2025
President & CEO		
Dr. Christian Hartel	€274,199	€274,187
Executive Board members		
Dr. Tobias Ohler	€183,117	€183,112
Angela Wörl	€166,508	€184,887
Dr. Christian Kirsten	€195,769	€194,949

The service cost shown for Dr. Hartel, Dr. Ohler and Mr. Wörl includes the company's contributions to the basic pension provided by Pensionskasse der Wacker Chemie VVaG.

The present values of the defined benefit obligations are shown in the table below:

Pension Provisions for Active Executive Board Members in 2025 (Determined in Accordance with IFRS Rules)

	2024	2025
Active Executive Board members		
Dr. Christian Hartel	€4,050,883	€4,088,504
Dr. Tobias Ohler	€6,512,825	€6,172,830
Angela Wörl	€2,078,858	€2,153,470
Dr. Christian Kirsten	€353,466	€559,706

The pension provisions comprise the following:

Dr. Hartel: Annual pension of €152,250 (gross) based on the defined benefit commitment that applied up until the end of 2020, as well as annual contributions corresponding to 30 percent of the basic annual salary based on the defined benefit commitment that has applied since 2021.

Dr. Ohler: Annual pension of €261,000 (gross) based on the defined benefit commitment that applied up until the end of 2020, as well as annual contributions corresponding to 25 percent of the basic annual salary based on the defined benefit commitment that has applied since 2021.

Ms. Wörl and Dr. Kirsten: Annual contributions corresponding to 30 percent of the basic annual salary.

As described in greater detail in the information on the compensation system, the pension plan for Executive Board members was switched from a defined benefit to a defined contribution plan with effect from January 1, 2021. Since then, the company has provided each Executive Board member with an annual pension contribution amount corresponding to 30 percent (Dr. Ohler: 25 percent) of their basic annual salary. This amount is paid into a group CTA (contractual trust arrangement) in twelve equal monthly installments and invested on the capital market, with no guarantee of surpluses. When it is paid out, the pension account balance will amount to at least the total of the contributions paid in (excluding any adjustments for inflation). When a pension event occurs, the pension account balance can be paid out in one lump sum or in ten installments. If the pension account balance is paid out in installments, the nominal contribution guarantee applies to the first installment only.

Transitional regulations were agreed for those Executive Board members who were active at the time of the switch: Dr. Hartel and Dr. Ohler continue to keep their entitlements earned as of December 31, 2020 (derived from the value of plan assets) under the contract terms then applicable. Since January 1, 2021, they have received an additional defined contribution pension as described previously, with annual contributions amounting to 30 percent (Dr. Hartel) and 25 percent (Dr. Ohler), respectively, of their base salary. The annual contributions were set taking into account the respective existing entitlements under the previous benefit plan.

The annual pension amounts under the old defined benefit plan for Dr. Hartel and Dr. Ohler were fixed at € 152,250 gross for Dr. Hartel and at € 261,000 gross for Dr. Ohler at the close of 2020, when pension commitments were switched to a defined contribution plan effective from the beginning of 2021. These entitlements are vested. They will not accumulate any further, and they will not be adjusted for price increases before being paid out.

In the case of Ms. Wörl, Dr. Hartel and Dr. Ohler, these provisions also cover periods of service at the company prior to appointment to the Executive Board, as well as employee contributions to their company pensions (including deferred compensation for Ms. Wörl and Dr. Ohler). Any ongoing deferred compensation agreements with members of the Executive Board were terminated effective December 31, 2020. The entitlements acquired in the past by Ms. Wörl and Dr. Ohler, however, remain in effect.

5. Compensation of former Executive Board members in 2025

The table below shows the compensation granted and owed in 2025 pursuant to Section 162 of the German Stock Corporation Act to each of the former Executive Board members who left the Executive Board over the last ten fiscal years. The compensation granted and owed in 2025 to those Executive Board members who had already left the Executive Board more than ten years ago is shown as an aggregate figure. These relate exclusively to fixed compensation components (pension, where appropriate competitive-restriction compensation).

Compensation of former Executive Board members in 2025 (€):

	2024	2025
Former Executive Board members (≤ 10 years)		
Auguste Willems (departed April 30, 2023)[1]	€517,937	€351,641
Dr. Rudolf Staudigl (departed May 12, 2021)[2]	€864,161	€874,441
Dr. Joachim Rauhut (departed October 31, 2015)[3]	€199,971	€200,445
Former Executive Board members and managing directors and their surviving dependents (> 10 years)	€1,818,636	€2,041,150

[1] 2024: €282,922 of this amount relates to the competitive-restriction compensation and €235,015 to the pension, incl. the basic pension.
2025: Pension incl. the basic pension.

[2] 2024: Of this amount, €296,584 is attributable to the partial payment of deferred compensation and €567,577 to the pension, incl. the basic pension.
2025: Of this amount, €296,584 is attributable to the partial payment of deferred compensation and €577,857 to the pension, incl. the basic pension.

[3] 2024 & 2025: Pension incl. the basic pension.

B. Compensation of the Supervisory Board

I. Ratification by Shareholders of the Compensation Provisions and Compensation System for the Supervisory Board

The Annual Shareholders' Meeting determines Supervisory Board compensation, by way of a shareholder resolution or by amending the Articles of Association, on the basis of a proposal by the Executive and Supervisory Boards.

The rules on compensation for members of the Supervisory Board applicable for 2025 were adopted by the 2022 Annual Shareholders' Meeting effective from January 1, 2022, and ratified by a majority of 99.48 percent of the vote and are stipulated in Section 12 of WACKER's Articles of Association.

A complete description of the compensation system for the Supervisory Board can be found on the company's website.

» https://www.wacker.com/cms/de-de/about-wacker/investor-relations/corporate-governance/compensation-system-supervisory-board.html

II. Supervisory Board Compensation Components in 2025 at a Glance

Objective and relevance to corporate strategy

Compensation for members of the Supervisory Board takes account of their responsibility and remit. It promotes the business strategy and long-term development of the Company in that the nature of compensation is tailored to market needs, thereby making it possible to gain highly qualified individuals as members of the Supervisory Board.

Structure

Compensation for members of the Supervisory Board is set out in Section 12 of the company's Articles of Association.

The compensation of the Supervisory Board is entirely fixed in nature: no variable compensation components are provided for. The Articles of Association define fixed annual compensation for Supervisory Board members as €100,000. Owing to the additional time and effort involved in performing certain duties and in view of Recommendation G.17 of the German Corporate Governance Code, compensation for the Supervisory Board Chairman is multiplied by a factor of 3. A factor of 2 is applied to the Chairman's deputy and to committee chairs, while compensation for committee members is multiplied by a factor of 1.5. Where a person serves in more than one function, his/her additional functions shall not be taken into account, which means that the chairman and his/her deputy shall not be entitled to additional factors if they serve on multiple committees. In instances where members of the Supervisory Board serve on multiple committees, their service shall only be taken into account once.

Supervisory Board members who join, or depart from, the Supervisory Board during a particular year receive prorated compensation.

The Company shall reimburse the members of the Supervisory Board for their necessary expenses in the form of a flat fee of €25,000. The annual compensation and the flat reimbursement amount for expenses are paid in January of the subsequent year.

The Company provides the members of the Supervisory Board with appropriate insurance coverage in the form of D&O insurance with no deductible.

Supervisory Board compensation for employee representatives is subject to the rules of the German Trade Union Confederation (DGB) or of the Association of Employed Academics and Executives in the Chemical Industry (VAA) concerning the transfer of supervisory board compensation.

III. Compensation of individual Supervisory Board members appointed in the 2025 reporting year

In accordance with Section 162 (1) sentence 1 and Section 162 (1) sentence 2 no. 1 of the German Stock Corporation Act, all compensation components "granted and owed" to each member of the Supervisory Board in 2025 must be disclosed in the Compensation Report. In line with the information set out in section A. II. 1, we apply the vesting principle here, too. As a result, the table below shows the fixed compensation and reimbursement amount for expenses that the Supervisory Board members are entitled to for their activities in the reporting year, even if these amounts are not paid out until the year following the reporting year.

Compensation "Granted and owed" (Section 162 (1) sentence 1 of the German Stock Corporation Act) to active members of the Supervisory Board

Supervisory Board members	Year	Fixed compensation	Flat reimbursement amount for expenses	Variable components	Total compensation	Share of fixed compensation relative to total compensation	Share of variable compensation relative to total compensation

	2024	€200,000	€25,000	–	€225,000	100%	0%

Supervisory Board members	Year	Fixed compensation	Flat reimbursement amount for expenses	Variable components	Total compensation	Share of fixed compensation relative to total compensation	Share of variable compensation relative to total compensation
Dr. Susanne Weiss	**2025**	**€100,000**	**€25,000**	**–**	**€125,000**	**100%**	**0%**
	2024	€100,000	€25,000	–	€125,000	100%	0%
Günter Zellner (since October 7, 2024)	**2025**	**€100,000**	**€25,000**	**–**	**€125,000**	**100%**	**0%**
	2024	€23,497	€5,874	–	€29,371	100%	0%

In 2025, no compensation was granted or owed (pursuant to Section 162 (1) sentence 1, sentence 2, no. 1 of the German Stock Corporation Act) to any former Supervisory Board member who left the Supervisory Board before the 2025 reporting year (with the exception of the fixed compensation, including the reimbursement for expenses, for the 2024 compensation year, which was not paid out until January 2025).

C. Comparative presentation (Section 162 (1) sentence 2 no. 2 of the German Stock Corporation Act)

The following table shows a comparison of the year-over-year change (from the respective previous year to the following reporting year) in the compensation of the members of the Executive and Supervisory Boards, in the company's earnings and in the average compensation of employees (expressed as full-time equivalents).

Comparative presentation of year-over-year change in compensation of Executive and Supervisory Board members, earnings and average full-time-equivalent employee compensation

Compensation of Executive and Supervisory Board members	From 2020 to 2021	From 2021 to 2022	From 2022 to 2023	From 2023 to 2024	From 2024 to 2025
Active Executive Board members					
Dr. Christian Hartel (President & CEO from May 2021)	58%	77%	-24%	10%	-19%
Dr. Tobias Ohler (from January 2013)	40%	12%	-23%	7%	-18%
Angela Wörl (from May 2021)	–	76%	-23%	36%	-5%
Dr. Christian Kirsten (from May 2023)	–	–	–	15%	-11%

Barbara Kraller (since April 2017)	0%	14%	40%	0%	0%
Dr. Benedikt Postberg (since May 2023)	–	–	–	59%	0%
Harald Sikorski (since October 2023)	–	–	–	297%	0%
Reinhard Spateneder (since January 2023)	–	–	–	0%	0%
Ann-Sophie Wacker (since May 2018)	0%	14%	0%	0%	0%
Prof. Anna Weber (since May 2022)	–	–	62%	0%	0%
Dr. Susanne Weiss (since May 2008)	0%	14%	0%	0%	0%
Günter Zellner (since October 2024)	–	–	–	–	326%
Earnings					
Net income of Wacker Chemie AG (HGB)	726%	9%	-91%	-59%	-1700%
EBIT of the WACKER Group (IFRS)	332%	48%	-76%	-28%	-162%[1]
Average employee compensation	14%	7%	-15%	6%	-4%

[1] The result from investments was reclassified to the financial result in the 2025 fiscal year, meaning that it is no longer part of EBIT from 2025 onwards. Details can be found under "Changes in accounting policies" in the notes to the consolidated financial statements.

The disclosures for former Executive Board members include one-time capital payouts of deferred compensation.

The change in earnings presented reflects the change in the net result for the year of Wacker Chemie AG in accordance with Section 275 (2) no. 17 of the German Commercial Code (HGB). Because the compensation of members of the Executive Board depends largely on the development of Group performance indicators, the change in EBIT reported in the consolidated financial statements of the WACKER Group is also shown.

The change in average employee compensation is determined based on the average compensation of the workforce of Wacker Chemie AG. Because the employee and compensation structures vary across the subsidiaries, only the workforce of Wacker Chemie AG in Germany is considered for comparison here. The comparison includes the compensation of all employees, including those who are management employees (“leitende Angestellte”) as defined in Section 5 (3) of the Works Constitution Act (BetrVG) governing industrial relations in Germany. In the case of employees who simultaneously receive compensation as members of the Supervisory Board of Wacker Chemie AG, such compensation is excluded. To ensure comparability, the compensation of part-time workers is converted into full-time equivalents.

Munich, March 4, 2026

The Executive Board
of Wacker Chemie AG

The Supervisory Board
of Wacker Chemie AG

Report of the independent auditor on the formal audit of the remuneration report pursuant to § 162 Abs. 3 AktG

To Wacker Chemie AG, Munich

Opinion

We have formally audited the remuneration report of the Wacker Chemie AG, Munich, for the financial year from January 1 to December 31, 2025, to determine whether the disclosures pursuant to § [Article] 162 Abs. [paragraphs] 1 and 2 AktG [Aktiengesetz: German Stock Corporation Act] have been made in the remuneration report. In accordance with § 162 Abs. 3 AktG, we have not audited the content of the remuneration report.

In our opinion, the information required by § 162 Abs. 1 and 2 AktG has been disclosed in all material respects in the accompanying remuneration report. Our opinion does not cover the content of the remuneration report.

Basis for the opinion

We conducted our formal audit of the remuneration report in accordance with § 162 Abs. 3 AktG and IDW [Institut der Wirtschaftsprüfer: Institute of Public Auditors in Germany] Auditing Standard: The formal audit of the remuneration report in accordance with § 162 Abs. 3 AktG (IDW AuS 870 (09.2023)). Our responsibility under that provision and that standard is further described in the “Auditor's Responsibilities” section of our auditor’s report. As an audit firm, we have complied with the requirements of the IDW Quality Management Standard: Requirements to quality management for audit firms [IDW Qualitätsmanagementstandard - IDW QMS 1 (09.2022)]. We have complied with the professional duties pursuant to the Professional Code for German Public Auditors and German Chartered Auditors [Berufssatzung für Wirtschaftsprüfer und vereidigte Buchprüfer - BS WP/vBP], including the requirements for independence.

Responsibility of the Management Board and the Supervisory Board

The management board and the supervisory board are responsible for the preparation of the remuneration report, including the related disclosures, that complies with the requirements of § 162 AktG. They are also responsible for such internal control as they determine is necessary to enable the preparation of a remuneration report, including the related disclosures, that is free from material misstatement, whether due to fraud (i.e., fraudulent financial reporting and misappropriation of assets) or error.

Auditor’s Responsibilities

Our objective is to obtain reasonable assurance about whether the information required by § 162 Abs. 1 and 2 AktG has been disclosed in all material respects in the remuneration report and to express an opinion thereon in an auditor's report.

We planned and performed our audit to determine, through comparison of the disclosures made in the remuneration report with the disclosures required by § 162 Abs. 1 and 2 AktG, the formal completeness of the remuneration report . In accordance with § 162 Abs 3 AktG, we have not audited the accuracy of the disclosures, the completeness of the content of the individual disclosures, or the appropriate presentation of the remuneration report.
