3.05 Consolidated cash flow statement

# Notes

## General information

As one of the world's leading chemical distributors, Brenntag offers its customers and suppliers an extensive range of services, global supply chain management and a chemical distribution network in EMEA, North and Latin America as well as in Asia Pacific.

Brenntag SE has its registered office at Messeallee 11, 45131 Essen, Germany, and is entered in the commercial register at the Essen Local Court under commercial register number HRB 31943.

These consolidated financial statements of Brenntag SE were prepared by the Board of Management of Brenntag SE on March 5, 2026, authorized for publication and submitted to the Supervisory Board for approval at its meeting on March 10, 2026.

The consolidated financial statements of Brenntag SE are denominated in euros (EUR). Unless stated otherwise, the amounts are in millions of euros (EUR million). For arithmetic reasons, rounding differences of ± one unit after the decimal point (EUR, %, etc.) may occur.

## Consolidation policies and methods

### Standards applied

The consolidated financial statements have been prepared in accordance with IFRS® Accounting Standards, as adopted in the EU.

The IFRS Accounting Standards comprise the standards (International Financial Reporting Standards and International Accounting Standards) issued by the International Accounting Standards Board (IASB) and the IFRS® Interpretations by the IFRS Interpretations Committee (IFRS IC) and the former Standing Interpretations Committee (SIC).

The accounting policies applied comply with all the standards and interpretations existing and adopted by the EU as at December 31, 2025 whose application is mandatory. In addition, the German commercial law provisions to be applied in accordance with Section 315e, para. 1 of the German Commercial Code (HGB) were taken into account.

The following revised standard issued by the International Accounting Standards Board (IASB) has been applied by the Brenntag Group for the first time:

First-time adoption in 2025

- Amendments to IAS 21: Lack of Exchangeability

The amendments to IAS 21 issued by the IASB specify whether a currency is exchangeable or not, and set out how an entity determines the exchange rate to be applied when a currency is not exchangeable. Moreover, IAS 21 is extended to include a provision requiring the disclosure of additional information when a currency is not exchangeable.

The aforementioned revised standard does not have a material impact on the presentation of the Group's net assets, financial position and results of operations.

First-time adoption in 2026

- Amendments to IFRS 9 and IFRS 7: Classification and Measurement of Financial Instruments

The amendments clarify that a financial liability is generally derecognized on the settlement date. If the liability is settled using an electronic payment system, it may in certain circumstances be derecognized before the settlement date.

In addition, the application guidance on how an entity assesses the contractual cash flow characteristics criterion in determining the measurement categories of financial assets has been extended, and further disclosures have been introduced for financial instruments with contingent cash flows and equity instruments measured at fair value through other comprehensive income.

- Amendments to IFRS 9 and IFRS 7: Contracts Referencing Nature-dependent Electricity

The changes affect the following:

Own use exemption: The exemption will be extended for contracts for the physical delivery of nature-dependent electricity, provided certain conditions are met, particularly in relation to sales of unused electricity.

Hedge accounting: It will also be possible to include variable volumes of expected purchases and sales of nature-dependent electricity in the hedged item, provided certain conditions are met.

Disclosures: Extended disclosure requirements are provided for contracts within the scope of these amendments.

- Annual Improvements to IFRSs Volume 11

The annual improvements to IFRSs contain a number of minor amendments to various standards that are intended to clarify the content of the standards and eliminate any existing inconsistencies.

First-time adoption in 2027

- IFRS 18: Presentation and Disclosure in Financial Statements

IFRS 18 replaces IAS 1, the standard required to be applied thus far, and amends IAS 7. The objective in developing IFRS 18 was to improve the reporting on an entity's financial performance with a focus on the income statement. The main changes include the introduction of predefined subtotals (operating profit and profit before financing and income taxes) and the classification of income and expenses in the income statement (operating, investing and financing categories). In addition, in the notes to the financial statements, IFRS 18 will require an entity to disclose information about management-defined performance measures and provide reconciliations to the most directly comparable subtotal in accordance with IFRSs. IFRS 18 also sets out principles for aggregating and disaggregating items.

The amendments to IAS 7 that accompany IFRS 18 introduce operating profit as the mandatory starting point for the cash flow statement when cash flows from operating activities are presented using the indirect method.

- IFRS 19: Subsidiaries without Public Accountability: Disclosures and Amendments to IFRS 19

IFRS 19 enables subsidiaries without public accountability to apply the full IFRSs, but with reduced disclosure requirements.

- IAS 21: The Effects of Changes in Foreign Exchange Rates regarding translation to a hyperinflationary presentation currency

The amendments to IAS 21 require a non-hyperinflationary functional currency to be translated into a hyperinflationary presentation currency using the exchange rate at the end of the current reporting period. The standard amendments also contain additional disclosure requirements and rules on currency translation once an economy ceases to be hyperinflationary.

Brenntag is currently examining the effects of the amended standards on the presentation of the net assets, financial position and results of operations. Based on the current status of analysis, the application of IFRS 18 is expected to affect the structure of the consolidated income statement in particular, with the Group's comprehensive income remaining unchanged. No specified main business activities were identified within the Brenntag Group, as a result of which the IFRS 18 requirements in this regard will not be applied if circumstances remain unchanged at the date when IFRS 18 becomes effective.

IFRS 18 will also affect the consolidated cash flow statement. The newly introduced "operating profit" subtotal in the income statement will in future provide the starting point for calculating cash flows from operating activities under the indirect method, rather than the profit after tax subtotal used thus far. In addition, the removal of presentation alternatives will result in the following changes in the Brenntag Group's cash flow statement: Interest and dividends received will in future be presented within cash flows from investing activities, and interest paid within cash flows from financing activities. These items are currently presented within cash flows from operating activities.

The effects of the additional disclosure requirements for management-defined performance measures and the provisions governing the aggregation and disaggregation of information contained in the consolidated financial statements are also being examined.

From a present perspective, the standard amendments outlined further above do not have a material impact on the presentation of the Group's net assets, financial position and results of operations.

## Scope of consolidation

As at December 31, 2025, the consolidated financial statements include Brenntag SE and in addition 26 (Dec. 31, 2024: 25) domestic and 209 (Dec. 31, 2024: 216) foreign consolidated subsidiaries including structured entities.

The table below shows the changes in the number of consolidated companies including structured entities:

| | Dec. 31, 2024 | Additions | Disposals | Dec. 31, 2025 |
|---|---|---|---|---|
| Domestic consolidated companies | 26 | 1 | – | 27 |
| Foreign consolidated companies | 216 | 3 | 10 | 209 |
| **Total consolidated companies** | **242** | **4** | **10** | **236** |

3.06 Changes in scope of consolidation

The additions relate to entities acquired in business combinations under IFRS 3. The disposals are the result of mergers of companies no longer operating, liquidations and sales.

Four (Dec. 31, 2024: four) associates are accounted for using the equity method.

A full list of shareholdings for the Brenntag Group in accordance with Section 313, para. 2 of the German Commercial Code (HGB) can be found in the Annex to the Notes.

In the case of two (Dec. 31, 2024: two) subsidiaries where Brenntag does not hold the majority of the voting rights, it nevertheless exercises its power to direct the relevant activities. The structured entities individually listed in the list of shareholdings in accordance with Section 313, para. 2 of the German Commercial Code (HGB) are a leasing company and a sales company.

In financial year 2022, the Board of Management of Brenntag SE decided to halt the business operations of all Brenntag companies in Russia and Belarus until further notice due to the war in Ukraine. As at December 31, 2025, Brenntag still reported cash and cash equivalents of EUR 6.1 million in Russia (of which EUR 0.3 million in rubles and EUR 5.8 million in U.S. dollars) which were only available to Brenntag for cross-border transfers subject to the applicable restrictions on foreign exchange transactions. As at December 31, 2024, the cash and cash equivalents of the Brenntag companies in Russia amounted to EUR 7.3 million.

## Business combinations in accordance with IFRS 3

In November 2025, Brenntag acquired 100% of the shares in Chem Tech Services, Inc., based in Levelland, Texas, U.S. The company provides professional oilfield chemical solutions in Texas and New Mexico. Chem Tech's expertise and network are intended to add to Brenntag's energy services business in North America and strengthen its market presence in the region, which is critical to global energy supply.

In addition, Brenntag made the following smaller acquisitions:

At the beginning of June, Brenntag acquired all shares in mcePharma a.s. headquartered in Bílovec, Czech Republic, and a subsidiary. The acquisition and additional investments in mcePharma's site will strengthen Brenntag's capabilities across the entire pharmaceutical and biopharmaceutical value chain.

At the end of June, all shares were acquired in Gefahrstoffzentrum (GSZ) Kaiserslautern GmbH, Kaiserslautern, Germany, thereby significantly expanding Brenntag's mixing and blending capacity in Germany.

The purchase price, net assets and goodwill relating to these business combinations break down as follows:

| in EUR m | Chem Tech | Other entities | **Total** |
|---|---|---|---|
| **Purchase price** | **77.9** | **20.5** | **98.4** |
| of which consideration contingent on earnings targets | – | – | – |
| **Assets** | | | |
| Cash and cash equivalents | 2.1 | – | 2.1 |
| Trade receivables, other financial assets and other receivables | 10.2 | 1.5 | 11.7 |
| Other current assets | 7.1 | 1.3 | 8.4 |
| Non-current assets | 6.9 | 13.9 | 20.8 |
| **Liabilities** | | | |
| Current liabilities | 9.4 | 0.9 | 10.3 |
| Non-current liabilities | 4.1 | 10.3 | 14.4 |
| **Net assets** | **12.8** | **5.5** | **18.3** |
| of which Brenntag's share | 12.8 | 5.5 | 18.3 |
| of which non-controlling interests | – | – | – |
| **Goodwill** | **65.1** | **15.0** | **80.1** |
| of which deductible for tax purposes | – | – | – |

3.07 Net assets acquired in 2025

Assets acquired and liabilities assumed in business combinations are normally recognized at their fair value at the date of acquisition. The multi-period excess earnings method was used to measure customer relationships. In particular, the estimate of the useful lives of customer relationships can affect their fair value.

For reasons of time, measurement of the assets acquired and liabilities assumed (among others customer relationships and deferred taxes) of the entities acquired in financial year 2025 has not yet been completed. There are no material differences between the gross amount and the carrying amount of the receivables. The main factors determining the goodwill are the above-mentioned reasons for the acquisitions where not included in other assets (e.g. customer relationships and similar rights).

Acquisition-related costs in the amount of EUR 1.8 million were recognized under other operating expenses.

Since their acquisition by Brenntag, the business units acquired in financial year 2025 have generated the following sales and the following loss after tax:

| in EUR m | Chem Tech | Other entities | **2025** |
|---|---|---|---|
| Sales | 7.0 | 4.4 | 11.4 |
| Loss after tax | - 1.1 | -1.1 | -2.2 |

3.08 Sales and loss after tax of the businesses acquired since acquisition

If the above-mentioned business combinations had taken place with effect from January 1, 2025, sales of about EUR 15,250 million would have been reported for the Brenntag Group in the reporting period. Profit after tax would have been about EUR 269 million.

Measurement of the assets and liabilities from the acquisition in financial year 2024 of the Solventis Group based in Antwerp, Belgium, and other locations in the UK has been completed.

The purchase price, net assets acquired and goodwill were adjusted as follows in the measurement period:

| in EUR m | Provisional fair value | Adjustments | **Final fair value** |
|---|---|---|---|
| **Purchase price** | **224.0** | **–** | **224.0** |
| of which consideration contingent on earnings targets | – | – | – |
| **Assets** | | | |
| Cash and cash equivalents | 37.1 | – | 37.1 |
| Trade receivables, other financial assets and other receivables | 36.2 | – | 36.2 |
| Other current assets | 37.1 | 3.0 | 40.1 |
| Non-current assets | 160.2 | –6.7 | 153.5 |
| **Liabilities** | | | |
| Current liabilities | 31.9 | – | 31.9 |
| Non-current liabilities | 85.4 | –1.5 | 83.9 |
| **Net assets** | **153.3** | **–2.2** | **151.1** |
| of which Brenntag's share | 153.3 | –2.2 | 151.1 |
| of which non-controlling interests | – | – | – |
| **Goodwill** | **70.7** | **2.2** | **72.9** |
| of which deductible for tax purposes | – | – | – |

3.09 Net assets acquired in 2024: Solventis Group

Measurement of the assets and liabilities from the acquisition in financial year 2024 of Química Delta based in Teoloyucan, Mexico, has been completed.

The purchase price, net assets acquired and goodwill were adjusted as follows in the measurement period:

| in EUR m | Provisional fair value | Adjustments | **Final fair value** |
|---|---|---|---|
| **Purchase price** | **216.0** | **–** | **216.0** |
| of which consideration contingent on earnings targets | – | – | – |
| **Assets** | | | |
| Cash and cash equivalents | 33.7 | – | 33.7 |
| Trade receivables, other financial assets and other receivables | 72.7 | – | 72.7 |
| Other current assets | 24.6 | 2.2 | 26.8 |
| Non-current assets | 125.0 | –14.9 | 110.1 |
| **Liabilities** | | | |
| Current liabilities | 56.0 | – | 56.0 |
| Non-current liabilities | 61.2 | –5.2 | 56.0 |
| **Net assets** | **138.8** | **–7.5** | **131.3** |
| of which Brenntag's share | 138.8 | –7.5 | 131.3 |
| of which non-controlling interests | – | – | – |
| **Goodwill** | **77.2** | **7.5** | **84.7** |
| of which deductible for tax purposes | – | – | – |

3.10 Net assets acquired in 2024: Química Delta

Measurement of the assets and liabilities of the other entities and businesses acquired in financial year 2024 (Lawrence Industries Ltd. based in Tamworth, UK, site and business operations of Industrial Chemicals Corporation (ICC) in Denver, Colorado, U.S., Monarch Chemicals based in Sheerness, UK, and PIC Química e Farmacêutica Ltda. (PIC) and Pharma-Special Especialidades Químicas e Farmacêuticas Ltda. (PharmaSpecial) in Brazil has also been completed.

The purchase price, net assets acquired and goodwill were adjusted as follows in the measurement period:

| in EUR m | Provisional fair value | Adjustments | **Final fair value** |
|---|---|---|---|
| **Purchase price** | **141.5** | **1.1** | **142.6** |
| of which consideration contingent on earnings targets | 0.6 | – | 0.6 |
| **Assets** | | | |
| Cash and cash equivalents | 8.6 | – | 8.6 |
| Trade receivables, other financial assets and other receivables | 19.5 | –0.1 | 19.4 |
| Other current assets | 16.7 | – | 16.7 |
| Non-current assets | 81.3 | –4.0 | 77.3 |
| **Liabilities** | | | |
| Current liabilities | 11.9 | 0.8 | 12.7 |
| Non-current liabilities | 15.9 | –1.4 | 14.5 |
| **Net assets** | **98.3** | **–3.5** | **94.8** |
| of which Brenntag's share | 98.3 | –3.5 | 94.8 |
| of which non-controlling interests | – | – | – |
| **Goodwill** | **43.2** | **4.6** | **47.8** |
| of which deductible for tax purposes | 8.3 | 1.1 | 9.4 |

3.11 Net assets acquired in 2024: Other business combinations

Goodwill from the business combinations carried out in financial years 2024 and 2025 changed as follows:

| in EUR m | Solventis Group | Química Delta | Chem Tech | Other | **Goodwill** |
|---|---|---|---|---|---|
| **Dec. 31, 2024** | **70.7** | **78.1** | **–** | **43.2** | **192.0** |
| Exchange rate differences | – | –6.1 | –0.6 | 0.1 | –6.6 |
| Business combinations in 2025 | – | – | 65.1 | 15.0 | 80.1 |
| Adjustments in the measurement period | 2.2 | 7.5 | – | 4.6 | 14.3 |
| Impairment | – | –79.5 | – | – | – |
| **Dec. 31, 2025** | **72.9** | **–** | **64.5** | **62.9** | **279.8** |

3.12 Change in goodwill

## Consolidation methods

The consolidated financial statements include the single-entity financial statements – prepared according to uniform accounting policies – of Brenntag SE and all entities controlled by Brenntag. This is the case when the following conditions are met:

- Brenntag has decision-making power over the relevant activities of the other entity.
- Brenntag has exposure, or rights, to variable returns from its involvement with the other entity.
- Brenntag has the ability to use its decision-making power over the relevant activities of the other entity to affect the amount of the variable returns of the other entity.

Control may be based on voting rights or arise from other contractual arrangements. Accordingly, the scope of consolidation includes, in addition to entities in which Brenntag SE directly or indirectly controls the majority of voting rights, structured entities which are controlled as a result of contractual arrangements.

Inclusion in the consolidated financial statements commences at the date on which control is obtained and ends when control is lost.

Acquisitions are accounted for using the acquisition method in accordance with IFRS 3. The cost of an acquired business unit is considered to be the fair value of the assets given. Acquisition-related costs are recognized as an expense. Contingent consideration is recognized as a liability at the acquisition-date fair value when determining the cost. If Brenntag gains control but does not acquire 100% of the shares, the corresponding non-controlling interest is recognized.

Identifiable assets, liabilities and contingent liabilities of an acquiree that are eligible for recognition are generally measured at their fair value at the transaction date, irrespective of the share of any non-controlling interests. Any remaining differences between cost and the share of the net assets acquired are recognized as goodwill.

In the event of an acquisition in stages which leads to control of a company being obtained, or in the event of a share sale involving a loss of control, the shares already held in the first case or the remaining shares in the second case are measured at fair value through profit or loss. Acquisitions or disposals of shares which have no effect on existing control are recognized in equity.

Receivables, liabilities, expenses, income and intercompany profits or losses within the Brenntag Group are eliminated.

Associates of the Brenntag Group where Brenntag has significant influence are accounted for using the equity method. Significant influence is generally considered to exist when Brenntag SE holds between 20% and 50% of the voting rights either directly or indirectly. The same consolidation policies apply to companies accounted for using the equity method as to consolidated companies, whereby recognized goodwill is contained in the carrying amount of investments accounted for using the equity method. Brenntag's share of the profit / loss after tax of the companies accounted for using the equity method is recognized in the income statement. The accounting policies of the companies accounted for using the equity method were, as far as necessary, adjusted in line with the accounting policies of Brenntag.

## Currency translation

Foreign currency receivables and liabilities in the single-entity financial statements are stated on initial recognition at the spot exchange rate at the date of the transaction. At the reporting or settlement date, foreign currency receivables and liabilities are translated at the closing rate. The resulting differences are recognized in profit or loss.

The items contained in the financial statements of a Group company are measured on the basis of the currency of the relevant primary economic environment in which the company operates (functional currency). The presentation currency of the Brenntag Group is the euro.

The single-entity financial statements of the companies whose functional currency is not the euro are translated into euros as follows:

Assets and liabilities are translated at the closing rate, income and expense at the annual average rate. This notwithstanding, income and expense of Brenntag Kimya Ticaret Limited Sirketi are also translated at the closing rate due to the classification of Türkiye as a hyperinflationary economy. Any differences resulting from currency translation are recognized in other comprehensive income. Goodwill and fair value adjustments resulting from the acquisition of foreign companies are assigned to the foreign company and also translated at the closing rate.

For some companies in Latin America and in the Asia Pacific region, the functional currency is the U.S. dollar and not the local currency. Non-monetary items, primarily property, plant and equipment, goodwill and other intangible assets as well as environmental provisions, are translated from the local

currency into U.S. dollars using the exchange rate at the transaction date. Monetary items are translated at the closing rate. All income and expenses are translated at the average exchange rate for the reporting period with the exception of depreciation and amortization, impairment losses and reversals of impairment losses as well as income and expenses incurred in connection with environmental provisions. These are translated at the same exchange rates as the underlying assets and liabilities. The resulting foreign currency differences are recognized in profit or loss. After translation of the items in the single-entity financial statements into the functional currency, the U.S. dollar, the same method is used for translation from U.S. dollars into the Group currency, the euro, as for companies whose functional currency is the local currency.

The single-entity financial statements of foreign companies accounted for using the equity method are translated using the same principles.

The euro exchange rates of major currencies changed as follows:

| | Closing rate | | Average rate | |
|---|---|---|---|---|
| EUR 1 = currencies | **Dec. 31, 2025** | Dec. 31, 2024 | **2025** | 2024 |
| Brazilian real (BRL) | 6.4364 | 6.4253 | 6.3072 | 5.8283 |
| Canadian dollar (CAD) | 1.6088 | 1.4948 | 1.5787 | 1.4821 |
| Swiss franc (CHF) | 0.9314 | 0.9412 | 0.9370 | 0.9526 |
| Chinese yuan renminbi (CNY) | 8.2262 | 7.5833 | 8.1185 | 7.7875 |
| Danish krone (DKK) | 7.4689 | 7.4578 | 7.4634 | 7.4589 |
| Pound sterling (GBP) | 0.8726 | 0.8292 | 0.8568 | 0.8466 |
| Polish zloty (PLN) | 4.2210 | 4.2750 | 4.2397 | 4.3058 |
| Russian ruble (RUB) | 92.7118 | 113.8116 | 94.3867 | 100.3354 |
| Swedish krona (SEK) | 10.8215 | 11.4590 | 11.0663 | 11.4325 |
| Turkish lira (TRY) | 50.4838 | 36.7372 | 44.8161 | 35.5734 |
| U.S. dollar (USD) | 1.1750 | 1.0389 | 1.1300 | 1.0824 |

3.13 Exchange rates of major currencies

# Accounting and measurement policies

## Revenue recognition

Revenue from contracts with customers is recognized using a five-step model in accordance with IFRS 15:

1. Identify the contract(s) with a customer
2. Identify the separate performance obligations
3. Determine the transaction price
4. Allocate the transaction price to the separate performance obligations
5. Recognize revenue when (or as) the entity satisfies a performance obligation.

Revenue is recognized in the amount of consideration to which Brenntag expects to be entitled in exchange for goods or services. Variable consideration, such as cash discounts, discounts and rebates, is estimated and taken into account when determining the transaction price.

Revenue from the sale of goods or services is recognized when control of the goods or services transfers to the customer. Control transfers when the customer obtains control of the agreed goods or services and can obtain benefits from them. In a sale of goods, control usually transfers when the goods are collected by the customer or dispatched by Brenntag or a third party. In this case, revenue is recognized at a point in time. Revenue from services is recognized over time.

There are currently no significant financing components in the Brenntag Group. Payment terms are negotiated locally and reflect standard market practice. As there are no long-term performance obligations, the amount and timing of allocated transaction prices are not required to be disclosed for performance obligations that are unsatisfied as of the reporting date (practical expedient in IFRS 15.121).

Interest income is recognized as the interest accrues using the effective interest method.

Dividend income is recognized when the right to receive payment is established.

## Cash and cash equivalents

Cash and cash equivalents include cash on hand, cheques and deposits held with banks with an original term of three months or less. They are measured at amortized cost.

## Trade receivables, other receivables and other financial assets

Trade receivables that do not contain a significant financing component are initially recognized at the transaction price in accordance with IFRS 15. All other financial assets are measured on initial recognition at fair value (if applicable, including transaction costs). Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

For the purpose of subsequent measurement, financial assets are classified into one of three categories, depending on the business model for managing the financial assets and the contractual cash flow characteristics:

- Measured at amortized cost: Assets held in order to collect contractual cash flows, where those cash flows are solely payments of principal and interest
- Measured at fair value through other comprehensive income: Assets held in order to collect contractual cash flows and sell the assets, where those cash flows are solely payments of principal and interest
- Measured at fair value through profit or loss: Assets that do not meet the criteria of the two aforementioned categories

Trade receivables, other receivables and receivables included in other financial assets are measured at amortized cost. There are no financial instruments measured at fair value through other comprehensive income. Securities and shares in entities where Brenntag does not have at least significant influence are measured at fair value through profit or loss, as are derivative financial instruments.

For fair value measurement, IFRS 13 provides a three-level hierarchy that reflects the extent to which the inputs used to determine fair value are market-based:

- Level 1: Fair value determined using quoted or market prices in an active market
- Level 2: Fair value determined using quoted or market prices in an active market for similar financial assets or liabilities, or other measurement methods for which significant inputs used are based on observable market data
- Level 3: Fair value determined using measurement methods for which significant inputs used are not based on observable market data.

Trade receivables are subsequently measured using provision matrices under the simplified impairment model. Based on historical credit losses and forward-looking estimates, the country-specific valuation allowances expected over the lifetime of the trade receivables are determined for receivables in the same credit risk class (e.g. customer industries) (stage 2 of the impairment model). In this context, credit risk is assessed primarily on the basis of the extent to which the receivables are past due.

For other receivables and financial assets subsequently measured at amortized cost, the lifetime expected losses resulting from default events within the next twelve months are recognized in profit or loss on initial recognition and subsequent measurement (stage 1 of the impairment model). In the event of a significant increase in credit risk, the total losses expected over the lifetime of the assets are reflected (stage 2 of the impairment model).

If there is objective evidence that trade receivables or other financial assets measured at amortized cost should be considered impaired, e.g. because they are more than 180 days past due or because insolvency or similar proceedings are opened, a specific valuation allowance reflecting the credit risk in question is recognized in profit or loss. The valuation allowances are posted to an allowance account in the balance sheet. If a receivable is uncollectible, the gross amount and the valuation allowance are both derecognized. Uncollectibility is determined on a case-by-case basis, based on appropriate indicators.

A regular way purchase or sale of non-derivative financial assets is recognized at the settlement date. Derivative financial instruments are recognized in the balance sheet when Brenntag becomes a party to the contractual provisions of that instrument.

Financial assets are derecognized if the contractual rights to the cash flows from the financial asset have expired or Brenntag has transferred substantially all the risks and rewards of ownership of the financial asset.

## Inventories

Inventories mainly comprise merchandise. They are initially recognized at cost. Production costs for the inventories produced through further processing are also capitalized.

Inventories are subsequently measured in accordance with IAS 2 at the lower of cost (on the basis of the average cost formula) and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. Net realizable value also reflects effects of obsolescence or reduced marketability. Earlier valuation allowances on inventories are reversed if the net realizable value of the inventories increases again.

## Property, plant and equipment

Property, plant and equipment is carried at cost of acquisition or construction and, except for land, depreciated over its estimated useful life on a straight-line basis. If major components of an item of property, plant and equipment have different useful lives, these components are accounted for separately and depreciated over their respective useful lives.

Acquisition costs include all expenditure directly attributable to the acquisition.

In accordance with IAS 16, future costs for any restoration obligation are recognized as an increase in the cost of acquisition or construction of the respective asset and a corresponding provision is established at the time of acquisition or construction of the item of property, plant and equipment.

In accordance with IAS 20, government grants and assistance for investments are deducted from the related asset.

The charges on property, plant and equipment include both depreciation charges and impairment losses.

When items of property, plant and equipment are sold, the difference between the net proceeds and the carrying amount of the respective asset is recognized as a gain or loss in other operating income or expenses.

Assets are depreciated over the following useful lives:

| | Useful life |
|---|---|
| Land rights | 40 to 50 years |
| Buildings | 15 to 50 years |
| Installations and building improvements | 8 to 20 years |
| Technical equipment and machinery | 3 to 20 years |
| Vehicles | 5 to 8 years |
| Other equipment, operating and office equipment | 2 to 10 years |

3.14 Useful lives of property, plant and equipment

## Intangible assets

Intangible assets include customer relationships and similar rights purchased, the "Brenntag" trademark, other trademarks, software, concessions and similar rights as well as goodwill from the acquisition of consolidated subsidiaries.

Intangible assets acquired through business combinations are measured on initial recognition at their acquisition-date fair value.

Separately acquired intangible assets are carried at cost.

Acquired software licenses are recognized at cost plus directly attributable costs incurred to acquire and bring to use the specific software.

For the purposes of accounting for cloud computing arrangements, the individual contract components, such as the software used in the context of such arrangements, are assessed separately. Software applications provided by cloud service providers are assessed as to whether they are an intangible asset under IAS 38. This assessment considers the following aspects among others:

- hosting is performed by an independent third party engaged by the user,
- the user has substantive rights to download the software and run it locally on its own hardware or on that of a third-party provider, and
- the user has an exclusive right to use the software or owns the intellectual property in the software.

The accounting for implementation costs arising in cloud computing arrangements follows the accounting for the related software component. If the related software component is an intangible asset under IAS 38, the criteria for recognizing acquisition-related costs as part of the cost of an intangible asset apply. If, on the other hand, the software component is a service contract, the implementation costs are accounted for based on the IFRS IC's 2021 agenda decision "Configuration or Customization Costs in a Cloud Computing Arrangement".

In addition to goodwill, the "Brenntag" trademark also has an indefinite useful life as, based on an analysis of all of the relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows for the entity. The other intangible assets are amortized on a straight-line basis over their estimated useful lives. The following useful lives are assumed:

| | Useful life |
|---|---|
| Concessions, industrial and similar rights as well as software and trademarks with definite useful lives | 3 to 10 years |
| Customer relationships and similar rights | 3 to 15 years |

3.15 Useful lives of intangible assets

The charges on intangible assets include both amortization charges and impairment losses.

## Leases

The leases at Brenntag relate mainly to land and buildings (warehouse and office space), vehicles and other plant and equipment. Leases are entered into for fixed terms of more than one year to 70 years in limited cases, but may also contain extension options.

For leases where Brenntag is lessee, a lease liability is generally recognized along with a corresponding right-of-use asset, if applicable taking into account any further cost components. This excludes short-term leases with a term of one year or less and leases of low-value and intangible assets, for which expenditure is recognized as an expense over the term.

On initial recognition, the lease liability is measured at the present value of the lease payments not yet paid at that date, discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, Brenntag uses the incremental borrowing rate. The incremental borrowing rates were determined on the basis of a base rate plus a risk premium. The base rates in major currencies and countries were derived from interest rate swaps (if available) or government bond yields for a period of up to twenty years. For countries or currencies for which there were no reliable data available on which to base the determination, the euro base rate was adjusted to reflect a country risk premium.

Lease payments are not separated into payments for lease components and payments for non-lease components (e.g. payments for maintenance or servicing costs).

In subsequent periods, the right-of-use asset is generally depreciated on a straight-line basis. The lease liability is adjusted using the effective interest method.

## Impairment testing of non-current non-financial assets

In accordance with IAS 36, non-current non-financial assets (property, plant and equipment, intangible assets and right-of-use assets) are tested for impairment whenever there is an objective indication that the carrying amount may not be recoverable.

Intangible assets that have an indefinite useful life and are, therefore, not subject to amortization are also tested for impairment at least annually.

Impairment exists when the carrying amount of an asset exceeds the estimated recoverable amount. Recoverable amount is the higher of fair value less costs of disposal and value in use. Value in use is the present value of the future cash flows expected to be derived from an asset. If the carrying amount is higher than the recoverable amount, the asset is written down to the recoverable amount.

If the recoverable amount of an individual asset cannot be determined, the recoverable amount of the cash-generating unit (CGU) or group of cash-generating units to which this asset belongs is determined and compared with the carrying amount of the CGU or group of CGUs.

Impairments, except for impairments of goodwill, are reversed as soon as the reasons for the impairment no longer exist.

Goodwill is tested for impairment annually, after completion of the annual budget process as at December 31, or upon the occurrence of a triggering event. The test compares the carrying amount of the relevant group of CGUs with its recoverable amount.

If the carrying amount of a group of CGUs exceeds the recoverable amount, an impairment exists in the amount of the difference. In this case, the goodwill of the relevant group of CGUs would first be written down. Any remaining impairment would be allocated to the assets of the group of CGUs in proportion to the net carrying amounts of the assets at the reporting date. The carrying amount of an individual asset must not be less than the highest of fair value less costs of disposal, value in use (in each case in as far as they can be determined) and zero.

## Other provisions

In accordance with IAS 37, other provisions are recognized when the Group has a present legal or constructive obligation towards third parties as a result of past events, it is more likely than not that an outflow of resources will be required to settle the obligation, and the amount can be reliably estimated.

Non-current provisions are recognized at the present value of the expected outflow and their discounting is unwound over the period until their expected utilization. For provisions for long-service anniversary bonuses and pre-retirement part-time working arrangements, this is carried out bearing in mind actuarial principles or by obtaining external appraisals.

If the amount of an obligation declines as a result of a change in an estimate, the provision is reversed by the corresponding amount. Reversals of provisions for personnel expenses are recognized in personnel expenses. Provisions recognized as other operating expenses are reversed as other operating income.

Provisions are recognized for share-based payments in accordance with IFRS 2. The long-term incentive programs and the expiring long-term, virtual share-based remuneration program for the members of the Board of Management and the Long-Term Incentive Plans for executives and senior managers are classified as cash-settled share-based payments. Provisions are established for the resulting obligations. The obligations are measured at fair value. They are recognized as personnel expenses over the vesting period during which the beneficiaries acquire a vested right (unconditional right). The fair value is remeasured at each reporting date and at the settlement date.

## Provisions for pensions and other post-employment benefits

The Group's pension obligations comprise both defined contribution and defined benefit pension plans.

The contributions to be paid into defined contribution pension plans are recognized directly as expense. Provisions for pension obligations are not established as, in these cases, Brenntag has no additional obligation apart from the obligation to pay the premiums.

In accordance with IAS 19, provisions are established for defined benefit plans, unless the plans are multi-employer pension funds for which insufficient information is available. The obligations arising from these defined benefit plans are determined using the projected unit credit method, under which the expected benefits to be paid after retirement are determined taking dynamic measurement inputs into account and spread over the entire length of service of the employees participating in the plan. For this purpose, an actuarial valuation is obtained every year. The actuarial assumptions for the discount rate, salary increase rate, pension trend, life expectancy and cost increases for medical care used to calculate the defined benefit obligation are established on the basis of the respective economic circumstances. The plan assets measured at fair value are deducted from the present value of the defined benefit obligation (gross pension obligation). Plan assets are assets where the claim to said assets has, in principle, been assigned to the beneficiaries. This results in the net liability required to be recognized or the net asset required to be recognized.

The discount rate is determined by reference to market yields at the end of the reporting period on fixed-rate senior corporate bonds. The currency and term of the corporate bonds taken as a basis are consistent with the currency and estimated term of the post-employment benefit obligations.

Life expectancy is determined using the latest mortality tables. Pension costs are made up of three components:

| Component | Constituents | Recognized in |
|---|---|---|
| Service cost | – Current service cost | Personnel expenses |
| | – Past service cost incl. gains and losses from plan curtailments | |
| | – Gains and losses from plan settlements | |
| Net interest expense | – Unwinding of discounting of defined pension obligation (DBO) | Interest expense |
| | – Interest income from plan assets | |
| Remeasurements | – Actuarial gains and losses on DBO from experience adjustments and from changes in measurement inputs | Other comprehensive income, net of tax |
| | – Changes in value of plan assets not already contained in net interest expense | |

3.16 Pension cost components

As a result of the recognition of the remeasurement components in other comprehensive income, the balance sheet shows the full extent of the net obligation avoiding volatility in profit or loss that may result in particular from changes in the measurement inputs.

Multi-employer defined benefit plans are treated as defined contribution plans when insufficient information is available.

## Trade payables, financial liabilities and other liabilities

Trade payables, financial liabilities (excluding derivative financial instruments and contingent purchase prices payable in business combinations) and other liabilities are classified as at amortized cost. They are initially recognized at their fair value net of transaction costs incurred and subsequently carried at amortized cost using the effective interest method.

Derivative financial instruments and contingent purchase prices payable in business combinations are initially recognized at fair value and subsequently measured at fair value through profit or loss.

## Liabilities relating to acquisition of non-controlling interests

Liabilities relating to the acquisition of non-controlling interests include forwards and combined call/put options relating to the acquisition of non-controlling interests as well as liabilities arising from limited partners' rights to repayment of contributions.

On initial recognition, forwards, symmetric call/put options, written put options and liabilities arising from limited partners' rights to repayment of contributions are recognized outside profit or loss as a synthetic liability at the present value of the settlement amount. Until the forwards and options are exercised, non-controlling interests are presented in consolidated equity. These items are subsequently measured at amortized cost. Unwinding of discounting and changes in estimates are recognized in profit or loss. Liabilities arising from limited partners' rights to repayment of contributions are recognized in profit or loss at amortized cost, in the amount of the expected right to repayment of contributions.

Exchange rate effects are recognized in profit or loss or, in the case of net investment hedges, directly in equity.

Call options without a symmetric put option are initially recognized at fair value outside profit or loss and subsequently measured at fair value through profit or loss.

## Deferred taxes and current income taxes

Current income taxes for current and prior periods are recognized at the amount expected to be paid to or recovered from the taxation authorities.

Deferred taxes are determined in accordance with IAS 12 (Income Taxes). They arise from temporary differences between the carrying amounts of assets and liabilities in the IFRS balance sheet and their tax base, from consolidation adjustments and from tax loss carryforwards that are expected to be utilized.

Deferred tax assets are recognized to the extent that there are sufficient taxable differences available for utilization and it is likely that future taxable profit will be available against which the temporary differences and unutilized loss carryforwards can be utilized.

No deferred taxes are recognized for the difference between the net assets and the tax base of subsidiaries (outside basis differences) provided Brenntag is able to control the timing of the reversal of the temporary difference and it is unlikely that the temporary difference will reverse in the foreseeable future.

Deferred taxes for domestic companies are calculated on the basis of the combined income tax rate of the German consolidated tax group of Brenntag SE of 27% to 32% (2024: 32%) for corporate income tax, solidarity surcharge and trade income tax, and for foreign companies, at local tax rates. These are tax rates which can be expected to apply on the basis of laws in the different countries that have been enacted or substantially enacted at the reporting date.

Deferred tax assets and liabilities are netted against each other if they relate to the same taxation authority, the company has a legally enforceable right to set them off against each other and they mature in the same period.

Through the Act on an Immediate Tax Investment Program to Enhance Germany's Attractiveness as a Business Location, Germany resolved to gradually lower the corporate income tax rate as of the 2028 assessment period. The rate will fall by one percentage point a year, from 15% to 10% in 2032. In measuring deferred taxes as at the reporting date, the future tax rate was taken into account, bearing in mind the expected timing of the reversal of the temporary differences. This remeasurement resulted in deferred tax income of EUR 4.0 million.

Brenntag falls within the scope of the OECD's Pillar Two model rules. As the Pillar Two legislation became applicable on January 1, 2024, the Group will be exposed to a higher tax liability under Pillar Two. The legislation requires the Group to pay a top-up tax per country in the amount of the difference between the GloBE effective tax rate and the minimum tax rate of 15%. The OECD model rules provide for simplifications (safe harbors) to enable compliance with Pillar Two. Brenntag has made use of the safe harbors where relevant.

Taking into account the safe harbors, Brenntag concludes that only a very small number of countries fall below the average effective tax rate of 15% based on the IFRS results.

Additional tax of EUR 0.4 million for the countries identified was included in the consolidated financial statements in the form of a provision. The Group has applied the temporary exception issued by the IASB in May 2023 to the accounting requirements for deferred taxes in IAS 12. Accordingly, the Group neither recognizes nor discloses information about deferred tax assets and liabilities related to Pillar Two income taxes.

The final Pillar Two tax liability will only be fully determined upon submission of the respective GloBE Information Return (GIR) for the relevant assessment year. The GIR for 2024 must be submitted to the Federal Central Tax Office by June 30, 2026, and the GIR for the year 2025 by March 31, 2027. The total tax liability for both years is approximately EUR 0.7 million.

## Subscribed capital

The subscribed capital is carried at its nominal value.

## Assumptions and estimates

Preparation of the consolidated financial statements requires the use of assumptions and estimates which may affect the amount and presentation of assets and liabilities and income and expenses. These assumptions and estimates mainly relate to the following:

- the calculation and discounting of cash flows when impairment tests are performed;
- probability of occurrence, interest rates and other measurement inputs used to measure provisions, particularly for environmental risks and defined benefit pension obligations;
- the amount of liabilities relating to the acquisition of non-controlling interests and the determination of interest rates;
- the assessment of whether purchase and extension options will be exercised when accounting for right-of-use assets in accordance with IFRS 16 (Leases);
- assumptions as to the realization of future tax benefits from tax loss carryforwards and to the useful lives of intangible assets and property, plant and equipment;
- measurement of deferred taxes due to the gradual reduction in the corporate income tax rate in Germany. The future dates at which temporary differences will reverse span multiple financial years and must be allocated to the respective, period-specific tax rates. Any differences between the expected and the actual timing of reversal may affect the amount of deferred tax items.
- Deferred tax liabilities have been recognized for outside basis differences that are expected to reverse through distributions, applying the relevant withholding tax rates. The underlying assumptions regarding the Group's distribution policy and future tax environment involve judgement and are subject to estimation uncertainty. No deferred taxes have been recognized for outside basis differences relating to potential disposals, as no such disposals are planned.

The global economic environment is affected by continuing and widening geopolitical tensions in various regions around the globe – including Eastern Europe, Northeast Asia and the Middle East – and by increasing protectionist measures on the part of individual countries. The possible effects of these developments on the Brenntag Group's main sales markets cannot be fully predicted at the present time and result in a heightened degree of uncertainty over growth expectations for the global economy. This uncertainty is affecting the assessment of future cash flow performance and may affect the recognition and measurement of assets and liabilities. This applies especially to impairment testing of intangible assets with an indefinite useful life, including goodwill.

The following tables present the amount of additional impairment that would have arisen from an adverse change in the key assumptions in the groups of CGUs:

| in EUR m | Free cash flow –10% | Growth rate –20% | WACC +1.0 pc point |
|---|---|---|---|
| Essentials Latin America | –1.4 | –17.4 | –7.6 |
| Essentials APAC | –26.7 | –62.6 | –39.9 |
| Specialties Beauty & Care | – | – | –9.1 |
| Other groups of CGUs | – | – | – |

3.17 Sensitivity analysis by group of CGUs / 2025

| in EUR m | Free cash flow –10% | Growth rate –20% | WACC +1.0 pc point |
|---|---|---|---|
| Essentials Latin America | –28.0 | –8.6 | –26.8 |
| Other groups of CGUs | – | – | – |

3.18 Sensitivity analysis by group of CGUs / 2024

If the discount rates used to determine the environmental provisions had been one percentage point higher or lower and all other conditions had remained the same, the provision would have decreased by EUR 4.8 million (Dec. 31, 2024: EUR 5.8 million) or increased by EUR 5.3 million (Dec. 31, 2024: EUR 6.6 million), respectively.

Sensitivity analyses of defined benefit pension obligations are described in the section “Provisions for pensions and other post-employment benefits”.

Due to purchase prices being contingent on earnings, liabilities relating to the acquisition of non-controlling interests are subject to estimation uncertainty over the amount of the purchase prices payable.

In the case of right-of-use assets under IFRS 16 (Leases), purchase and extension options are recognized if they are reasonably certain to be exercised. In this respect, the assessment is subject to a high degree of judgment. If circumstances change, the assessment of whether an option is reasonably certain to be exercised must be made anew.

When measuring deferred tax assets for tax loss carryforwards, the future taxable profit available is based on a planning horizon of five years. The useful lives of items of property, plant and equipment and intangible assets are shown in the sections “Property, plant and equipment” and “Intangible assets”. The actual amounts may differ from the assumptions and estimates in individual cases. Adjustments are recognized when estimates are revised.

The global fight against climate change will lead not only to structural, regulatory and technological changes, but also to increased costs as a result of preventive technologies or government carbon taxes. Climate change mitigation plays a particularly important role within Brenntag’s sustainability strategy, as the entire value chain is affected. Moreover, climate change mitigation is important to many of Brenntag’s customers. The climate change mitigation targets cover Scope 1, Scope 2 and Scope 3 emissions. Both climate change and Brenntag’s climate change mitigation actions could potentially impact on Brenntag’s net assets, financial position and results of operations. In financial year 2025, no indications of impairment of non-current assets or of any material adjustments to their useful lives were identified. Likewise, no effects on existing or potential new environmental or restoration obligations were observed. Furthermore, no material changes to the underlying assumptions and estimates were identified.

## Cash flow statement

The cash flow statement classifies cash flows by operating, investing and financing activities. The cash provided by operating activities is determined using the indirect method on the basis of the profit / loss after tax. Interest payments made and received, tax payments and dividends received are presented as components of cash provided by operating activities. The effects of acquisitions of consolidated subsidiaries and other business units as defined by IFRS 3 (Business Combinations) are eliminated from the individual items of the cash flow statement and combined under cash flow from investing activities. Under IFRS 16 (Leases), lease payments made are included in cash used in financing activities as repayments of borrowings and in cash provided by operating activities as interest paid. Payments under short-term leases or leases of low-value assets are a component of cash flow from operating activities. Cash and cash equivalents in the cash flow statement correspond to the cash and cash equivalents in the balance sheet. The effect of exchange rate changes on cash and cash equivalents is shown separately.

## Hyperinflation

Since June 30, 2022, Türkiye has been required to be classified as a hyperinflationary economy in accordance with IAS 29 (Financial Reporting in Hyperinflationary Economies). This standard requires non-monetary assets and liabilities, the statement of comprehensive income and equity to be restated at the end of each reporting period by applying the price index applicable at the end of the reporting period. The balance of those adjustments is presented in profit or loss as a loss on the net monetary position. IAS 29 must be applied as if Türkiye had always been hyperinflationary. Brenntag used the consumer price index published by the Turkish Statistical Institute (Dec. 31, 2024: 2,685 index points; Dec. 31, 2025: 3,514 index points). All items are translated at the closing rate due to hyperinflation. Inflation resulted in a loss on the net monetary position of EUR 8.1 million for 2025 (2024: EUR 4.2 million).

## Segment reporting

The Brenntag Group is managed through two global divisions, Brenntag Specialties and Brenntag Essentials.

Brenntag Specialties is managed globally through the Life Science, Material Science and Specialties Other segments. The Life Science segment focuses on selling ingredients and value-added services in the global focus industries Nutrition, Pharma and Beauty & Care. The Material Science segment mainly encompasses business activities in the CASE (Coatings, Adhesives, Sealants, Elastomers), Construction, Polymers and Rubber industries. To a small extent, the Brenntag Specialties portfolio is also augmented by other business activities outside Life Science and Material Science.

Brenntag Essentials markets a broad portfolio of process chemicals across a wide range of industries and applications. The global Brenntag Essentials division comprises the reportable segments EMEA, North America, Latin America and APAC, plus the "Transregional" segment comprising the international operations of BRENNTAG International Chemicals GmbH (BIC), which buys and sells chemicals in bulk on an international scale.

"Group and Regional Services" mainly include the central functions for the entire Group, the regional service functions and the activities with regard to the digitalization of our business.

The following table shows the reconciliation of the global divisions to the Group:

| Period from January 1 to December 31<br>in EUR m | Brenntag Specialties | Brenntag Essentials | Group and Regional Services | **Group** |
|---|---|---|---|---|
| **External sales** | | | | |

| 2024 | 338.3 | 114.4 | –1.7 | –4.1 | 446.9 |
| fx. adj. change in % | –9.8 | –10.9 | 291.7 | –68.3 | –10.4 |

3.20 Segment reporting on the global Specialties division 2025/2024

[1] Central activities which are part of Brenntag Specialties but not directly attributable to any one segment.
[2] Certain items of property, plant and equipment and right-of-use assets are not separable and support both divisions jointly. They have been allocated to a division (depending on the region) and are depreciated there. They are charged to the other division on the basis of fixed and variable monthly amounts.
[3] Segment operating EBITA is calculated as segment EBITA adjusted for holding charges and special items.
[4] The prior-year figures were adjusted to reflect the current portfolio allocation.

The following table shows the segment information for the reportable segments of the global **Brenntag Essentials** division:

| Period from January 1 to December 31 in EUR m | EMEA[1] | North America | Latin America | APAC | Trans-regional | Central activities[2] | **Brenntag Essentials** |
|---|---|---|---|---|---|---|---|
| **External sales** | | | | | | | |
| 2025 | 3,607.6 | 4,694.1 | 968.4 | 823.8 | 276.4 | – | 10,370.3 |
| 2024 | 3,741.2 | 5,162.6 | 763.4 | 1,005.5 | 335.0 | – | 11,007.7 |
| fx. adj. change in % | –3.2 | –4.9 | 33.6 | –13.7 | –17.5 | – | –2.9 |
| **Cost of materials** | | | | | | | |
| 2025 | –2,649.9 | –3,250.5 | –776.5 | –694.7 | –265.3 | – | –7,636.9 |
| 2024 | –2,746.5 | –3,625.8 | –596.8 | –863.9 | –322.5 | – | –8,155.5 |
| fx. adj. change in % | –3.7 | –6.9 | 27.6 | –11.9 | –17.6 | – | –3.4 |
| **Operating gross profit** | | | | | | | |

| 2025 | 225.1 | 393.8 | 26.7 | 12.2 | 5.3 | –4.4 | 658.7 |
| 2024 | 276.5 | 469.3 | 14.1 | 17.3 | 6.4 | –2.9 | 780.7 |
| fx. adj. change in % | –19.3 | –12.2 | 100.8 | –26.1 | –17.2 | 51.7 | –13.4 |

3.21 Segment reporting on the global Essentials division 2025/2024

[1] Europe, Middle East & Africa.
[2] Central activities which are part of Brenntag Essentials but not directly attributable to any one segment.
[3] Certain items of property, plant and equipment and right-of-use assets are not separable and support both divisions jointly. They have been allocated to a division (depending on the region) and are depreciated there. They are charged to the other division on the basis of fixed and variable monthly amounts.
[4] Segment operating EBITA is calculated as segment EBITA adjusted for holding charges and special items.

The following table shows the reconciliation to profit before tax:

| in EUR m | 2025 | 2024 |
|---|---|---|
| **Operating EBITA (segment result)**[1] | **929.3** | **1,101.9** |
| Net expense from special items | –106.5 | –111.4 |
| (of which expenses for strategy projects) | (–40.5) | (–49.7) |
| (of which expenses for legal risks) | (–32.2) | (–42.6) |
| (of which impairment losses) | (–26.6) | (–) |
| (of which loss on the disposal of Raj Petro) | (–11.3) | (–42.1) |
| (of which other special items) | (4.1) | (23.0) |
| **EBITA** | **822.8** | **990.5** |
| Amortization of intangible assets[2] | –62.5 | –63.8 |
| Impairment of intangible assets | –142.7 | –11.3 |
| **EBIT** | **617.6** | **915.4** |
| Net finance costs | –132.2 | –172.8 |
| **Profit before tax** | **485.4** | **742.6** |

3.22 Reconciliation of operating EBITA to profit before tax

[1] Operating EBITA of the reportable segments amounts to EUR 1,051.4 million (2024: EUR 1,227.6 million) and operating EBITA of the central activities of Brenntag Specialties and Brenntag Essentials, as well as Group and Regional Services to EUR –122.1 million (2024: EUR –125.7 million).
[2] This figure includes amortization of customer relationships in the amount of EUR 36.6 million (2024: EUR 37.8 million).

Special items are income and expenses outside ordinary activities that have a special and material effect on the results of operations.

Expenses for strategy projects amounted to EUR 40.5 million in financial year 2025. They mainly include severance and advisory expenses which will help to achieve the cost-reduction targets.

In financial year 2025, expenses of EUR 32.2 million were recognized for legal risks in connection with the sale of talc and similar products in North America.

Impairment losses of EUR 26.6 million were recognized in the reporting period. Of this total, property, plant and equipment at a site in the Brenntag Essentials APAC segment accounted for EUR 13.1 million due to the unfavorable earnings prospects expected in the region, partly in light of the ongoing geopolitical uncertainty between the U.S. and China and the related deterioration in the earnings outlook.

In addition, impairment losses of EUR 11.5 million were recognized on property, plant and equipment in the context of realigning the site network, and impairment losses of EUR 2.0 million on right-of-use assets from leases in connection with goodwill impairment at Brenntag Essentials Latin America.

The deconsolidation of Raj Petro resulted in a loss of EUR 11.3 million in financial year 2025.

Other special items amounted to EUR 4.1 million in financial year 2025. This includes insurance payouts in connection with the major fire at the warehouse site in Canada in 2023.

## Geographical information

Non-current assets comprise property, plant and equipment, right-of-use assets and intangible assets. Non-current assets are allocated to the different countries as follows:

| | Property, plant and equipment | | Right-of-use assets | | Intangible assets[1] | |
|---|---|---|---|---|---|---|
| in EUR m | Dec. 31, 2025 | Dec. 31, 2024 | Dec. 31, 2025 | Dec. 31, 2024 | Dec. 31, 2025 | Dec. 31, 2024 |
| Germany | 102.4 | 105.5 | 36.4 | 50.8 | 36.5 | 31.9 |
| U.S. | 591.8 | 632.3 | 155.0 | 214.4 | 60.4 | 80.8 |
| France | 115.9 | 101.1 | 8.0 | 9.0 | 1.3 | 0.3 |
| Canada | 90.7 | 97.9 | 27.3 | 18.4 | 0.3 | 0.5 |
| United Kingdom | 85.7 | 86.7 | 38.7 | 42.8 | 45.6 | 102.4 |
| Italy | 79.0 | 73.0 | 23.2 | 28.0 | 0.1 | 0.1 |
| Singapore | 68.0 | 80.1 | 15.6 | 19.4 | 11.0 | 13.3 |
| China | 56.5 | 78.7 | 8.6 | 6.8 | 24.2 | 29.7 |
| Spain | 55.5 | 51.7 | 8.8 | 9.5 | 0.4 | 0.3 |
| Poland | 54.5 | 47.3 | 8.4 | 8.9 | – | 0.1 |
| Belgium | 30.9 | 31.4 | 57.6 | 61.2 | 46.2 | 1.7 |
| Mexico | 12.8 | 15.6 | 33.1 | 38.6 | 51.2 | 69.9 |
| Others | 297.5 | 293.8 | 89.4 | 88.4 | 17.2 | 30.3 |
| **Total** | **1,641.2** | **1,695.1** | **510.1** | **596.2** | **294.4** | **361.3** |

3.23 Non-current assets by country

[1] Intangible assets excluding goodwill and "Brenntag" trademark.

The allocation of external sales to the different countries, based on the registered office of the respective entities, is shown in the following table:

| | External sales | |
|---|---|---|
| in EUR m | 2025 | 2024 |
| Germany | 1,078.7 | 1,198.3 |
| U.S. | 5,165.4 | 5,793.8 |
| United Kingdom | 822.9 | 825.6 |
| China | 675.0 | 736.8 |
| Canada | 584.8 | 633.8 |
| Italy | 579.2 | 593.8 |
| Poland | 521.8 | 550.6 |
| France | 501.1 | 522.8 |
| Others | 5,242.6 | 5,381.9 |
| **Total** | **15,171.5** | **16,237.4** |

3.24 External sales by country

# Consolidated income statement disclosures

## 1.) Sales

Sales of EUR 15,171.5 million (2024: EUR 16,237.4 million) are almost entirely attributable to contracts with customers as defined by IFRS 15. Sales of EUR 1.8 million (2024: EUR 1.8 million) were generated with related parties.

Sales of EUR 15,098.9 million (2024: EUR 16,158.4 million) relate to the sale of goods and sales of EUR 72.6 million (2024: EUR 79.2 million) to the provision of services.

Of the sales revenues from the sale of goods, EUR 14,914.6 million (2024: EUR 16,076.5 million) are attributable to warehousing or direct business. Of the other revenues from the sale of goods in the amount of EUR 184.3 million (2024: EUR 81.9 million), EUR 183.4 million (2024: EUR 81.0 million) relate to consignment business.

For a breakdown of sales by operating segment, please refer to the "Segment reporting" section of these notes to the consolidated financial statements.

Trade receivables reported in the amount of EUR 2,039.9 million (Dec. 31, 2024: EUR 2,282.5 million) are entirely attributable to contracts with customers. No contract assets are currently recognized in the Brenntag Group.

Liabilities from contracts with customers break down as follows:

| in EUR m | Dec. 31, 2025 | Dec. 31, 2024 |
|---|---|---|
| Contract liabilities under credit notes | 14.7 | 12.3 |
| Refund liabilities | 22.2 | 24.8 |
| Prepayments received | 10.0 | 7.0 |
| **Total** | **46.9** | **44.1** |

3.25 Current contract liabilities from contracts with customers

## 2.) Cost of materials

Cost of materials amounts to EUR 11,339.8 million (2024: EUR 12,210.9 million) and comprises the cost of purchased goods and services. It includes expenses in the amount of EUR 6.1 million (2024: EUR 0.6 million) from valuation allowances on inventories.

## 3.) Other operating income

| in EUR m | 2025 | 2024 |
|---|---|---|
| Income from the reversal of liabilities and provisions no longer required | 25.6 | 29.1 |
| Income from compensation | 14.5 | 15.0 |
| Income from the disposal of property, plant and equipment | 8.4 | 21.2 |
| Income from other taxes | 3.1 | 0.2 |
| Income from divestments | 0.8 | 5.3 |
| Miscellaneous operating income | 29.1 | 32.1 |
| **Total** | **81.5** | **102.9** |

3.26 Other operating income

## 4.) Personnel expenses

Personnel expenses amount to EUR 1,448.5 million in total (2024: EUR 1,446.4 million). This line item includes wages and salaries totaling EUR 1,129.7 million (2024: EUR 1,142.9 million), social security costs of EUR 184.1 million (2024: EUR 176.2 million) and pension costs of EUR 134.7 million (2024: EUR 127.3 million). Net interest expense from defined benefit plans is not included in personnel expenses but presented within net finance costs under interest expense.

The average number of employees breaks down as follows:

| | 2025 | 2024 |
|---|---|---|
| Brenntag Specialties | 3,515 | 3,539 |
| Brenntag Essentials | 11,695 | 12,072 |
| Group and Regional Services | 2,232 | 2,319 |
| **Total** | **17,442** | **17,930** |

3.27 Employees by division

As at December 31, 2025, the Brenntag Group had a workforce of 17,339 (Dec. 31, 2024: 18,122). Of this figure, 1,646 (Dec. 31, 2024: 1,685) were employed in Germany.

## 5.) Other operating expenses

| in EUR m | 2025 | 2024 |
|---|---|---|
| Carriage outwards | -332.4 | -329.8 |
| Property-related and other taxes | -50.5 | -39.5 |
| Maintenance and energy costs | -214.0 | -220.8 |
| Expenses for advisory, auditing and other services (including IT) | -214.2 | -239.4 |
| Lease expenses | -102.3 | -98.3 |
| Insurance expenses | -51.9 | -50.4 |
| Legal risks arising from the sale of talc | -32.2 | -42.6 |
| Miscellaneous operating expenses | -254.0 | -301.1 |
| **Total** | **-1,251.5** | **-1,321.9** |

3.28 Other operating expenses

## 6.) Interest expense

| in EUR m | 2025 | 2024 |
|---|---|---|
| Interest expense on liabilities to third parties | -111.2 | -112.7 |
| Expense from the fair value measurement of the cross-currency interest rate swap | -6.4 | -7.3 |
| Net interest expense on defined benefit pension plans | -4.4 | -4.1 |
| Interest expense on other provisions | -4.1 | -4.0 |
| Interest expense on leases | -26.5 | -24.6 |
| **Total** | **-152.6** | **-152.7** |

3.29 Interest expense

## 7.) Change in liabilities relating to acquisition of non-controlling interests recognized in profit or loss

| in EUR m | 2025 | 2024 |
|---|---|---|
| Change in call option and liabilities relating to acquisition of non-controlling interests recognized in profit or loss | 14.6 | -12.0 |
| Change in liabilities recognized in profit or loss arising from limited partners' rights to repayment of contributions | -1.3 | -2.0 |
| **Total** | **13.3** | **-14.0** |

3.30 Change in liabilities relating to acquisition of non-controlling interests recognized in profit or loss

For further information, please refer to Note 27.).

## 8.) Loss on the net monetary position

The inflation effect on non-monetary items, the statement of comprehensive income and equity resulted in a loss on the net monetary position of EUR 8.1 million for financial year 2025 (2024: EUR 4.2 million).

## 9.) Other net finance costs

| in EUR m | 2025 | 2024 |
|---|---|---|
| Exchange rate loss on foreign currency receivables and liabilities | -21.7 | -26.0 |
| Exchange rate gain on foreign currency derivatives | 20.4 | 10.5 |
| Miscellaneous other net finance income/costs | 0.8 | -5.3 |
| **Total** | **-0.5** | **-20.8** |

3.31 Other net finance costs

## 10.) Income tax expense

| in EUR m | 2025 | 2024 |
|---|---|---|
| Current income taxes | -183.2 | -220.7 |
| (of which BEPS Pillar Two) | (1.9) | (-2.7) |
| Deferred taxes | -32.5 | 21.8 |
| (of which for temporary differences) | (-14.2) | (-21.9) |
| (of which for tax loss carryforwards) | (-18.3) | (43.7) |
| **Total** | **-215.7** | **-198.9** |

3.32 Income tax expense

The effective tax expense of EUR 215.7 million (2024: EUR 198.9 million) differs by EUR 60.4 million (2024: EUR - 38.8 million) from the expected tax expense of EUR 155.3 million (2024: EUR 237.7 million). The expected tax expense results from applying Brenntag SE's tax rate of 32% (Dec. 31, 2024: 32%) to profit before tax.

The reasons for the difference between the expected and the effective tax expense are as follows:

| in EUR m | 2025 | 2024 |
|---|---|---|
| Profit before tax | 485.4 | 742.6 |
| Expected income tax expense (32%, 2024: 32%) | -155.3 | -237.7 |
| Difference due to tax base (trade tax adjustments in Germany) | -4.1 | -4.4 |
| Effect of different tax rates arising on the inclusion of foreign and domestic subsidiaries | 47.6 | 62.7 |
| Changes in valuation allowances on deferred tax assets / losses for which deferred taxes are not recognized / utilization of loss carryforwards | -24.9 | 37.0 |
| Changes in the tax rate and tax laws | 4.0 | 0.3 |
| Expenses not deductible for tax purposes | -26.8 | -28.7 |
| Impairment Latin America and Asia | -43.6 | |
| Loss on the disposal of Raj Petro and Bangladesh | -3.4 | -13.3 |
| Tax-free income | 2.6 | 1.5 |
| Share of profit or loss of equity-accounted investments | -0.4 | -0.6 |
| Prior-period tax expense | -8.1 | 1.8 |
| Deferred taxes for temporary differences from investments in subsidiaries | 5.0 | -6.6 |
| Change in liabilities relating to acquisition of non-controlling interests recognized in profit or loss | 2.7 | -3.5 |
| Effects of BEPS Pillar Two | 1.9 | -2.7 |
| Withholding taxes | -9.9 | -9.8 |
| Other effects | -3.0 | 5.1 |
| **Effective tax expense** | **-215.7** | **-198.9** |

3.33 Tax expense reconciliation

Deferred taxes result from the individual balance sheet items and other items as follows:

| | Dec. 31, 2025 | | Dec. 31, 2024 | |
|---|---|---|---|---|
| in EUR m | **Deferred tax assets** | **Deferred tax liabilities** | Deferred tax assets | Deferred tax liabilities |
| **Current assets** | | | | |
| Financial assets | 24.7 | 18.0 | 18.4 | 12.4 |
| Inventories | 21.3 | 1.8 | 23.8 | 1.0 |
| **Non-current assets** | | | | |
| Property, plant and equipment and right-of-use assets | 4.9 | 243.5 | 7.8 | 262.6 |
| Intangible assets | 13.9 | 251.9 | 18.9 | 273.6 |
| Financial assets | 9.7 | 6.7 | 11.2 | 20.6 |
| **Current liabilities** | | | | |

| **Deferred taxes** | **136.7** | **358.1** | **149.2** | **358.8** |
| **Deferred tax liabilities (net)** | **–** | **221.4** | **–** | **209.6** |

3.34 Deferred tax assets and liabilities

Deferred tax assets and liabilities break down by maturity as follows:

| in EUR m | Dec. 31, 2025 | Dec. 31, 2024 |
|---|---|---|
| Deferred tax assets to be recovered after more than 12 months | 7.3 | 14.2 |
| Deferred tax assets to be recovered within 12 months | 129.4 | 135.0 |
| **Deferred tax assets** | **136.7** | **149.2** |
| Deferred tax liabilities to be recovered after more than 12 months | 354.0 | 354.7 |
| Deferred tax liabilities to be recovered within 12 months | 4.1 | 4.1 |
| **Deferred tax liabilities** | **358.1** | **358.8** |
| **Deferred tax liabilities (net)** | **221.4** | **209.6** |

3.35 Deferred tax by maturity

Deferred tax liabilities (net) changed as follows:

| in EUR m | 2025 | 2024 |
|---|---|---|
| **Deferred tax liabilities (net) at Jan. 1** | **209.6** | **164.3** |
| Exchange rate differences | -13.6 | 7.6 |
| Income / expense in profit or loss | 32.5 | -21.8 |
| Income taxes recognized in other comprehensive income | -1.5 | 4.4 |
| Business combinations | -5.6 | 55.2 |
| Reclassification of deferred tax liabilities into non-current assets held for sale | – | -0.1 |
| **Deferred tax liabilities (net) at Dec. 31** | **221.4** | **209.6** |

3.36 Change in deferred tax liabilities (net)

The existing tax loss carryforwards can be utilized as follows:

| | **Dec. 31, 2025** | | Dec. 31, 2024 | |
|---|---|---|---|---|
| in EUR m | **Loss carryforwards** | **of which loss carryforwards for which deferred taxes are not recognized** | Loss carryforwards | of which loss carryforwards for which deferred taxes are not recognized |
| Within one year | 9.0 | (8.4) | 8.3 | (7.1) |
| 2 to 5 years | 58.7 | (48.4) | 61.1 | (48.0) |
| 6 to 9 years[1)] | 4.4 | (3.7) | 14.3 | (11.4) |
| More than 9 years | 238.2 | (207.9) | 274.3 | (232.0) |
| Unlimited | 534.2 | (341.3) | 514.6 | (241.8) |
| **Total** | **844.5** | **609.7** | **872.6** | **540.3** |

3.37 Tax loss carryforwards

When measuring deferred tax on loss carryforwards, deferred tax assets are recognized to the extent that sufficient taxable differences are available for utilization and it is probable that future taxable profit will be available against which the temporary differences and unused tax loss carryforwards can be utilized. The expected taxable income is derived from the current mid-term planning, allowing for restrictions on loss carryforwards and their utilization (minimum taxation). Based on the current tax planning, and in particular in light of the effects of the comprehensive cost-out program, we conclude that sufficient taxable profit will be available in the future to utilize the recognized deferred tax assets.

Deferred taxes of EUR 40.9 million (Dec. 31, 2024: EUR 58.6 million) were recognized for loss carryforwards of EUR 234.8 million (Dec. 31, 2024: EUR 332.3 million) which are likely to be utilized. They include deferred taxes of EUR 3.1 million (Dec. 31, 2024: EUR 8.2 million) from current-period tax losses. Loss carryforwards which are likely to be utilized also include German corporate income tax and trade tax loss carryforwards and interest carryforwards totaling EUR 165.0 million (Dec. 31, 2024: EUR 243.5 million) and U.S. subsidiaries' loss carryforwards for state taxes totaling EUR 29.7 million (tax rate between 6% and 8%) (Dec. 31, 2024: EUR 36.3 million) and for federal taxes (tax rate 21%) totaling EUR 0.0 million (Dec. 31, 2024: EUR 5.3 million). The decrease in loss carryforwards which are likely to be utilized is due mainly due to the reversal of deferred tax assets in Germany.

No deferred taxes were recognized for loss carryforwards of EUR 609.7 million (Dec. 31, 2024: EUR 540.3 million) which are not likely to be utilized. This equates to a tax value of EUR 92.5 million. Loss carryforwards which are likely to be utilized include domestic corporation tax and trade tax loss carryforwards totaling EUR 264.1 million (Dec. 31, 2024: EUR 181.8 million) as well as U.S. subsidiaries' loss carryforwards for state taxes totaling EUR 203.1 million (tax rate between 6% and 8%) (Dec. 31, 2024: EUR 229.5 million).

No deferred taxes were recognized for interest carryforwards of EUR 42.2 million (Dec. 31, 2024: EUR 42.8 million) which are not likely to be utilized.

Temporary differences in connection with investments in subsidiaries for which no deferred tax liabilities were recognized amount to EUR 573.6 million (Dec. 31, 2024: EUR 613.5 million). No deferred taxes are recognized because the Group can control the timing of the reversal of the temporary differences and it is assumed that the temporary differences will not reverse in the foreseeable future.

## 11.) Earnings per share

Basic earnings per share in the amount of EUR 1.83 (2024: EUR 3.71) are determined by dividing the share of profit after tax of EUR 264.6 million (2024: EUR 536.2 million) attributable to the shareholders of Brenntag SE by the number of shares outstanding (2025: 144.4 million; 2024: 144.7 million shares).

Diluted earnings per share are the same as basic earnings per share.

| in EUR m | 2025 | 2024 |
|---|---|---|
| Share of profit after tax attributable to Brenntag SE shareholders | 264.6 | 536.2 |
| Number of Brenntag SE shares | 144.4 | 144.7 |
| **Basic earnings per share** | **1.83** | **3.71** |
| **Diluted earnings per share** | **1.83** | **3.71** |

3.38 Diluted earnings per share

## 13.) Trade receivables

| in EUR m | Dec. 31, 2025 | Dec. 31, 2024 |
|---|---|---|
| Trade receivables from third parties | 2,039.9 | 2,282.5 |
| Trade receivables from related parties | – | – |
| **Total** | **2,039.9** | **2,282.5** |

3.40 Trade receivables

Trade receivables at the reporting date were past due and impaired within the following time bands:

| in EUR m | not past due | 1 to 30 days | 31 to 60 days | 61 to 90 days | 91 to 180 days | more than 180 days | Dec. 31, 2025 |
|---|---|---|---|---|---|---|---|
| Loss given default (%) | 0.6 | 0.8 | 2.4 | 6.2 | 23.0 | 94.7 | |
| Gross amount of trade receivables | 1,822.0 | 168.4 | 33.2 | 19.3 | 12.2 | 24.6 | **2,079.7** |
| Valuation allowance | 10.4 | 1.3 | 0.8 | 1.2 | 2.8 | 23.3 | **39.8** |

3.41 Loss given default on trade receivables / Dec. 31, 2025

| in EUR m | not past due | 1 to 30 days | 31 to 60 days | 61 to 90 days | 91 to 180 days | more than 180 days | Dec. 31, 2024 |
|---|---|---|---|---|---|---|---|
| Loss given default (%) | 0.4 | 1.1 | 6.7 | 11.5 | 11.7 | 84.3 | |
| Gross amount of trade receivables | 2,023.7 | 210.8 | 36.0 | 11.3 | 10.3 | 37.5 | **2,329.6** |
| Valuation allowance | 8.2 | 2.4 | 2.4 | 1.3 | 1.2 | 31.6 | **47.1** |

3.42 Loss given default on trade receivables / Dec. 31, 2024

Of the trade receivables, EUR 499.5 million (Dec. 31, 2024: EUR 725.5 million) are secured by trade credit insurance.

In EMEA, most of the trade receivables are secured by trade credit insurance. In Asia Pacific and Latin America, there is trade credit insurance for most of the receivables in certain countries. In North America as well as in some countries in EMEA, Latin America and Asia Pacific, either there is no trade credit insurance or only a relatively small proportion of the trade receivables are secured by trade credit insurance.

Impairment losses on trade receivables changed as follows:

| | Accumulated impairment losses on trade receivables | |
|---|---|---|
| in EUR m | 2025 | 2024 |
| **Jan. 1** | **47.1** | **50.2** |

3.49 Property, plant and equipment

Impairment losses of EUR 22.1 million were recognized in the reporting period. Of this total, property, plant and equipment at a site in the Brenntag Essentials APAC segment accounted for EUR 13.1 million due to the unfavorable earnings prospects expected in the region. In addition, impairment losses of EUR 9.0 million were recognized on property, plant and equipment in the context of realigning the site network. In the previous year, impairment losses of EUR 10.8 million related to the property, plant and equipment of Raj Petro Specialties Pvt. Ltd. an Indian entity disposed of in the BES APAC segment.

Assets under construction decreased by EUR 37.3 million to EUR 113.9 million (Dec. 31, 2024: EUR 151.2 million). The change in assets under construction is due mainly to transfers of EUR 199.1 million (Dec. 31, 2024: EUR 175.5 million), impairment losses of EUR 8.7 million (Dec. 31, 2024: EUR 0.1 million) and foreign exchange losses of EUR 8.2 million (Dec. 31, 2024: foreign exchange gains of EUR 2.4 million), which were set against investments of EUR 179.5 million made in the financial year (Dec. 31, 2024: EUR 179.9 million).

3.50 Intangible assets

The goodwill and the "Brenntag" trademark are assets with an indefinite useful life. They are tested regularly, at least annually, for impairment after completion of the annual budget process. The carrying amount of the "Brenntag" trademark is EUR 196.9 million as in the previous year.

The Brenntag Group is managed through two global divisions, Brenntag Specialties (BSP) and Brenntag Essentials (BES). Nutrition, Pharma, Beauty & Care, Material Science and Specialties Other were identified as groups of CGUs for the goodwill impairment test. Brenntag Essentials comprises the EMEA, North America, Latin America and APAC groups of CGUs, plus the "Transregional" segment comprising the international operations of BRENNTAG International Chemicals GmbH (BIC), which buys and sells chemicals in bulk on an international scale.

| in EUR m | Dec. 31, 2025 | Dec. 31, 2024 |
|---|---|---|
| Essentials EMEA | 436.4 | 454.5 |
| Essentials North America | 1,059.5 | 1,071.2 |
| Essentials Latin America | – | 77.4 |
| Essentials APAC | 7.3 | 59.1 |
| Essentials Transregional | 24.8 | 26.7 |
| Specialties Nutrition | 681.0 | 733.0 |
| Specialties Pharma | 244.4 | 254.0 |
| Specialties Beauty & Care | 275.2 | 308.9 |
| Specialties Material Science | 413.8 | 445.4 |
| Specialties Other | 14.7 | 15.8 |
| **Group** | **3,157.1** | **3,446.0** |

3.51 Goodwill by group of CGUs

Fair value less costs of disposal is taken as the recoverable amount. This amount is determined on the basis of a recognized company valuation model. The company valuation model is based on euro cash flow plans, which are in turn based on the five-year plan applicable at the date of the performance of the impairment test. The fair value thus determined is required to be classified into Level 3 of the IFRS 13 measurement hierarchy.

The cash flow forecasts for the impairment test of the financial year ended December 31, 2025 were derived from the budget for 2026 and the plan years 2027 to 2030. The growth rates are based on management's past experience, supplemented by external market data, Brenntag-specific changes in quantities and sales prices, the resulting gross profit and the trend in costs based on external macroeconomic data. These forecasts are in each case based on country-specific assumptions about the trend in key macroeconomic variables, such as gross domestic product, consumer prices, interest rate levels and nominal wages, and are derived or verified on the basis of external studies.

Due to the significant weakness in earnings and the reduction in long-term growth forecasts, an impairment test was performed for the cash-generating unit Essentials Latin America as at June 30, 2025. The fair value less costs of disposal determined was EUR 434.1 million (Level 3 of the fair value hierarchy).

The test resulted in an impairment loss of EUR 84.6 million in total. Of this, goodwill impairment losses accounted for EUR 79.5 million, impairment losses on customer relationships for EUR 3.1 million and impairment losses on right-of-use assets arising from leases for EUR 2.0 million.

In the course of the impairment test for the cash-generating unit Essentials APAC, a fair value less costs of disposal of EUR 268.0 million (Level 3 of the fair value hierarchy) was determined. As this is below the carrying amount of this cash-generating unit, a goodwill impairment loss was recognized in the amount of EUR 58.9 million. The impairment loss is due to the unfavorable earnings prospects expected in the region, partly in light of the ongoing geopolitical uncertainty between the U.S. and China.

In the detailed planning period from 2026 to 2030, the average gross profit growth rates (CAGR) of the cash-generating units of Brenntag Specialties and Brenntag Essentials are between 2.2% and 2.8% (Dec. 31, 2024: between 2.1% and 11.0%).

After the, in some cases, much higher growth rates in the years 2026 to 2030 (detailed planning period), the planned growth rates for the period from 2031 (2024: from 2030) onwards are as follows:

| Growth rates in % | 2025 | 2024 |
|---|---|---|
| Essentials EMEA | 1.25 | 1.25 |
| Essentials North America | 1.25 | 1.25 |
| Essentials Latin America | 1.25 | 1.75 |
| Essentials APAC | 1.25 | 1.75 |
| Essentials Transregional | 1.25 | 1.25 |
| Specialties Nutrition | 1.25 | 1.25 |
| Specialties Pharma | 1.25 | 1.25 |
| Specialties Beauty & Care | 1.25 | 1.25 |
| Specialties Material Science | 1.25 | 1.25 |
| Specialties Other | 1.25 | 1.25 |

3.52 Growth rates by group of CGUs

The WACC of the groups of CGUs used to discount the cash flows thus determined is based on a risk-free interest rate of 3.25% (2024: 2.60%) and a market risk premium of 6.00% (2024: 6.75%). The beta factor used and the capital structure are derived from a peer group. Furthermore, region-specific tax rates and country risk premiums are used.

| WACC in % | 2025 | 2024 |
|---|---|---|
| Essentials EMEA | 7.8 | 8.1 |
| Essentials North America | 7.8 | 8.0 |
| Essentials Latin America | 9.7 | 10.2 |
| Essentials APAC | 8.1 | 8.2 |
| Essentials Transregional | 7.6 | 7.9 |
| Specialties Nutrition | 8.1 | 8.3 |
| Specialties Pharma | 7.9 | 8.1 |
| Specialties Beauty & Care | 8.2 | 8.3 |
| Specialties Material Science | 8.1 | 8.3 |
| Specialties Other | 7.9 | 8.2 |
| **Group** | **8.0** | **8.1** |

3.53 WACC by group of CGUs

Sensitivity analyses for cash flow forecasts, growth rates and the WACC taken as a basis are outlined in the section “Assumptions and estimates”.

## 20.) Leases

Right-of-use assets arising from leases changed as follows:

| in EUR m | Rights to use land and buildings | Rights to use vehicles | Other right-of-use assets | **Total** |
|---|---|---|---|---|
| **Cost** | | | | |
| **Dec. 31, 2023** | **477.8** | **263.7** | **88.0** | **829.5** |

| Exchange rate differences | -20.5 | -10.8 | -1.8 | -33.1 |
| Depreciation | 76.4 | 58.0 | 21.0 | 155.4 |
| Impairment | 2.5 | - | - | 2.5 |
| Disposals | -51.9 | -63.4 | -25.6 | -140.9 |
| Transfers | -4.1 | -14.3 | 3.9 | -14.5 |
| **Dec. 31, 2025** | **262.7** | **119.3** | **48.8** | **430.8** |
| Carrying amounts at Dec. 31, 2024 | 341.1 | 171.1 | 84.0 | 596.2 |
| **Carrying amounts at Dec. 31, 2025** | **278.7** | **130.6** | **100.8** | **510.1** |

3.54 Right-of-use assets

Extension options in the amount of EUR 73.9 million (Dec. 31, 2024: EUR 83.9 million) were not included in the measurement of the right-of-use assets and lease liabilities, as it is not reasonably certain at the present time that they will be exercised. There were no purchase options as at December 31, 2025 (Dec. 31, 2024: EUR 1.3 million). The extension options relate mainly to rights to use land and buildings, while the purchase options related mainly to rights to use vehicles.

In connection with goodwill impairment at Brenntag Essentials Latin America, right-of-use assets from leases were written down for impairment by EUR 2.0 million.

The following lease expenses were recognized in profit or loss:

| in EUR m | 2025 | 2024 |
|---|---|---|
| Lease expense relating to short-term leases | -36.6 | -38.7 |
| Lease expense relating to variable lease payments | -19.3 | -13.4 |
| Lease expense relating to leases of low-value assets | -1.4 | -1.4 |
| Lease expense – not within the scope of IFRS 16 | -12.0 | -15.7 |
| Lease expense – intangible assets | -33.0 | -29.1 |
| **Total** | **-102.3** | **-98.3** |

3.55 Lease expenses

As at December 31, 2025, future lease commitments for short-term leases amounted to EUR 18.2 million (Dec. 31, 2024: EUR 18.0 million), for variable lease payments to EUR 12.8 million (Dec. 31, 2024: EUR 13.9 million) and for leases entered into but not yet commenced to EUR 10.3 million (Dec. 31, 2024: EUR 3.7 million).

Interest expense on lease liabilities amounts to EUR 26.5 million (Dec. 31, 2024: EUR 24.6 million). Total payments for leases amounted to EUR 279.4 million in 2025 (Dec. 31, 2024: EUR 229.6 million). Further information on lease liabilities is provided in the sections “Financial liabilities” and “Reporting of financial instruments”.

Impairment losses of EUR 2.0 million relate to property, plant and equipment in the BES Latin America segment. In the previous year, impairment losses of EUR 2.0 million related to the property, plant and equipment of Raj Petro Specialties Pvt. Ltd, an Indian entity disposed of in the BES APAC segment.

## 21.) Equity-accounted investments

Equity-accounted investments changed as follows:

| in EUR m | Investments in associates |
|---|---|
| **Dec. 31, 2023** | **6.0** |
| Exchange rate differences | -0.1 |
| Net income from equity-accounted investments | 0.1 |

| **Net financial liabilities** | | | **2,793.0** |

3.58 Financial liabilities / Dec. 31, 2024

The most important component in Brenntag's financing structure is the Group-wide syndicated loan agreement. As at December 31, 2025, the euro equivalent of the credit facility was EUR 1.4 billion. The syndicated loan originally had a term running until February 2028, which has now been extended until February 2030 through two extension options.

It is based on variable interest rates with margins depending on the credit rating, and is divided into two revolving credit facilities – one credit facility in the amount of EUR 1.0 billion and a USD credit facility in the amount of USD 525.0 million (equivalent in euros as at Dec. 31, 2025: EUR 446.8 million). To a small extent, the margin is also linked to the achievement of certain Brenntag Group sustainability targets.

As at December 31, 2025, Brenntag had no outstanding liabilities under the syndicated loan. A very small amount of the EUR 1 billion credit facility had been drawn down for bank guarantees. The USD credit facility was entirely unutilized as at December 31, 2025. Both credit facilities are available for further drawdowns at any time. Other liabilities to banks included accrued transaction costs on the syndicated loan amounting to EUR 3.1 million as at December 31, 2025 (Dec. 31, 2024: EUR 3.9 million).

While some subsidiaries are direct borrowers under the loan, others obtain their financing from intra-Group loans. The syndicated loan is guaranteed by Brenntag SE.

At the end of August 2022, Brenntag SE placed promissory notes with a nominal value of around EUR 640.0 million. These were issued at the nominal amount. Alongside five euro-denominated tranches with a total nominal value of EUR 390.0 million, the company also issued two U.S. dollar-denominated tranches with a total nominal value of around EUR 250.0 million. The seven tranches have original tenors of three, five and seven years and are due for repayment on August 29 and 30 of the respective year.

The two floating-rate tranches in the amount of EUR 60.0 million and USD 70.0 million (equivalent in euros at the repayment date: EUR 64.5 million) maturing in 2025 were repaid ahead of schedule in 2024.

Three tranches carry floating interest rates, while two (euro) tranches have a fixed interest rate over the respective term. Interest payments are made quarterly for the floating-rate tranches in U.S. dollars, semi-annually for the floating-rate euro-denominated tranches, and annually for the fixed-rate euro-denominated tranches.

The liabilities under the promissory notes break down as follows:

| in EUR m | Remaining term | Interest rate p.a. above EURIBOR / SOFR or fixed rate | **Dec. 31, 2025** |
|---|---|---|---|
| Currency | | | |
| EUR | Aug. 30, 2027 | +1.000 pc points | 175.0 |

3.60 Liabilities under promissory notes / Dec. 31, 2024

The Bond 2028 issued in April 2024 in the amount of EUR 500.0 million matures in 2028 and carries an annual coupon of 3.750%.

The Bond 2029 issued in October 2021 in the amount of EUR 500.0 million matures in 2029 and carries an annual coupon of 0.50%.

The Bond 2031 issued in October 2025 in the amount of EUR 600.0 million matures in 2031 and carries an annual coupon of 3.375%.

The Bond 2032 also issued in April 2024 in the amount of EUR 500.0 million matures in 2032 and carries an annual coupon of 3.875%.

All bonds were issued by the Group company Brenntag Finance B.V., Amsterdam, Netherlands.

The four above-mentioned bonds were all issued under the debt issuance program newly established in 2021.

The Bond 2025 was repaid in financial year 2025.

Other financial liabilities of EUR 55.1 million (Dec. 31, 2024: EUR 136.0 million) consist mainly of liabilities in connection with business combinations.

## 24.) Other liabilities

| Transferred | - | - | - | - | - |
| **Dec. 31, 2025** | **105.6** | **34.7** | **159.6** | **33.8** | **333.7** |

3.62 Change in other provisions

Other provisions have the following maturities:

| in EUR m | Environmental provisions | Provisions for personnel expenses | Provisions for compensation payable, and for legal proceedings and disputes | Miscellaneous provisions | **Dec. 31, 2025** | Environmental provisions | Provisions for personnel expenses | Provisions for compensation payable, and for legal proceedings and disputes | Miscellaneous provisions | **Dec. 31, 2024** |
|---|---|---|---|---|---|---|---|---|---|---|
| 1 year or less | 15.0 | 14.1 | 40.9 | 19.0 | 89.0 | 13.5 | 27.5 | 33.4 | 20.4 | 94.8 |
| 1 to 5 years | 43.5 | 16.3 | 63.0 | 8.7 | 131.5 | 41.7 | 8.2 | 109.8 | 6.9 | 166.6 |
| more than 5 years | 47.1 | 4.3 | 55.7 | 6.1 | 113.2 | 59.0 | 6.4 | 19.2 | 9.0 | 93.6 |
| **Total** | **105.6** | **34.7** | **159.6** | **33.8** | **333.7** | **114.2** | **42.1** | **162.4** | **36.3** | **355.0** |

3.63 Maturity of other provisions

### Environmental provisions

The recognition and measurement of environmental provisions are coordinated centrally by external independent experts. The provision amounts are determined on the basis of individual cost estimates for each case. Allowance is made not only for the nature and severity of pollution but also for the conditions at the respective sites and the sovereign territories in which these sites are located.

Environmental provisions are stated at their present values. They are discounted at maturity-dependent, risk-free interest rates for the respective functional currencies. Increases in the future expenditure due to inflation are allowed for. The discount rates for environmental provisions range from 0.1% to 13.6%, depending on the currency (Dec. 31, 2024: from 0.2% to 14.1%).

As at December 31, 2025, environmental provisions total EUR 105.6 million (Dec. 31, 2024: EUR 114.2 million). They mainly relate to the rehabilitation of soil and ground water for current and former, owned and leased sites but also cover costs for further and accompanying measures such as necessary environmental inspections and observations. The provisions include EUR 20.2 million (Dec. 31, 2024: EUR 22.2 million) for contingencies for which a cash outflow is not likely but nevertheless possible. In line with the requirements of IFRS 3, these contingencies have entered the balance sheet largely through the purchase price allocation in connection with the acquisition of the Brenntag Group by funds advised by BC Partners Limited, Bain Capital, Ltd. and subsidiaries of Goldman Sachs International at the end of the third quarter of 2006.

Due to the nature and the large number of parameters which have to be considered when determining environmental provisions, there are uncertainties in their measurement. This applies both to the amount and the timing of future expenditure. However, based on the information available at the time of preparation of the financial statements, it can be assumed that the environmental provisions are reasonable and any additional amounts incurred would not have any material effect on the net assets, financial position and results of operations of the Group.

In some cases, special agreements have been reached which ensure that the cost of any future environmental work necessary will be borne by third parties. If receipt of payment from the third party is virtually certain provided Brenntag meets its obligations, these claims to reimbursement are recognized. They are generally measured in the same way as the corresponding provisions. The amount recognized does not exceed the amount of the provision. The claims to reimbursement recognized as at December 31, 2025 amount to EUR 8.9 million (Dec. 31, 2024: EUR 7.9 million).

## Provisions for personnel expenses

Provisions for personnel expenses primarily contain obligations arising from future variable and individual one-time payments, payments in connection with employee long-service anniversary bonuses, early retirement regulations and pre-retirement part-time work compensation. Provisions for virtual share-based remuneration programs are also presented under this item. These programs are long-term bonus systems for members of the Board of Management of Brenntag SE, on the one hand, and for executives and senior managers of the Brenntag Group, on the other.

**Long-term virtual share-based remuneration programs for the members of the Board of Management and Long-Term Incentive Plans for Executives and Senior Managers (LTI Plans)**
Details of the long-term, variable remuneration for the members of the Board of Management are provided in the section “Related parties”.

In 2024, an LTI Plan was set up for selected executives and senior managers of the Brenntag Group. This comprises long-term variable remuneration in the form of virtual shares (performance share units). The number of virtual shares may increase or decrease, depending on Brenntag’s long-term performance measured over a three-year performance period. The performance share plan is structured as described in the following.

The number of virtual shares initially awarded is calculated by dividing the individual and contractually agreed target amount by the arithmetic mean of the Brenntag share closing prices in the Xetra trading system during the last three months before the start of the performance period. If the service agreement begins or ends during a financial year, the target amount for that financial year is calculated on a pro rata temporis basis.

The number of virtual shares finally awarded to the plan member is linked to three financial performance criteria and, via an ESG multiplier, to ESG targets. The three financial performance criteria are Brenntag’s total shareholder return (TSR) compared with a global peer group (weighting: 50%), return on capital employed (ROCE) (weighting: 25%) and organic operating EBITA (25%). The sum total of the weighted share awards for each performance criterion is multiplied by the achievement figure of specific ESG targets using an ESG multiplier that may be between 0.8 and 1.2. The resulting total share award is then multiplied by the number of virtual shares initially awarded, giving the number of virtual shares finally awarded to the plan member at the end of the three-year performance period. The number of virtual shares finally awarded is capped at 200%. The payout amount depends on Brenntag’s absolute share price performance in the three-year performance period and is calculated by multiplying the number of virtual shares finally awarded by the arithmetic mean of the Brenntag share closing prices in the Xetra trading system during the last three months before the end of the performance period, plus dividend payments during the performance period. The payout amount is capped at a maximum of 250% of the individual and contractually agreed target amount (Cap).

Personnel expenses of EUR 7.0 million were recognized for the virtual share-based remuneration programs (2024: income within personnel expenses of EUR 0.9 million).

Provisions for share-based remuneration total EUR 9.6 million as at December 31, 2025 (Dec. 31, 2024: EUR 21.1 million) and disaggregate into the following maturities:

| in EUR m | Dec. 31, 2025 | Dec. 31, 2024 |
|---|---|---|
| 1 year or less | – | 18.7 |
| 1 to 5 years | 9.6 | 2.4 |
| **Total** | **9.6** | **21.1** |

3.64 Provisions for share-based remuneration

### Provisions for compensation payable and for legal proceedings and disputes

Provisions for current and likely litigation are established in those cases where reasonable estimates are possible. These provisions contain all estimated legal costs as well as the possible settlement costs. The amounts are based on information and cost estimates provided by lawyers (for details, please see the section "Legal proceedings and disputes").

### Miscellaneous provisions

Miscellaneous provisions primarily include provisions for dismantling obligations in the amount of EUR 16.7 million (Dec. 31, 2024: EUR 16.7 million).

## 26.) Provisions for pensions and other post-employment benefits

There are both defined contribution and defined benefit pension plans for the employees of the Brenntag Group. The pension obligations vary depending on the legal, tax and economic circumstances in the respective country and the employee's years of service with the company and pay grade.

### Defined contribution plans

A large number of the employees of the Brenntag Group will receive benefits from the statutory social insurance fund, into which the contributions are paid as part of their salary. In addition, various other pension fund commitments exist at the companies of the Brenntag Group. As the company has no further obligations after payment of the retirement pension contributions to the state social insurance fund and private insurance companies, these plans are treated as defined contribution plans. Current pension contribution payments are recognized as expense for the relevant period. In financial year 2025, pension expenses in the Brenntag Group for employer contributions to the statutory pension insurance fund and for non-statutory defined contribution plans amounted to a total of EUR 125.1 million (2024: EUR 116.6 million).

In the U.S., subsidiaries of the Brenntag Group pay into defined benefit plans maintained by more than one employer (termed multi-employer plans). These multi-employer defined benefit plans are accounted for in the consolidated financial statements as defined contribution plans because the information required to use defined benefit accounting is not available in a timely manner and in sufficient detail. Furthermore, there is no consistent and reliable basis for allocating the obligation, plan assets and cost to individual participating employers, which is necessary for accounting for defined benefit plans in accordance with IAS 19.

If other participating employers do not meet their payment obligations, Brenntag may be liable for the obligations of those employers. Any potential withdrawal from the plans by an entity may lead to that entity having to offset the potential shortfall relating to its share of the plan. The funding level of the individual plans ranged from about 15% to 96% as at December 31, 2025 (about 15% to 100% as at December 31, 2024). Brenntag Group subsidiaries account for approximately 0.05% to 2.23% of the total contributions (2024: approximately 0.05% to 2.39%), depending on the plan. Withdrawal from all plans at the present time would lead to an estimated one-time expense of approximately EUR 44 million or approximately USD 50 million (2024: approximately EUR 49 million or approximately USD 53 million). It is not intended to withdraw from any of these plans at this time.

In financial year 2025, contributions of EUR 2.8 million or USD 3.2 million (2024: EUR 2.9 million or USD 3.1 million) were paid. The contributions are included in the above-mentioned contributions for non-statutory defined contribution plans. In 2026, the contributions are expected to amount to approximately EUR 2.9 million.

### Defined benefit plans

The defined benefit plans of the Brenntag Group are funded by provisions and largely covered by assets. The principal obligations (over 90% of the total volume) are in Switzerland, Germany, Canada and the Netherlands. The remaining obligations are spread over another eleven countries in the EMEA, Latin America and Asia Pacific segments.

#### Switzerland

In Switzerland, every employer is obliged by national law to set up a company retirement pension scheme. When determining the pension benefits, the minimum requirements of the Federal Law on Occupational Retirement, Surviving Dependents' and Disability Pensions (Bundesgesetz über die beruflichen Alters-, Hinterlassenen- und Invalidenvorsorge (BVG)) and the corresponding regulations are required to be observed.

The Swiss group company maintains a funded pension plan for its employees. The assets of this plan are held in two autonomous foundations. The foundation board is made up of equal numbers of employer and employee representatives. It is responsible for setting the investment strategy, for changes in the plan rules and in particular also for determining the financing of the pension benefits.

The pension benefits are based on the retirement assets accrued. The annual retirement credits and interest are credited to these retirement assets. On retirement, the insured person is obliged to take 30% of the accrued retirement assets in the form of a lump-sum payment and may choose whether to take the remaining 70% of the accrued retirement assets in the form of a life-long pension or another lump-sum payment. In addition to the retirement benefits, the pension benefits also include disability and surviving dependents' pensions. The insured person may also dispose of parts of their accrued retirement assets prematurely if this serves to improve their pension situation (for owner-occupied residential property). If there is a change of employer, the retirement assets are transferred to the pension scheme of the new employer.

The employee and employer contributions are set by the foundation board. According to the BVG, the employer pays at least 50% of the necessary contributions. In the case of Brenntag Schweizerhall AG, the employer pays some 70% of the contributions in accordance with the rules of the plan.

As the contributions to the pension plan that the employees in Switzerland pay are based on formal rules, the risk distribution between employee and employer is taken into account when measuring the obligation. In the case of Brenntag Schweizerhall AG, this leads to an only minor reduction in the present value of the benefit obligation.

**Germany**

The German group companies have retirement pension plans which are based on contractual provisions or works agreements.

The Employee Pension Plan 2000/2012 (Mitarbeiter Vorsorgeplan 2000/2012) is a pension plan funded by the employer. The employer awards an annual pension contribution of between EUR 250 and EUR 500 depending on length of service, which is converted into pension modules. The amount of the benefits depends on the pension modules accrued before retirement.

The Pension Scheme 2000/2012 for Executives (Leistungsordnung 2000/2012 für Führungskräfte) of the German Brenntag companies is a pension plan for executives funded by the employer in the form of individual commitments. The annual pension contribution depends on the pensionable remuneration (basis of assessment). The annual basis of assessment is the sum total of the fixed remuneration, Christmas and vacation allowances and bonuses but no more than three times the contribution assessment limit for the statutory pension system. The pension contribution is a maximum of 4% of the basis of assessment up to the contribution assessment limit plus a maximum of 10% for parts exceeding the contribution assessment limit. The annual pension contributions are converted into pension modules. The amount of the benefits depends on the pension modules accrued before retirement.

All employees have the option to convert pay components into an entitlement to pension benefits within the meaning of the German Company Pension Act (Betriebsrentengesetz (BetrAVG)) by participating in the Pension Plan Through Employee-funded Pension Commitments (Vorsorgeplan über mitarbeiterfinanzierte Versorgungszusagen). The annual pension contribution for participating employees is between at least EUR 250 and a maximum of 4% of the contribution assessment limit for the statutory pension system (Section 1a BetrAVG). The company also pays an additional pension allowance of 15% to the converted amount provided that the pension contribution comes from remuneration subject to statutory pension insurance contributions. Furthermore, through the Deferred Compensation Plan (DCP), employees have the option to convert pay components into an entitlement to pension benefits. The converted employee contributions are protected by pension liability insurance pledged to the employee who is entitled to the pension. With both employee-funded plans, the employees must decide every year on the pension contribution they wish to make.

In addition to the retirement benefits, the pension benefits also include surviving dependents' pensions and – except in the case of the Deferred Compensation Plan (DCP) – disability benefits.

The Pension Scheme 2000/2012 for Executives (Leistungsordnung 2000/2012 für Führungskräfte) is a pure retirement pension plan with a monthly life-long pension. With the other pension plans, the pension benefit is paid out as a lump sum or as an annual capital instalment spread over a maximum of five years or as a life-long pension.

Furthermore, in Germany, Brenntag still has isolated retirement and disability pension commitments under pension plans set up in the past. These commitments depend on the years of service and the pay grades of the respective employees. They are mainly commitments involving monthly pension payments.

**Canada**

In Canada, Brenntag maintains an employer-funded pension plan with a life-long monthly pension for employees who joined the company before December 31, 2011. The basis of assessment for calculating the annual pension is 1% of the average salary of the three highest annual salaries of the beneficiary multiplied by the number of years of service. In addition to the retirement benefits, the pension benefits include disability and surviving dependents' pensions.

The plan participants in the employer-funded pension plan who are under 50 or who have less than 15 years of service or less than 55 points (sum of age and years of service) must pay into a defined contribution plan newly set up in 2014 in order to continue to build up their retirement pension. Employer and employee pay equal portions of the contributions. The entitlements accrued up to the date of transition remain in place.

For employees in Canada who joined the company up to and including May 31, 2013, there is an employer-funded supplementary medical cost plan in retirement as well as a life insurance payout of CAD 5,000 on retirement. As this plan has the characteristics of a pension, it is classified under pensions and other post-employment benefits.

**Netherlands**
Company pension systems play a prominent role in the Netherlands as the pay-as-you-go statutory pension scheme only provides a basic pension.

The companies maintain a funded retirement plan for their employees. When there is a change of employer, the credit balance from the plan assets can be transferred to the pension scheme of the new employer or remains in the previous company's pension scheme. About 20% of the retirement pension plan is funded by the employee and about 80% by the employer. Depending on the employer's commitment, the basis of assessment for calculating the annual pension is the last salary before the employee reaches retirement age or the average salary over the employee's active career before reaching retirement age. The amount calculated from the basis of assessment is multiplied by the years of service. The retirement pension plan is a pure pension plan with a lifelong monthly pension. In addition to the retirement benefits, the pension benefits include disability and surviving dependents' pensions.

**Risks arising from defined benefit pension plans**
Brenntag is exposed to risks arising from the plans. An increase in life expectancy, an increase in salaries and the adjustment of pensions in line with inflation as required by law in Germany, or an increase in medical costs in Canada, would lead to higher cash outflows and, in combination with falling discount rates, in each case to higher present values of the defined benefit obligation.

There is investment risk in Switzerland primarily with regard to the proportion of the plan assets invested in shares. There is no investment risk in Germany or the Netherlands as the plan assets consist solely of insurance policies. In Canada, the plan assets consisting of external fund shares are in principle exposed to investment risk. In order to minimize this risk, the plan assets in Canada are subject by law to an audit every three years to establish whether the assets invested are sufficient to fund the pension obligations.

## Actuarial parameters applied

The plan assets are measured at fair value. The calculation of the present value of the benefit obligations is based on the following main actuarial parameters. When several countries are grouped together, the values are average values weighted by the present value of the respective benefit obligation:

| in % | | Switzerland | Germany | Canada | Netherlands | Other countries | **Weighted** |
|---|---|---|---|---|---|---|---|
| Discount rate | **2025** | **1.30** | **4.00** | **4.90** | **4.00** | **4.21** | **3.27** |
| | 2024 | 0.95 | 3.40 | 4.70 | 3.40 | 4.11 | 2.85 |
| Expected salary trend | **2025** | **1.35** | **2.50** | **3.25** | **2.00** | **3.74** | **2.25** |
| | 2024 | 1.35 | 2.50 | 3.25 | 2.00 | 3.93 | 2.27 |
| Expected pension trend | **2025** | **0.35** | **2.00** | **-** | **-** | **2.21** | **0.92** |
| | 2024 | 0.35 | 2.00 | 2.00 | 2.00 | 2.61 | 1.51 |
| Medical cost trend | **2025** | | | **5.12** | | | **5.12** |
| | 2024 | | | 5.21 | | | 5.21 |

3.65 Actuarial parameters applied

Due to the fall in inflation, an additional valuation premium was no longer recognized in connection with future pension adjustments in Germany as at December 31, 2025 (Dec. 31, 2024: 2.32%). Pension obligations are again being measured under the method applied before the period of heightened inflation, assuming an annual pension adjustment of 2.00% as at July 1 of each year. Therefore, there were no material effects of reflecting the pension adjustment status as at December 31, 2025 (Dec. 31, 2024: EUR 0.2 million).

With respect to life expectancy, the Heubeck 2018 G mortality tables (generational tables) are taken as a basis in Germany. The BVG 2020 generational mortality tables are used in Switzerland. We use the "Prognosetafel AG2024" table in the Netherlands and the "CPM-2014Priv generational mortality table" in Canada.

## Provisions for pensions and other post-employment benefits by country

| in EUR m | Switzerland | Germany | Canada | Netherlands | Other countries | **Dec. 31, 2025** |
|---|---|---|---|---|---|---|
| Present value of the defined benefit obligation | 116.7 | 119.1 | 51.9 | 47.8 | 24.0 | 359.5 |

| Effect of the asset ceiling | 15.2 | – | – | – | – | 15.2 |
| **Provisions for pensions and other post-employment benefits - net** | **-0.0** | **92.7** | **4.6** | **3.4** | **18.9** | **119.6** |
| of which assets recognized | – | – | 4.4 | – | 0.3 | 4.7 |
| **Provisions for pensions and other post-employment benefits recognized in the balance sheet** | **-0.0** | **92.7** | **9.0** | **3.4** | **19.2** | **124.3** |

3.66 Provisions for pensions and other post-employment benefits by country / Dec. 31, 2025

| in EUR m | Switzerland | Germany | Canada | Netherlands | Other countries | **Dec. 31, 2024** |
|---|---|---|---|---|---|---|
| Present value of the defined benefit obligation | 124.7 | 124.4 | 57.5 | 53.2 | 26.6 | 386.4 |
| Fair value of plan assets | -134.7 | -26.4 | -52.2 | -47.9 | -5.5 | -266.7 |
| Effect of asset ceiling | 10.0 | – | – | – | – | 10.0 |
| **Provisions for pensions and other post-employment benefits - net** | **0.0** | **98.0** | **5.3** | **5.3** | **21.1** | **129.7** |
| of which assets recognized | – | – | 5.4 | – | – | 5.4 |
| **Provisions for pensions and other post-employment benefits recognized in the balance sheet** | **0.0** | **98.0** | **10.7** | **5.3** | **21.1** | **135.1** |

3.67 Provisions for pensions and other post-employment benefits by country / Dec. 31, 2024

Pension obligations, plan assets and provisions for pensions and other post-employment benefits recognized in the balance sheet changed as follows:

### Change in the present value of the defined benefit obligations

| in EUR m | 2025 | 2024 |
|---|---|---|
| Present value of pension obligations at the beginning of the period | 386.4 | 379.8 |
| Exchange rate differences | -4.0 | -2.4 |
| Business combinations | - | 1.8 |
| Transfers | - | -1.1 |
| Utilized | -24.5 | -15.4 |
| Service cost | | |
| Current service cost | 9.3 | 10.3 |
| Past service cost | -0.1 | -0.1 |
| Employee contributions | 1.7 | 1.7 |
| Interest expense on the present value of the obligation | 10.6 | 10.8 |
| Settlements | - | -0.1 |
| Remeasurement components | | |
| Change in economic assumptions | -20.7 | 2.5 |
| Experience adjustments | 0.8 | -1.4 |
| **Present value of pension obligations at the end of the period** | **359.5** | **386.4** |

3.68 Change in the present value of the defined benefit obligations

The present value of pension obligations totaling EUR 359.5 million (Dec. 31, 2024: EUR 386.4 million) includes pension obligations for members of the Board of Management amounting to EUR 0.0 million (Dec. 31, 2024: EUR 0.0 million) and for former members of the Board of Management amounting to EUR 13.6 million (Dec. 31, 2024: EUR 8.0 million).

The decrease in pension obligations attributable to the change in economic assumptions of EUR -20.7 million is due mainly to the discount rates being higher than at December 31, 2024 in all currency areas. The rates can be found in the table "Actuarial parameters applied".

### Change in the fair value of plan assets

| in EUR m | 2025 | 2024 |
|---|---|---|
| Fair value of plan assets at the beginning of the period | 266.7 | 266.9 |
| Exchange rate differences | -2.7 | -3.0 |
| Transfers | - | -0.8 |
| Utilized | -18.2 | -10.1 |
| Employer contributions | 5.9 | 6.0 |
| Administrative costs for plan assets | -0.4 | -0.4 |
| Employee contributions | 1.7 | 1.7 |
| Interest income on plan assets | 6.2 | 6.7 |
| Settlements | - | -0.2 |
| Remeasurement components | -4.1 | -0.1 |
| **Fair value of plan assets at the end of the period** | **255.1** | **266.7** |

3.69 Change in the fair value of plan assets

### Change in the effect of the asset ceiling

| in EUR m | 2025 | 2024 |
|---|---|---|
| Asset ceiling at the beginning of the period | 10.0 | 14.7 |
| Exchange rate differences | 0.2 | -0.2 |
| Remeasurement components | 5.0 | -4.5 |
| **Asset ceiling at the end of the period** | **15.2** | **10.0** |

3.70 Change in the effect of the asset ceiling

The asset ceiling is the result of a surplus in the plans in Switzerland, which does not give rise to any economic benefits in the form of refunds or reductions in future contributions.

**Change in provisions for pensions and other post-employment benefits recognized in the balance sheet**

| in EUR m | 2025 | 2024 |
|---|---|---|
| Provisions for pensions and other post-employment benefits at the beginning of the period | 129.8 | 127.6 |
| Exchange rate differences | -1.1 | 0.4 |
| Business combinations | - | 1.8 |
| Transfers | - | -0.3 |
| Utilized | -6.3 | -5.3 |
| Employer contributions | -5.9 | -6.0 |
| Current service cost | 9.3 | 10.3 |
| Past service cost | -0.1 | -0.1 |
| Administrative costs for plan assets | 0.4 | 0.4 |
| Net interest expense | 4.4 | 4.1 |
| Settlements | - | 0.1 |
| Remeasurement components | -10.9 | -3.3 |
| **Provisions for pensions and other post-employment benefits at the end of the period - net** | **119.6** | **129.7** |
| of which assets recognized | 4.7 | 5.4 |
| **Provisions for pensions and other post-employment benefits recognized in the balance sheet at the end of the period** | **124.3** | **135.1** |

3.71 Change in provisions for pensions and other post-employment benefits recognized in the balance sheet

Recognized provisions for pensions include EUR 8.5 million (Dec. 31, 2024: EUR 10.7 million) for the supplemental medical cost plan in Canada. Pension costs recognized in the income statement for obligations under defined benefit plans total EUR 14.0 million (2024: EUR 14.7 million). Net interest expense is presented within net finance costs. Current service cost and administrative costs for plan assets are presented within personnel expenses, where the amounts of past service cost and the amounts from settlements are also recognized.

The present values of the defined benefit obligations break down as follows into active members, former employees with vested rights and pensioners, split according to the payout method, resulting in the following weighted average duration of the defined benefit obligations:

| in EUR m | 2025 | 2024 |
|---|---|---|
| **Present value of the pension obligations funded by plan assets, of which:** | **257.0** | **277.8** |
| Active members with lump-sum payment | 15.0 | 15.5 |
| Active members with monthly pension | 81.1 | 97.8 |
| Active members with option to choose | 15.9 | 10.3 |
| Former employees with vested rights to lump-sum payment | 6.9 | 9.7 |
| Former employees with vested rights to monthly pension | 2.7 | 3.2 |
| Former employees with vested rights with option to choose | 5.3 | 14.9 |
| Pensioners with monthly pension | 130.1 | 126.4 |
| **Present value of the pension obligations not funded by plan assets, of which:** | **94.0** | **97.9** |
| Active members with lump-sum payment | 24.4 | 29.5 |
| Active members with monthly pension | 18.3 | 15.5 |
| Former employees with vested rights to lump-sum payment | 8.5 | 8.5 |
| Former employees with vested rights to monthly pension | 8.7 | 10.8 |
| Pensioners with lump-sum payment | 0.3 | - |
| Pensioners with monthly pension | 33.8 | 33.6 |
| **Medical cost plan** | **8.5** | **10.7** |
| **Present value of the pension obligations at the end of the period** | **359.5** | **386.4** |
| **Weighted average duration of the pension obligations in years** | **13** | **14** |

3.72 Breakdown of the present values of defined benefit obligations by members

The pension payments to be made by the company directly amount to EUR 6.3 million in 2025 (2024: EUR 5.3 million). From a present perspective, the cash outflow resulting from pension payments made by the company directly will remain at a level of EUR 10 to 11 million over the long term. The pension payments expected to be made by the company directly in 2026 total EUR 11.9 million.

The fair value of the plan assets disaggregates into the following asset classes:

| in EUR m | Switzerland | Germany | Canada | Netherlands | Other countries | **Dec. 31, 2025** |
|---|---|---|---|---|---|---|
| Shares | 19.9 | – | 4.5 | – | 4.5 | 28.9 |
| Fixed-interest securities | 14.8 | – | 42.5 | – | 0.4 | 57.7 |
| Insurance policies | 97.2 | 26.4 | – | 44.4 | 0.2 | 168.2 |
| Cash and cash equivalents | – | – | 0.3 | – | – | 0.3 |
| **Fair value of plan assets** | **131.9** | **26.4** | **47.3** | **44.4** | **5.1** | **255.1** |

3.73 Fair value of the plan assets by asset class / Dec. 31, 2025

| in EUR m | Switzerland | Germany | Canada | Netherlands | Other countries | **Dec. 31, 2024** |
|---|---|---|---|---|---|---|
| Shares | 22.0 | – | 8.0 | – | 4.5 | 34.5 |
| Fixed-interest securities | 14.2 | – | 43.8 | – | 0.7 | 58.7 |
| Insurance policies | 98.6 | 26.4 | – | 47.9 | 0.2 | 173.1 |
| Cash and cash equivalents | – | – | 0.4 | – | – | 0.4 |
| **Fair value of plan assets** | **134.8** | **26.4** | **52.2** | **47.9** | **5.4** | **266.7** |

3.74 Fair value of the plan assets by asset class / Dec. 31, 2024

The plan assets are solely for fulfilling the defined benefit obligations and constitute protection for pension entitlements, which is a legal requirement in some countries and is voluntary in other countries.

The structure of the plan assets is reviewed at regular intervals. All assets, which, in Brenntag's case, mainly consist of insurance policies, are tailored long-term to the amount and maturity of the pension commitments, taking investment risks and statutory regulations governing the investment of retirement assets into account.

Owing to the composition of the plan assets, investment risk at Brenntag is limited to securities traded in active markets (shares and fixed-interest securities). This part (2025: 33.6% of plan assets; 2024: 34.9% of plan assets) is subject to market fluctuations. All other assets are not traded in an active market.

The annual payments made into the plan assets, which, according to the plan rules, consist almost exclusively of obligatory payments, amount to EUR 5.9 million (2024: EUR 6.0 million). From a present perspective, the cash outflow resulting from contributions made by the company will remain at a level of EUR 6 million to EUR 7 million over the long term. Payments into plan assets for financial year 2026 are expected to total EUR 6.5 million.

The sensitivity analysis of the present value of the defined benefit obligation takes into account in each case the change in an assumption and the resulting effects on the defined benefit obligations, the other assumptions remaining the same as in the original calculation.

| in EUR m | **2025** | **2024** |
|---|---|---|
| Discount rate | | |
| Increase by 0.5 percentage points | –24.1 | –27.2 |
| Decrease by 0.5 percentage points | 26.6 | 29.7 |
| Expected salary trend | | |
| Increase by 0.5 percentage points | 4.3 | 4.5 |
| Decrease by 0.5 percentage points | –4.1 | –4.3 |
| Expected pension trend | | |
| Increase by 0.5 percentage points | 9.8 | 11.3 |
| Decrease by 0.5 percentage points | –6.3 | –10.7 |
| Medical cost trend | | |
| Increase by 0.5 percentage points | 0.6 | 0.7 |
| Decrease by 0.5 percentage points | –0.5 | –0.7 |

3.75 Sensitivity analysis of the present value of the defined benefit obligation

A 10% decrease in the mortality rates leads to an increase in life expectancy, depending on the individual age of each beneficiary. That means, for example, that the life expectancy of a 63-year-old employee as at December 31, 2025 increases by about one year. In order to determine the sensitivity of longevity, the mortality rates for the beneficiaries were reduced by 10%. If the mortality rates decreased by 10%, the present value of the defined benefit obligation would increase by EUR 8.4 million (2024: EUR 9.8 million).

## 27.) Liabilities relating to acquisition of non-controlling interests

Liabilities relating to the acquisition of non-controlling interests break down as follows:

| in EUR m | Dec. 31, 2025 | Dec. 31, 2024 |
|---|---|---|
| Liabilities relating to acquisition of non-controlling interests | 40.8 | 62.4 |
| Liabilities arising from limited partners' rights to repayment of contributions | 1.6 | 2.1 |
| **Total** | **42.4** | **64.5** |

3.76 Liabilities relating to acquisition of non-controlling interests

Liabilities relating to the acquisition of non-controlling interests consist mainly of liabilities of EUR 19.1 million (Dec. 31, 2024: EUR 24.7 million) relating to the acquisition of the remaining 30% of the shares in Shanghai Saifu Chemical Development Co., Ltd., which was acquired in financial year 2023, and liabilities of EUR 18.2 million (Dec. 31, 2024: EUR 28.9 million) relating to the acquisition of the remaining 49% of the shares in Trychem FZE.

EUR 19.1 million (Dec. 31, 2024: EUR 24.7 million) of liabilities relating to the acquisition of non-controlling interests have been included in net investment hedge accounting. Exchange rate-related changes in the liabilities included in net investment hedge accounting are recognized within equity in the net investment hedge reserve. Of the liabilities relating to the acquisition of non-controlling interests, EUR 19.1 million (Dec. 31, 2024: EUR 0.0 million) are current.

The effects of the change in liabilities relating to the acquisition of non-controlling interests recognized in profit or loss are presented in Note 7.).

## 28.) Equity

### Capital management

The aim of capital management at Brenntag is to optimally deploy the resources used to ensure the company's continued existence and, at the same time, to generate a reasonable return on capital – measured by ROCE – for the shareholders in line with market conditions.

In 2025, the Group generated ROCE of 12.9% (2024: 15.6%).

| in EUR m | 2025 | 2024 |
|---|---|---|
| Operating EBITA | 929.3 | 1,101.9 |
| Average carrying amount of equity | 4,491.9 | 4,499.1 |
| Average carrying amount of financial liabilities and lease liabilities | 3,403.2 | 3,211.1 |
| Average carrying amount of cash and cash equivalents | -681.9 | -648.4 |
| **ROCE[1)]** | **12.9%** | **15.6%** |
| **ROCE[1)] after special items** | **11.4%** | **14.0%** |

3.77 Determination of ROCE

[1)] ROCE stands for return on capital employed and is defined as EBITA / (the average carrying amount of equity plus the average carrying amount of financial liabilities less the average carrying amount of cash and cash equivalents). The average carrying amounts in the denominator are defined for a particular year as the arithmetic average of the amounts at each of the following five dates: the beginning of the year, the end of each of the first, second and third quarters, and the end of the year.

Brenntag monitors the appropriateness of borrowings inter alia through the ratio of net financial liabilities to operating EBITDA (leverage). Brenntag generally considers leverage of approximately 2x to be appropriate. As at December 31, 2025, the ratio was exactly at the target level of 2.0x. The marginal year-on-year increase in leverage is attributable to two opposite effects: On the one hand, Brenntag posted lower operating EBITDA compared with the previous year. On the other, the negative effect of this decline on leverage was almost fully offset by lower net debt.

| in EUR m | 2025 | 2024 |
|---|---|---|
| Non-current financial liabilities and lease liabilities | 3,065.0 | 2,606.9 |
| Current financial liabilities and lease liabilities | 260.8 | 949.4 |
| Cash and cash equivalents | -797.9 | -763.3 |
| Net financial liabilities | 2,527.9 | 2,793.0 |
| Operating EBITDA | 1,287.5 | 1,456.8 |
| **Net financial liabilities / operating EBITDA** | **2.0x** | **1.9x** |

3.78 Net financial liabilities / operating EBITDA

## Subscribed capital

As at December 31, 2025, the subscribed capital of Brenntag SE totaled EUR 144,385,372. The share capital is divided into 144,385,372 no-par value registered shares, each with a notional value of EUR 1.00.

According to article 7, para. 3 of the Articles of Association of Brenntag SE, any right of shareholders to certification of their shares is excluded to the extent permitted by law and that certification is not required under the rules of any stock exchange on which the share is admitted to trading. The company is entitled to issue share certificates embodying several shares (consolidated certificates). Pursuant to Section 67, para. 2 of the German Stock Corporation Act (AktG) in conjunction with Article 9, para. 1 (c) (ii) of Council Regulation (EC) No 2157/2001 on the Statute for a European company ("the SE Regulation"), only those persons recorded in the company's share register will be recognized as shareholders of Brenntag SE. For purposes of recording the shares in the company's share register, shareholders are required to submit to Brenntag SE the number of shares held by them, and, in the case of individuals, their name, address and date of birth, or in the case of legal entities, their company name, business address and registered offices. All shares confer the same rights and obligations. At the Annual General Meeting, each share has one vote and accounts for the shareholders' proportionate share in the net income of Brenntag SE. Excepted from this rule are any treasury shares held by Brenntag SE that do not entitle Brenntag SE to any membership rights. Brenntag SE does not currently have any treasury shares. The shareholders' rights and obligations are governed by the provisions of the German Stock Corporation Act (which apply to an SE as a European stock corporation by way of the reference to other relevant provisions contained in Article 9 of the SE Regulation), in particular by Sections 12, 53a ff., 118 ff. and 186 of the German Stock Corporation Act.

## Additional paid-in capital

The additional paid-in capital amounted to EUR 755.2 million as at December 31, 2025 (Dec. 31, 2024: EUR 755.2 million).

## Retained earnings

Retained earnings include cumulative profit after tax and the remeasurement component of the defined benefit pension plans including deferred taxes. Transactions with owners are also recognized here. The latter are effects of share purchases and sales which have no influence on existing control and are recognized in retained earnings.

As proposed by the Board of Management and the Supervisory Board, the Annual General Meeting of Brenntag SE on May 22, 2025 passed a resolution to pay a dividend of EUR 303,209,281.20 (2024: EUR 303,209,281.20). Based on 144.4 million shares, that is a dividend of EUR 2.10 (2024: EUR 2.10) per no-par value share entitled to a dividend.

The net income of Brenntag SE as at December 31, 2025 was EUR 200,716,766.75. After allowing for a withdrawal of EUR 73,615,440.05 from retained earnings, the distributable profit is EUR 274,332,206.80. At the Annual General Meeting on May 20, 2026, the Board of Management and the Supervisory Board will propose that the distributable profit of Brenntag SE amounting to EUR 274,332,206.80 be used to pay a dividend of EUR 1.90 per no-par value share entitled to a dividend.

## Other components of equity / non-controlling interests

Exchange rate differences include the inflation effect on equity of EUR 8.3 million in financial year 2025 (2024: EUR 9.1 million) arising on the application of IAS 29 (hyperinflation) in Türkiye.

Other components of equity comprise the cumulative gain / loss from exchange rate differences, the net investment hedge reserve and the cash flow hedge reserve.

The cumulative gain / loss from exchange rate differences contains the differences from the translation of the financial statements of foreign companies into the Group currency (euro), which are recognized in other comprehensive income. The foreign exchange losses of EUR 378.9 million recognized here in financial year 2025 (2024: foreign exchange gains of EUR 161.5 million) resulted primarily from the depreciation of the U.S. dollar against the euro.

Exchange rate differences from liabilities included in net investment hedge accounting are recognized within equity in the net investment hedge reserve.

The cash flow hedge reserve contains the effective portion of the cumulative fair value changes in derivative financial instruments included in cash flow hedge accounting.

Non-controlling interests comprise the shares of non-Group shareholders in the equity of consolidated entities. Non-controlling interests changed as follows:

| in EUR m | Subscribed capital, retained earnings and additional paid-in capital | Exchange rate differences | Non-controlling interests |
|---|---|---|---|
| **Dec. 31, 2023** | **53.8** | **-1.8** | **52.0** |

| **Dec. 31, 2025** | **38.5** | **-4.0** | **34.5** |

3.79 Change in non-controlling interests

Non-controlling interests consist mainly of non-controlling interests in Shanghai Saifu Chemical Development Co., Ltd (30%). Non-controlling interests decreased by EUR 20.5 million in the previous year due to the acquisition of the remaining shares in Zhongbai Xingye (33%) at the end of financial year 2024.

The assets, liabilities, sales and profit after tax (100%) are shown below:

| in EUR m | Saifu |
|---|---|
| **Assets** | |
| Current assets | 35.8 |
| Non-current assets | 54.8 |
| **Liabilities** | |
| Current liabilities | 8.9 |

## Powers of the Board of Management to issue or repurchase shares

### Authorization to create authorized capital

By resolution of the Annual General Meeting on June 9, 2022, the Board of Management was authorized, with the approval of the Supervisory Board, to increase the share capital of Brenntag SE on one or more occasions in the period to June 8, 2027 by a total of up to EUR 35,000,000 by issuing up to 35,000,000 new registered ordinary shares in return for cash contributions or contributions in kind. The shareholders shall generally be granted a subscription right. However, in certain cases the Board of Management is authorized, with the approval of the Supervisory Board, to exclude the shareholders' statutory subscription rights for one or more capital increases under the authorized capital. This shall apply, for example, if the capital increase is effected against cash contributions and the issue price of the new shares is not significantly lower than the stock market price of the shares of the same class and carrying the same rights already traded on the stock market at the time of final determination of the issue price within the meaning of Section 203, para. 1 and para. 2 and Section 186, para. 3, sentence 4 of the German Stock Corporation Act and the total pro rata amount of registered share capital represented by the new shares issued in accordance with this paragraph with exclusion of subscription rights pursuant to Section 186, para. 3, sentence 4 of the German Stock Corporation Act is not less than 10% of the registered share capital (simplified exclusion of subscription rights). The 10% threshold will be determined based on the share capital at the time the authorization becomes effective. If the share capital is lower at the time this authorization is exercised, that lower amount will apply.

The Board of Management shall decide on the further content of the share rights and the conditions of the issuance of shares with the approval of the Supervisory Board.

### Authorization to acquire and use treasury shares in accordance with Section 71, para. 1, no. 8 of the German Stock Corporation Act

By resolution of the Annual General Meeting on May 23, 2024, the Board of Management was authorized, with the approval of the Supervisory Board, to acquire treasury shares up to a total of 10% of the share capital. The shares acquired on the basis of this authorization, together with other shares in the company which Brenntag SE has already acquired and still holds, may at no time account for more than 10% of the respective registered share capital. The authorization may be exercised in whole or in part, once or several times. It took effect at the close of the Annual General Meeting on May 23, 2024 and shall be valid until May 22, 2029. If the shares are purchased on the stock exchange or through a multilateral trading facility within the meaning of Section 2, para. 6 of the German Stock Exchange Act (MTF), the purchase price (excluding incidental costs) may not be more than 10% higher or lower than the arithmetic mean of the share prices (closing auction prices of Brenntag SE shares in Xetra trading or a comparable successor system) on the Frankfurt Stock Exchange on the last five trading days prior to the purchase or the entering into an obligation to purchase. In the case of acquisition by means of a public purchase offer, Brenntag SE may either publish a formal offer or issue a public invitation to submit offers for sale. The purchase price offered (excluding incidental costs) or the limits of the purchase price range per share determined by Brenntag SE (excluding incidental costs) may not exceed or fall below the arithmetic mean of the share prices on the Frankfurt Stock Exchange on the last five trading days prior to the publication of the purchase offer or the invitation to submit offers by more than 10%. The authorization may be exercised for any purpose permitted by law. The Board of Management was authorized, with the approval of the Supervisory Board, to cancel the treasury shares acquired on the basis of the authorization pursuant to Section 71, para. 1, no. 8 of the German Stock Corporation Act without any further resolution by the Annual General Meeting. The cancelation may be limited to a portion of the shares acquired. The authorization to cancel shares may be exercised more than once. The cancelation of shares generally leads to a reduction in registered share capital. In derogation of this, the Board of Management may determine that the registered share capital shall remain unchanged and that instead the cancelation shall increase the proportion of the registered share capital represented by the remaining shares in accordance with Section 8, para. 3 of the German Stock Corporation Act. In this case, the Board of Management is authorized to adjust the indication of the corresponding number in the Articles of Association. Treasury shares may, under certain circumstances, also be used subject to exclusion of the shareholders' subscription rights existing in principle and in particular by way of simplified exclusion of subscription rights as specified above.

## Authorization to issue bonds and to create conditional capital

By resolution of the Annual General Meeting on June 9, 2022, the Board of Management was authorized ("Authorization 2022"), with the approval of the Supervisory Board, to issue holder or registered convertible bonds or bonds with warrants as well as profit participation rights or profit participating bonds with option or conversion rights on one or more occasions up to June 8, 2027 for a total nominal amount of up to EUR 2,000,000,000 with or without limited term ("Bonds") and to grant the holders or creditors of the Bonds option or conversion rights to up to 15,450,000 new Brenntag SE shares with a pro rata total amount of the registered share capital of up to EUR 15,450,000 in accordance with the respective option or convertible bond conditions or profit participation right or participating bond conditions ("Conditions") to be determined by the Board of Management. In order to grant shares to the holders or creditors of Bonds, the registered share capital was conditionally increased at the Annual General Meeting on June 9, 2022 by up to 15,450,000 no-par value registered shares conferring profit-sharing rights from the beginning of the financial year in which they were issued ("Conditional Capital 2022"); this equates to an increase in the registered share capital of up to EUR 15,450,000. The Bonds may, in addition to euros, also be issued in a foreign legal currency, subject to a limit of the corresponding equivalent value in euros, and by companies dependent on Brenntag SE or in which it holds a majority interest; in this case, the Board of Management was authorized, with the approval of the Supervisory Board, to assume the guarantee for the Bonds on behalf of Brenntag SE and to grant the holders of such Bonds option or conversion rights to Brenntag SE shares and to make other declarations and take other actions necessary for a successful issue. The issues of Bonds may be divided into partial Bonds each having equal rights. Bonds may only be issued against contribution in kind, provided that the value of the contribution in kind corresponds to the issue price and that this price is not significantly lower than the theoretical market value of the Bonds determined in accordance with recognized methods of financial mathematics.

The Board of Management is authorized, under certain circumstances and with the approval of the Supervisory Board, to exclude shareholders' subscription rights to the Bonds. However, with regard to the exclusion of subscription rights against cash payment, this authorization shall apply only provided that the shares issued to fulfil the option or conversion rights and / or in the case of fulfilment of the conversion obligation represent no more than 10% of the registered share capital (simplified exclusion of subscription rights). The 10% threshold will be determined based on the share capital at the time the authorization becomes effective. If the share capital is lower at the time this authorization is exercised, that lower amount will apply.

When convertible bonds, profit participation rights or profit participating bonds with conversion rights are issued, the holders are granted the right to exchange their Bonds for new Brenntag SE shares in accordance with the more detailed Conditions.

When bonds with warrants, profit participation rights or profit participating bonds with option rights are issued, one or more warrants shall be attached to each partial bond or each profit participation right or each participating bond, entitling the holder to subscribe for Brenntag SE shares in accordance with the more detailed Conditions.

New shares are issued at the option or conversion price to be set in accordance with the aforementioned resolution granting authorization.

## 29.) Consolidated cash flow statement disclosures

Net cash provided by operating activities of EUR 966.7 million (2024: EUR 906.6 million) was influenced by the decrease in working capital of EUR 121.6 million (2024: increase of EUR 45.8 million).

Of the net cash of EUR 410.2 million used in investing activities (2024: EUR 749.0 million), EUR 293.0 million comprised payments to acquire intangible assets and property, plant and equipment. Payments to acquire consolidated subsidiaries and other business units, in the amount of EUR 155.2 million, consisted mainly of payments to acquire all shares in Chem Tech Services, Inc., based in Levelland, Texas, U.S., and Química Delta S.A. de C.V. based in Teoloyucan, Mexico, which had already been acquired in the previous year.

Proceeds from the disposal of consolidated subsidiaries and other business units mainly include the proceeds from the divestment of Raj Petro. The assets and liabilities of Raj Petro were presented as assets held for sale and liabilities associated with those assets as at December 31, 2024.

The net cash outflow in 2025 resulting from business combinations has been determined as follows:

| in EUR m | |
|---|---|
| **Purchase price** | **98.4** |
| Less cash and cash equivalents acquired | –2.1 |
| Plus purchase price payments related to prior-year acquisitions | 58.9 |
| **Payments to acquire consolidated subsidiaries and other business units** | **155.2** |

3.82 Reconciliation of acquisition costs to payments to acquire consolidated subsidiaries and other business units

Net cash used in financing activities amounted to EUR 489.1 million (2024: net cash provided by financing activities of EUR 23.0 million). In addition to the EUR 303.2 million dividend payment to Brenntag shareholders, the main drivers were bank loans taken out and repaid as well as lease liabilities repaid. The net cash inflow and outflow arising on the repayment of the Bond 2025 and the placement of the Bond 2031, each in the amount of EUR 600 million, largely offset one another.

Financial liabilities changed as follows:

| in EUR m | **Dec. 31, 2024** | Net cash used in financing activities | Non-cash changes in lease liabilities | Business combinations in accordance with IFRS 3 | Exchange rate differences | Other | **Dec. 31, 2025** |

3.84 Change in financial liabilities in 2024

## 30.) Other financial obligations and contingent liabilities

As at December 31, 2025, purchase commitments in respect of property, plant and equipment amounted to EUR 7.4 million (Dec. 31, 2024: EUR 3.1 million) and, as in the previous year, had a remaining term of one year or less. Information on lease obligations as at December 31, 2025 can be found in the sections “Leases” and “Reporting of financial instruments”.

In connection with the elimination of environmental damage, as at December 31, 2025, there were contingent liabilities with a fair value of EUR 5.6 million (Dec. 31, 2024: EUR 6.4 million).

## 31.) Legal proceedings and disputes

Brenntag SE and individual subsidiaries have been named as defendants in various legal actions and proceedings arising in connection with their activities as a global group. In some cases, Brenntag is also the subject of investigations by the authorities. Brenntag cooperates with the relevant authorities and, where appropriate, conducts internal investigations regarding alleged wrongdoings with the assistance of in-house and external counsel.

The decision issued by the French Competition Authority in 2013 in relation to the allocation of customers and coordination of prices was set aside by a court of appeal due to procedural errors at the request of the French subsidiary BRENNTAG SA in February 2017. In December 2020, the court imposed a fine of EUR 47 million, which was payable immediately. BRENNTAG SA lodged an appeal against the decision, whereupon the paid fine was reimbursed in November 2023 and the proceedings referred back by the Cour de cassation (Court of cassation) for a further decision. With further steps expected to be taken by the French authorities responsible, a provision was recognized in the amount of the EUR 47 million reimbursement. In December 2025, after more than 20 years of investigation, the French Competition Authority dismissed complaints concerning whether BRENNTAG SA made illegal use of its market position. The decision is not yet final and non-appealable, and can be contested by the original complainants during the first quarter of 2026. Two civil liability actions that had been filed in connection with these investigations were rejected on the basis of this decision.

Given the number of legal disputes and other proceedings that Brenntag is involved in, it is possible that a ruling may be made against Brenntag in some of these proceedings. The company contests actions and proceedings where it considers it appropriate. Provisions are established for ongoing legal disputes on the basis of the estimated risk and, if necessary, with the help of external consultants. Predicting the outcome of such matters, particularly in cases in which claimants seek indeterminate compensation, entails considerable uncertainties. Any adverse decisions rendered in such cases could have a substantial impact on Brenntag's net assets, financial position and results of operations for a reporting period. However, Brenntag currently does not expect its net assets, financial position and results of operations to be materially affected.

In connection with the sale of talc and similar products, North American subsidiaries of the Brenntag Group are involved in court and out-of-court proceedings with end consumers and other parties. The resulting legal risks pertain in particular to product liability. In the lawsuits, the plaintiffs claim to have suffered damage to health as a result of contact with the products sold. In these proceedings, Brenntag has reached settlement agreements with some of the plaintiffs and their attorneys to resolve the legal disputes. In addition, compensation claims arising from product liability are being asserted against the Group in relation to the talc business of a U.S. company that was acquired as part of corporate transactions. Moreover, there are legal risks associated with potential, as-yet unknown cases, which the executive directors have commissioned an external assessor to investigate. The number of pending cases was approaching the prior-year level. Taking into account legal advisory costs, the expense amounted to EUR 32.2 million in financial year 2025. The underlying cases are continuously monitored and the provisions adjusted as and when necessary. In addition, Brenntag has taken measures to mitigate the risk and is asserting claims for compensation from third parties. Nevertheless, the possibility that these legal disputes will result in further significant adverse effects on the results of operations cannot be ruled out.

As a global company, Brenntag has to comply with the country-specific tax laws and regulations in each jurisdiction. Tax exposures could result in particular from current and future tax audits of German and foreign subsidiaries. We counter these risks by continuously improving the tax compliance management system in accordance with the criteria in auditing standard IDW PS 980 and gradually rolling out this system to other Group companies in Germany and abroad. Tax exposures are generally reflected in the balance sheet by recognizing provisions. We currently see nothing to indicate that we should expect significant new findings from the tax authorities or customs authorities that could lead to additional tax expenses.

# 32.) Reporting of financial instruments

## Carrying amounts and fair values by measurement category

The financial assets recognized in the balance sheet were allocated to the IFRS 9 measurement categories as follows:

| in EUR m | Dec. 31, 2025 | | | |
|---|---|---|---|---|
| Classes of financial assets: | At amortized cost | FVTPL[1)] | Total carrying amount | Fair value |
| Cash and cash equivalents | 797.9 | – | 797.9 | 797.9 |
| Trade receivables | 2,039.9 | – | 2,039.9 | 2,039.9 |
| Other receivables | 105.0 | – | 105.0 | 105.0 |
| Other financial assets | 18.2 | 12.5 | 30.7 | 30.7 |
| **Total** | **2,961.0** | **12.5** | **2,973.5** | **2,973.5** |

3.85 Classification of financial assets by measurement category / Dec. 31, 2025

[1)] Financial assets at fair value through profit or loss.

| in EUR m | Dec. 31, 2024 | | | |
|---|---|---|---|---|
| Classes of financial assets: | At amortized cost | FVTPL[1)] | Total carrying amount | Fair value |
| Cash and cash equivalents | 763.3 | – | 763.3 | 763.3 |
| Trade receivables | 2,282.5 | – | 2,282.5 | 2,282.5 |
| Other receivables | 101.0 | – | 101.0 | 101.0 |
| Other financial assets | 20.8 | 21.2 | 42.0 | 42.0 |
| **Total** | **3,167.6** | **21.2** | **3,188.8** | **3,188.8** |

3.86 Classification of financial assets by measurement category / Dec. 31, 2024

[1)] Financial assets at fair value through profit or loss.

The majority of the financial assets measured at amortized cost have remaining terms of one year or less. Their carrying amounts at the reporting date approximate their fair values.

Of the other receivables recognized in the balance sheet, EUR 190.4 million (Dec. 31, 2024: EUR 188.7 million) are excluded from the scope of IFRS 7. They are mainly receivables from value-added tax and other taxes, prepaid expenses and prepayments.

The classification and measurement of the financial liabilities recognized in the balance sheet are shown in the table below:

| in EUR m | Dec. 31, 2025 | | | |
|---|---|---|---|---|
| Classes of financial liabilities: | At amortized cost | FVTPL[1)] | Total carrying amount | Fair value |
| Trade payables | 1,498.3 | – | 1,498.3 | 1,498.3 |
| Other liabilities | 215.4 | – | 215.4 | 215.4 |
| Liabilities relating to acquisition of non-controlling interests | 42.4 | – | 42.4 | 42.7 |
| Financial liabilities | 2,773.9 | 10.5 | 2,784.4 | 2,726.0 |
| **Total** | **4,530.0** | **10.5** | **4,540.5** | **4,482.4** |

3.87 Classification of financial liabilities by measurement category / Dec. 31, 2025

[1)] Financial liabilities at fair value through profit or loss.

| in EUR m | Dec. 31, 2024 | | | |
|---|---|---|---|---|
| Classes of financial liabilities: | At amortized cost | FVTPL[1)] | Total carrying amount | Fair value |
| Trade payables | 1,661.6 | – | 1,661.6 | 1,661.6 |
| Other liabilities | 254.0 | – | 254.0 | 254.0 |
| Liabilities relating to acquisition of non-controlling interests | 64.5 | – | 64.5 | 70.3 |
| Financial liabilities | 2,893.1 | 45.9 | 2,939.0 | 2,874.7 |
| **Total** | **4,873.2** | **45.9** | **4,919.1** | **4,860.6** |

3.88 Classification of financial liabilities by measurement category / Dec. 31, 2024

[1)] Financial liabilities at fair value through profit or loss.

The majority of the trade payables and other liabilities measured at amortized cost have remaining terms of less than one year. Their carrying amounts at the reporting date therefore approximate their fair values. The fair values of the bonds measured at amortized cost under financial liabilities were determined using quoted or market prices in an active market (Level 1 of the fair value hierarchy). The fair values of the other financial liabilities measured at amortized cost were determined using the discounted cash flow method on the basis of inputs observable on the market (Level 2 of the fair value hierarchy). The fair values of the synthetic liabilities relating to the acquisition of non-controlling interests carried at amortized cost were determined on the basis of recognized company valuation models. The company valuation models are based on cash flow plans (Level 3 of the fair value hierarchy). The fair values of foreign exchange forwards and foreign exchange swaps are determined by comparing forward rates and discounted to present value (Level 2 of the fair value hierarchy).

The fair value of the cross-currency interest rate swaps is determined in two steps. First, the expected future cash flows are discounted using maturity-matched market interest rates according to the currency. In the second step, the cash flows discounted in foreign currency (U.S. dollar) are then translated into the reporting currency (EUR) at market exchange rates (Level 2 of the fair value hierarchy).

The fair value of a call option to acquire non-controlling interests is calculated from the intrinsic value and the time value of the option. The intrinsic value of the call option is calculated as the difference between the enterprise value and the strike price. The time value reflects the optionality of movements in the future strike price and the future enterprise value of the non-controlling interests. This is illustrated by way of a Monte Carlo simulation and the fair value of the option then determined (Level 3 of the fair value hierarchy).

Of the other liabilities recognized in the balance sheet, EUR 280.7 million (Dec. 31, 2024: EUR 315.7 million) are excluded from the scope of IFRS 7. They are mainly liabilities to employees, liabilities from value-added tax and other taxes, as well as deferred income.

The allocation of the financial assets and liabilities recognized in the balance sheet at fair value to the levels of the IFRS 13 fair value hierarchy is shown in the table below:

| in EUR m | | | | |
|---|---|---|---|---|
| Hierarchy level | Level 1 | Level 2 | Level 3 | **Dec. 31, 2025** |
| Financial assets at fair value through profit or loss | 1.4 | 1.1 | 10.0 | 12.5 |
| Financial liabilities at fair value through profit or loss | – | 8.6 | 1.9 | 10.5 |

3.89 Financial instruments according to fair value hierarchy / Dec. 31, 2025

| in EUR m | | | | |
|---|---|---|---|---|
| Hierarchy level | Level 1 | Level 2 | Level 3 | **Dec. 31, 2024** |
| Financial assets at fair value through profit or loss | 1.4 | 5.5 | 14.3 | 21.2 |
| Financial liabilities at fair value through profit or loss | – | 44.5 | 1.4 | 45.9 |

3.90 Financial instruments according to fair value hierarchy / Dec. 31, 2024

Liabilities resulting from contingent consideration arrangements of EUR 1.9 million (Dec. 31, 2024: EUR 1.4 million) relate to liabilities for contingent purchase prices payable in business combinations. The amount of the contingent purchase price component required to be recognized at fair value is contingent on the earnings achieved by the acquired business and is limited in both the lower (EUR 0.0 million) and the upper (EUR 10.6 million) range.

Liabilities resulting from contingent consideration arrangements changed as follows:

| in EUR m | **2025** | **2024** |
|---|---|---|
| **Jan. 1** | **1.4** | **5.4** |
| Exchange rate differences | 0.5 | –0.1 |
| Business combinations | – | 1.4 |
| Purchase price payments | – | –5.3 |
| **Dec. 31** | **1.9** | **1.4** |

3.91 Change in liabilities resulting from contingent consideration arrangements

The call option to acquire non-controlling interests was recognized in the amount of EUR 10.0 million (Dec. 31, 2024: EUR 14.3 million) on the basis of the mean of the Monte Carlo simulations. The minimum is EUR 0.0 million (Dec. 31, 2024: EUR 0.0 million) and the maximum EUR 34.6 million (Dec. 31, 2024: EUR 51.8 million).

The net gains / losses from financial assets and liabilities broken down into measurement categories are as follows:

| in EUR m | 2025 | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|
| | Interest | | | At fair value | | Currency translation | | | |
| Measurement category: | Income | Expense | Change in liabilities relating to acquisition of non-controlling interests and call optionrecognized in profit or loss | Gains | Losses | Gains | Losses | Impairments, net | **Net gain / loss** |
| Financial assets measured at amortized cost | 14.6 | – | – | – | – | 89.8 | –107.6 | –6.3 | –9.5 |
| Financial liabilities measured at amortized cost | – | –109.2 | 17.6 | – | – | 51.6 | –55.5 | – | –95.5 |
| FVTPL[1)] | – | –6.4 | –4.3 | 66.0 | –45.6 | – | – | – | 9.7 |
| **Total** | **14.6** | **–115.6** | **13.3** | **66.0** | **–45.6** | **141.4** | **–163.1** | **–6.3** | **–95.3** |

3.92 Net gains / losses from financial assets and liabilities / 2025

[1)] Financial assets and liabilities at fair value through profit or loss.

| in EUR m | 2024 | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|
| | Interest | | | At fair value | | Currency translation | | | |
| Measurement category: | Income | Expense | Change in liabilities relating to acquisition of non-controlling interests and call option recognized in profit or loss | Gains | Losses | Gains | Losses | Impairments, net | **Net gain / loss** |
| Financial assets measured at amortized cost | 19.0 | – | – | – | – | 125.2 | –108.2 | –1.6 | 34.4 |
| Financial liabilities measured at amortized cost | – | –110.8 | –21.0 | – | – | 64.0 | –107.1 | – | –174.9 |
| FVTPL[1)] | – | –7.3 | 7.0 | 51.5 | –41.1 | – | – | – | 10.1 |
| **Total** | **19.0** | **–118.1** | **–14.0** | **51.5** | **–41.1** | **189.2** | **–215.3** | **–1.6** | **–130.4** |

3.93 Net gains / losses from financial assets and liabilities / 2024

[1)] Financial assets and liabilities at fair value through profit or loss.

Of the interest expense on liabilities to third parties contained in interest expense, EUR 1.9 million (2024: EUR 2.0 million) is interest expense which is not part of the effective interest on financial liabilities measured at amortized cost.

With the exception of valuation allowances on trade receivables and other receivables, net gains and losses on subsequent measurement are presented within net finance costs.

## Offsetting of financial assets and liabilities

The gross amounts of financial assets and liabilities are offset on the basis of netting arrangements in the balance sheet as follows or they are subject to enforceable master netting arrangements or similar agreements that do not meet the requirements for offsetting in the balance sheet:

| in EUR m | Gross amounts of financial assets and liabilities | Offsetting | Carrying amounts in the balance sheet | Enforceable master netting arrangements and similar arrangements | **Dec. 31, 2025 Net amount** |
|---|---|---|---|---|---|
| Trade receivables | 2,041.8 | -1.9 | 2,039.9 | -2.4 | 2,037.5 |
| Other financial assets | 30.7 | - | 30.7 | -0.8 | 29.9 |
| Trade payables | 1,500.2 | -1.9 | 1,498.3 | -2.1 | 1,496.2 |
| Other liabilities | 496.1 | - | 496.1 | -0.3 | 495.8 |
| Financial liabilities | 2,784.4 | - | 2,784.4 | -0.8 | 2,783.6 |

3.94 Offsetting of financial assets and liabilities / Dec. 31, 2025

| in EUR m | Gross amounts of financial assets and liabilities | Offsetting | Carrying amounts in the balance sheet | Enforceable master netting arrangements and similar arrangements | **Dec. 31, 2024 Net amount** |
|---|---|---|---|---|---|
| Trade receivables | 2,290.8 | -8.3 | 2,282.5 | -3.3 | 2,279.2 |
| Other financial assets | 42.2 | -0.2 | 42.0 | -0.8 | 41.2 |
| Trade payables | 1,665.8 | -4.2 | 1,661.6 | -3.3 | 1,658.3 |
| Other liabilities | 574.0 | -4.3 | 569.7 | - | 569.7 |
| Financial liabilities | 2,939.0 | - | 2,939.0 | -0.8 | 2,938.2 |

3.95 Offsetting of financial assets and liabilities / Dec. 31, 2024

## Nature and extent of risks arising from financial instruments

According to IFRS 7, risks arising from financial instruments can typically be divided into currency risk, interest rate risk, credit risk and liquidity risk.

### Currency risk

Currency risks arise particularly when monetary items or contracted future transactions are in a currency other than the functional currency of a company. Overall, this results in a surplus of (partly intra-Group) monetary assets over liabilities of EUR 374.3 million as at December 31, 2025 (Dec. 31, 2024: EUR 431.5 million). Foreign exchange forwards, foreign exchange swaps and cross-currency interest rate swaps are used as hedging instruments. The notional amount of the hedges used was EUR –307.0 million as at December 31, 2025 (Dec. 31, 2024: EUR –350.5 million). The foreign exchange forwards and foreign exchange swaps used have maturities of less than one year and are not included in hedge accounting.

If the euro had been worth 10% more or less against all currencies as at December 31, 2025, translation of monetary items in foreign currency into the Group currency, the euro, allowing for the foreign exchange forward transactions and foreign exchange swaps still open on December 31, 2025, would have resulted in the following changes in net finance costs:

| | 2025 | | 2024 | |
|---|---|---|---|---|
| in EUR m | **+10%** | **–10%** | +10% | –10% |
| USD | –6.3 | 7.7 | –5.1 | 6.3 |
| GBP | –0.9 | 1.1 | 0.4 | –0.5 |
| PLN | 1.9 | –2.3 | –1.5 | 1.8 |
| Other currencies | –1.0 | 1.2 | 1.1 | –1.4 |
| **Total** | **–6.3** | **7.7** | **–5.1** | **6.2** |

3.96 Sensitivity analysis currency risk

The liability relating to the acquisition of non-controlling interests in Saifu is included in a net investment hedge in accordance with IFRS 9.6.5.2 (c). The hedged item is the share of the net assets of Saifu attributable to Brenntag. Exchange rate-related changes in the liabilities are recognized within equity in the net investment hedge reserve. An economic relationship exists in each case, as the hedging instrument and the hedged item have values that move in the opposite direction because of a change in the hedged currency risk. Any increase (decrease) in the Chinese yuan renminbi (CNY) against the euro leads to an increase (decrease) in the net assets and an increase (decrease) in the CNY-denominated liabilities. The effectiveness of the hedging relationships was determined at inception of the hedging relationships and is regularly determined on a retrospective basis to ensure that there is an economic relationship between the hedged item and the hedging instrument. There was no hedge ineffectiveness as at December 31, 2025. If the euro had been worth 10% more or less against the Chinese yuan renminbi (CNY) as at December 31, 2025, the net investment hedge reserve would have increased by EUR 1.9 million (Dec. 31, 2024: EUR 2.5 million) or decreased by EUR 1.9 million (Dec. 31, 2024: EUR 2.5 million).

| Net investment hedges at Dec. 31, 2025 | **Saifu** |
|---|---|
| Carrying amount of the portion of the liability relating to the acquisition of non-controlling interests included in the net investment hedge in EUR m | 19.1 |
| Carrying amount of the portion of the liability relating to the acquisition of non-controlling interests included in the net investment hedge in local currency (CNY m) | 157.4 |
| Hedge ratio | 1:1 |
| Hedge rate EUR / CNY | 7.5833 |
| Change in carrying amount (in net investment hedge reserve) | 1.9 |
| Change in value of hedged item used to determine hedge effectiveness | –1.9 |

3.97 Net investment hedges Dec. 31, 2025

| Net investment hedges at Dec. 31, 2024 | **Saifu** |
|---|---|
| Carrying amount of the portion of the liability relating to the acquisition of non-controlling interests included in the net investment hedge in EUR m | 24.7 |
| Carrying amount of the portion of the liability relating to the acquisition of non-controlling interests included in the net investment hedge in local currency (CNY m) | 187.0 |
| Hedge ratio | 1:1 |
| Hedge rate EUR / CNY | 7.8509 |
| Change in carrying amount (in net investment hedge reserve) | –0.9 |
| Change in value of hedged item used to determine hedge effectiveness | 0.9 |

3.98 Net investment hedges Dec. 31, 2024

In October 2021, Brenntag Finance B.V., Amsterdam, Netherlands, issued a EUR 500 million bond (Bond 2029). Brenntag Finance B.V. swapped most of the proceeds from the Bond 2029 for U.S. dollars by way of cross-currency interest rate swaps and passed them on to Brenntag North America, Inc., Reading, U.S., as an intra-Group loan. The intra-Group loan and the cross-currency interest rate swaps were included in cash flow hedge accounting so as to limit currency and interest rate risk in the consolidated financial statements.

Critical terms matching is used to assess the effectiveness of the hedging relationship. The economic relationship between hedged items and hedging instruments results from closely aligned terms. The cross-currency basis is not part of the hedging relationship and is recognized in a separate component of equity as a reserve for costs of hedging. The ineffective portions of the hedging relationship are determined using the hypothetical derivative method. They result mainly from counterparty risk and, if necessary, are recognized in profit or loss within net interest expense. In financial year 2025, this did not give rise to any effects in profit or loss (2024: no effects in profit or loss).

The following table shows the changes in equity resulting from the hedging relationship:

| in EUR m | Cash flow hedge reserve | Reserve for costs of hedging | Total | Deferred tax | Total cash flow hedge reserve |
|---|---|---|---|---|---|
| **Dec. 31, 2023** | **-4.5** | **4.3** | **-0.2** | **-** | **-0.2** |
| Changes in the fair value of hedging instruments and hedging costs | -20.3 | -3.6 | -23.9 | - | -23.9 |
| Reclassification to profit or loss | 36.9 | -0.8 | 36.1 | - | 36.1 |
| Deferred tax relating to those items | - | - | - | -3.1 | -3.1 |
| **Dec. 31, 2024** | **12.1** | **-0.1** | **12.0** | **-3.1** | **8.9** |
| Changes in the fair value of hedging instruments and hedging costs | 30.1 | 1.2 | 31.3 | - | 31.3 |
| Reclassification to profit or loss | -48.5 | -0.8 | -49.3 | - | -49.3 |
| Deferred tax relating to those items | - | - | - | 4.6 | 4.6 |
| **Dec. 31, 2025** | **-6.3** | **0.3** | **-6.0** | **1.5** | **-4.5** |

3.99 Change in cash flow hedge reserve

One significant component in the fair value measurement of the cross-currency interest rate swaps is the exchange rate of the underlying currencies (EUR / USD). As the exchange rate component – moving in the opposite direction to the hedged item – is designated as part of the hedging relationship, ceteris paribus, an assumed change in the exchange rate leads only to a change in the cash flow hedge reserve. If the euro had been worth 10% more or less against the U.S. dollar as at December 31, 2025, the cash flow hedge reserve would have decreased by EUR 1.7 million or increased by EUR 2.1 million (Dec. 31, 2024: decreased by EUR 3.6 million or EUR 0.9 million).

## Interest rate risk

Interest rate risks can occur due to changes in market interest rates. The risks result from changes in the fair values of fixed-rate financial instruments or from changes in the cash flows of variable-rate financial instruments.

Due to the four fixed-rate bonds and the partly fixed-rate promissory notes, approximately 84% of the Brenntag Group's financial liabilities were hedged against the risk of interest rate increases as at December 31, 2025 (Dec. 31, 2024: 80%). If the market interest rate as at December 31, 2025 had been 300 basis points (2024: 300 basis points) higher or lower (relative to the total amount of variable-rate financial liabilities as at December 31, 2025), the negative impact on net finance costs would have been EUR 14.8 million or the positive impact EUR 12.7 million (2024: negative impact of EUR 16.0 million or positive impact of EUR 16.0 million).

Interest rate-related fair value changes in the cross-currency interest rate swaps have no impact on net income for the financial year due to the agreed swap rates and hedge accounting. Conversely, the current difference between the euro market interest rate and the U.S. dollar market interest rate has a significant impact on the amount of the cash flow hedge reserve; as at December 31, 2025, the USD market interest rate was above the euro market interest rate. If the euro market interest rate as at December 31, 2025 had been 25 basis points higher or lower with the U.S. dollar market interest rate remaining unchanged, the cash flow hedge reserve would have decreased by EUR 3.7 million to EUR -9.7 million or increased by EUR 3.8 million to EUR -2.2 million (December 31, 2024: decreased by EUR 4.7 million to EUR 7.4 million or increased by EUR 4.7 million to EUR 16.8 million).

## Credit risk

Credit risk on non-derivative financial instruments is the risk that the contracting parties concerned will fail to make contractually agreed payments. The maximum credit risk on non-derivative financial instruments is their carrying amount. The expected credit risk from individual receivables is allowed for by recognizing write-downs of the assets (see also Note 13.).

With the derivative financial instruments used, the maximum credit risk is the total of all positive fair values of these instruments as, in the event of non-performance by the contracting parties, losses on assets would be restricted to this amount.

## Liquidity risk

Liquidity risk is the risk that the Brenntag Group may in future not be able to meet its contractual payment obligations. Due to the fact that the Brenntag Group's business is not subject to any pronounced seasonal fluctuations, there is relatively little fluctuation in liquidity during the financial year.

To ensure that the Brenntag Group can pay at all times, it not only has appropriate liquidity reserves in the form of cash and cash equivalents but also credit lines under the syndicated loan which can be utilized as needed.

In order to identify the liquidity risks, the Group has a multi-annual liquidity plan which is regularly reviewed and adjusted if necessary.

Of the other liabilities to banks, EUR 43.0 million (Dec. 31, 2024: EUR 60.1 million) are secured by non-current assets totaling EUR 37.8 million (Dec. 31, 2024: EUR 59.4 million).

In certain countries (e.g. China EUR 12.9 million (2024: EUR 18.9 million), Russia EUR 6.1 million (2024: EUR 7.3 million), South Africa EUR 8.9 million (2024: EUR 3.3 million) and India EUR 6.1 million (2024: EUR 2.5 million), Brenntag has local cash and cash equivalents at its disposal for cross-border transfers only subject to the applicable restrictions on foreign exchange transactions.

The undiscounted cash flows resulting from financial liabilities are shown in the following table:

| | | Cash flows 2026–2031 ff. | | | | | |
|---|---|---|---|---|---|---|---|
| in EUR m | **Carrying amount Dec. 31, 2025** | **2026** | **2027** | **2028** | **2029** | **2030** | **2031 ff.** |

3.101 Future cash flows from financial liabilities / Dec. 31, 2024

### Derivative financial instruments

The notional amount and fair values of derivative financial instruments are shown in the table below:

| | Dec. 31, 2025 | | | Dec. 31, 2024 | | |
|---|---|---|---|---|---|---|
| in EUR m | Notional amount | Positive fair value | Negative fair value | Notional amount | Positive fair value | Negative fair value |
| Foreign exchange forward transactions and foreign exchange swaps not included in hedge accounting | 901.7 | 1.1 | 5.2 | 1,204.6 | 5.5 | 3.2 |
| Cross-currency interest rate swaps included in hedge accounting | 429.7 | – | 3.4 | 429.7 | – | 41.3 |
| Call option | 26.5 | 10.0 | – | 43.5 | 14.3 | – |

3.102 Derivative financial instruments

## 33.) Related parties

In the course of its normal business activities, Brenntag SE also obtains services from and provides services for related entities. These related entities are the subsidiaries included in the consolidated financial statements as well as associates accounted for using the equity method and their subsidiaries. Transactions with related entities are performed on arm's length terms. The transactions of Brenntag SE with subsidiaries included in the consolidated financial statements as well as between included subsidiaries have been eliminated.

Transactions with associates and their subsidiaries were as follows:

| in EUR m | 2025 | 2024 |
|---|---|---|
| Sales from transactions with associates | 1.8 | 1.8 |
| Goods delivered and services rendered by associates | 0.5 | 0.6 |

3.103 Transactions with related parties

| in EUR m | Dec. 31, 2025 | Dec. 31, 2024 |
|---|---|---|
| Trade receivables from associates | 0.2 | 0.2 |
| Trade payables to associates | – | – |

3.104 Receivables from and payables to related parties

Related persons are the members of the Board of Management and the Supervisory Board of Brenntag SE and members of their families.

### Remuneration of the Board of Management

The total remuneration of the Board of Management consists of three components: a fixed annual base salary, short-term, capped variable cash remuneration (annual bonus) and long-term, capped variable remuneration (long-term incentive bonus). In addition to the above-mentioned remuneration components, the members of the Board of Management receive pension benefits, contractually agreed benefits in kind and other benefits.

The annual base salary is payable in twelve equal monthly instalments. If the service agreement begins or ends during a financial year, the Annual Base Salary for that financial year is payable on a pro rata temporis basis.

The annual bonus depends on Brenntag's business success in the past financial year. It is calculated based on achievement of the targets set for specific key performance indicators for the financial year. Under the Remuneration System 2023, the key performance indicators are organic EBITA (60%), working capital turnover (20%) and earnings per share (20%). An individual performance multiplier is also used to assess the performance of the Board of Management members. The individual performance multiplier for the Remuneration System 2023 is set by the Supervisory Board after each financial year within a range from 0.8 to 1.2. In doing so, the Supervisory Board takes into account the individual financial and non-financial performance. The individual performance aspects may be based on three dimensions: growth, people and risk management. They may include not only strategic and operational, but also non-financial aspects. The final payout amount is capped at a maximum of 200% of the individual and contractually agreed target amount (Cap).

The Board of Management members also receive long-term variable remuneration. Different remuneration systems apply, depending on the year of award and individual contractual arrangements.

The Remuneration System 2023 applies to serving Board of Management members Jens Birgersson (CEO) and Thomas Reisten. Among other components, this includes long-term variable remuneration in the form of virtual shares (Performance Share Units). The number of virtual shares may increase or decrease, depending on Brenntag's long-term performance measured over a four-year performance period. The performance share plan is structured as follows.

The number of virtual shares initially awarded is calculated by dividing the individual and contractually agreed target amount by the arithmetic mean of the Brenntag share closing prices in the Xetra trading system during the last three months before the start of the performance period. If the service agreement begins or ends during a financial year, the target amount for that financial year is calculated on a pro rata temporis basis.

The number of virtual shares finally awarded to the Board of Management member is linked to two financial performance criteria and, via an ESG multiplier, to ESG targets. The two financial performance criteria are Brenntag's total shareholder return (TSR) compared with a global peer group (weighting: 70%) and return on capital employed (ROCE) (weighting: 30%). The sum total of the weighted share awards for each performance criterion is multiplied by the achievement figure of specific ESG targets using an ESG multiplier that may be between 0.8 and 1.2. The resulting total share award is then multiplied by the number of virtual shares initially awarded, giving the number of virtual shares finally awarded to the Board of Management member at the end of the four-year performance period. The number of virtual shares finally awarded is capped at 200%.

The payout amount depends on Brenntag's absolute share price performance over the four-year performance period and is calculated by multiplying the number of virtual shares finally awarded by the arithmetic mean of the Brenntag share closing prices in the Xetra trading system during the last three months before the end of the performance period, plus dividend payments during the performance period. The payout amount is capped at a maximum of 250% of the individual and contractually agreed target amount (Cap).

The Remuneration System 2023 also applies to Dr. Christian Kohlpaintner, Kristin Neumann, Michael Friede and Ewout van Jarwaarde, who stepped down as Board of Management members in 2025.

The Remuneration System 2020 still applies to Henri Nejade and Steven Terwindt, who stepped down as Board of Management members in 2023. It is also applied to the tranches that were awarded to the serving Board of Management members in previous years and for which the performance period has not yet ended.

The amount of the payout for long-term variable remuneration under the Remuneration System 2020 depends on the relative performance of the Brenntag share compared with two peer groups and the absolute change in the Brenntag share price over a four-year performance period. The virtual shares are awarded in annual tranches. Payout is made following completion of the performance period.

The annual virtual shares are awarded on January 1 of each financial year. The number of shares to be awarded initially is calculated by dividing the individual and contractually agreed grant amount by the arithmetic mean of the Brenntag share closing prices in the Xetra trading system during the last three months before the start of the performance period. If the service agreement begins or ends during a financial year, the grant amount for that financial year shall be calculated on a pro rata temporis basis.

The number of virtual shares finally awarded at the end of the four-year performance period depends on two performance criteria that are each weighted at 50%: the outperformance of the total shareholder return (TSR) of the Brenntag share compared with the performance of the MDAX, or, since the 2022 tranche, compared with the performance of the DAX, and the average TSR of a selectively compiled peer group of global competitors.

Target achievement of each performance criterion is calculated by subtracting the performance of the MDAX / DAX or the average TSR of the selected peer group from the TSR of the Brenntag share. If the performance of the MDAX / DAX or the average TSR of the selected peer group equals the TSR of the Brenntag share, target achievement is 100%. If the TSR of the Brenntag share outperforms the MDAX / DAX or the average TSR of the selected peer group by 25% or more percentage points, target achievement is 150%. If the TSR of the Brenntag share underperforms the MDAX / DAX or the average TSR of the selected peer group by 25% or more percentage points, target achievement is 0%. Values in-between are determined by linear interpolation. Overall target achievement is calculated by multiplying the target achievement figures of the two performance criteria by their respective weightings and then adding together these two weighted target achievement figures.

The number of virtual shares finally awarded at the end of the four-year performance period is calculated by multiplying the number of virtual shares initially awarded by the overall target achievement.

The payout amount is determined by multiplying the number of virtual shares finally awarded by the arithmetic mean of the Brenntag share closing prices in the Xetra trading system during the last three months prior to the end of the performance period, plus dividend payments during the performance period. The payout amount is capped at a maximum of 200% of the individual and contractually set target grant amount (Cap).

The members of the Board of Management receive a fixed annual amount for the purpose of building up pension entitlements. The annual amount made available is paid in twelve equal monthly instalments, in each case at the end of the month. If the service agreement begins or ends during a financial year, the annual amount for that financial year will be granted on a pro rata temporis basis. The Board of Management members may decide at their own discretion how to use the corresponding amount for the purpose of building up pension entitlements.

The members of the Board of Management also receive benefits in kind and other benefits, such as a flat-rate mobility allowance.

The following table shows the recognition of the Board of Management remuneration for the Board of Management members serving in each financial year:

| in EUR m | Dec. 31, 2025 | Dec. 31, 2024 |
|---|---|---|
| Short-term benefits | – | 0.6 |
| Termination benefits | 0.3 | – |
| Share-based remuneration | 5.8 | 4.3 |
| **Total** | **6.1** | **4.9** |

3.105 Liabilities recognized for Board of Management remuneration in accordance with IFRSs

There are no defined benefit obligations for the Board of Management members serving in financial year 2025.

The service agreements of the Board of Management members end automatically on specified dates without any notice of termination being required. The employment of Board of Management members may only be terminated prematurely for good cause or by mutual agreement. If employment is terminated prematurely, the service agreement limits any severance pay to the value of twice the total annual remuneration, but no more than the amount of remuneration that would be paid until the end of the term of the service agreement. As at December 31, 2025, the maximum amount of severance payable would have been EUR 23.7 million (Dec. 31, 2024: EUR 19.4 million). A post-contractual non-compete clause has been agreed with the Board of Management members who are incentivized under the Remuneration System 2023. The post-contractual non-compete clause generally applies for a period of 24 months after the termination of the service agreement. During this period, these Board of Management members receive a continuous payment amounting to 75% of their annual base salary. Any earnings pursuant to Section 74c of the German Commercial Code (HGB) are deducted from this payment. There are no separate change-of-control arrangements.

For former members of the Board of Management, the present value of defined benefit obligations is EUR 13.3 million (Dec. 31, 2024: EUR 14.2 million) and the fair value of plan assets EUR 10.7 million (Dec. 31, 2024: EUR 10.7 million). In this context, the capitalized surrender value of pension liability insurance is EUR 10.7 million (Dec. 31, 2024: EUR 10.7 million). In financial year 2025, expenses recognized for pension commitments (defined benefit plans) to former members of the Board of Management amounted to EUR 0.0 million (2024: EUR 0.0 million).

In accordance with the German Commercial Code (HGB), the total remuneration of the Board of Management members serving in financial year 2025 amounts to EUR 7.3 million (2024: EUR 7.1 million).

Of the total remuneration, an amount of EUR 3.3 million (2024: EUR 2.9 million, in each case the fair value at the grant date) is attributable to share-based remuneration programs. The number of virtual shares in this context is 64,928.

The total remuneration recognized for former members of the Board of Management in financial year 2025 amounted to EUR 3.6 million (2024: EUR 0.2 million) in accordance with the German Commercial Code (HGB).

### Remuneration of the Supervisory Board

The remuneration of the Supervisory Board comprises purely fixed remuneration.

The members of the Supervisory Board each receive annual fixed remuneration in the amount of EUR 130.0k (Dec. 31, 2024: EUR 130.0k) in addition to reimbursement of their expenses. The Chair of the Supervisory Board receives base remuneration of EUR 325.0k (Dec. 31, 2024: EUR 325.0k) and the Deputy Chair EUR 162.5k (Dec. 31, 2024: EUR 162.5k) per year. The Chair of each of the committees established receives an additional EUR 125.0k per year and every other member an additional EUR 50.0k per year.

The total remuneration of the members of the Supervisory Board due in the short term amounts to EUR 1.8 million for financial year 2025 (2024: EUR 1.7 million).

The Supervisory Board remuneration system and the remuneration of each member of the Supervisory Board are detailed in the remuneration report.

The following table contains the remuneration of the Board of Management and Supervisory Board members serving in financial year 2025:

| in EUR m | 2025 | 2024 |
|---|---|---|
| Short-term benefits | 6.2 | 5.8 |
| Termination benefits | 3.0 | – |
| Share-based remuneration | 3.8 | –0.4 |
| **Total** | **13.0** | 5.4 |

3.106 Board of Management and Supervisory Board remuneration expense in accordance with IFRSs

Apart from the aforementioned, there were no significant transactions with related persons.

## 34.) Fees for the auditors of the consolidated financial statements

The following fees for the services of the auditors of the consolidated financial statements, Deloitte GmbH Wirtschaftsprüfungsgesellschaft, Düsseldorf, and companies in Deloitte's global network were recognized as expenses:

| in EUR m | 2025 | 2024 |
|---|---|---|
| Financial statement audit services | 8.5 | 9.4 |
| (of which in Germany) | (2.3) | (2.3) |
| Other assurance services | 0.5 | 0.6 |
| (of which in Germany) | (0.5) | (0.6) |
| Tax advisory services | – | – |
| (of which in Germany) | (–) | (–) |
| Other services | – | – |
| (of which in Germany) | (–) | (–) |
| **Total** | **9.0** | **10.0** |
| (of which in Germany) | (2.8) | (2.9) |

3.107 Fees for the auditors of the consolidated financial statements

Fees for financial statement audit services for financial year 2025 consist mainly of payments for the statutory audit of the consolidated financial statements, the review of the quarterly reporting and the statutory audit of the annual financial statements of Brenntag SE and its domestic and foreign subsidiaries.

Fees for other assurance services in financial year 2025 relate in particular to the engagement to provide assurance on the Group sustainability statement, assurance services related to Brenntag SE's Board of Management remuneration and the comfort letter related to the extension of the debt issuance program (DIP).

## 35.) Exemptions pursuant to Section 264, para. 3 / Section 264b of the German Commercial Code

For financial year 2025, the following subsidiaries of Brenntag SE are making use of the exemptions pursuant to Section 264, para. 3 and Section 264b of the German Commercial Code:

- Brenntag Holding GmbH, Essen
- Brenntag Germany Holding GmbH, Essen
- Brenntag Foreign Holding GmbH, Essen
- Brenntag Beteiligungs GmbH, Essen
- BRENNTAG GmbH, Duisburg
- BRENNTAG International Chemicals GmbH, Essen
- Brenntag Real Estate GmbH, Essen
- BCD Chemie GmbH, Hamburg
- CLG Lagerhaus GmbH & Co. KG, Essen
- CM Komplementär 03-018 GmbH & Co. KG, Essen
- CM Komplementär 03-019 GmbH & Co. KG, Essen
- CM Komplementär 03-020 GmbH & Co. KG, Essen
- ACU PHARMA und CHEMIE GmbH, Apolda
- Brenntag Global Services GmbH, Zossen

## 36.) Declaration of conformity with the German Corporate Governance Code

On December 17, 2025, the Board of Management and Supervisory Board issued the declaration of conformity with the recommendations of the Government Commission "German Corporate Governance Code" for financial year 2025 as required by Section 161 of the German Stock Corporation Act. The declaration of conformity can be found in the corporate governance statement of the combined management report in Brenntag SE's annual report and can also be viewed at any time on the Brenntag SE website:

https://corporate.brenntag.com/en/about/corporate-governance/corporate-governance-code/

## 37.) Events after the reporting period

At the end of February 2026, Brenntag closed the acquisition of 100% of the shares in Airedale Group, a UK-based chemical distributor and added-value services provider. The acquisition is expected to complement and develop Brenntag UK's service offering and expertise, including blending, formulation and dilution capabilities. Airedale Group operates a facility in the UK which will complement Brenntag's British infrastructure and enhance its portfolio and service offering within the UK and beyond.

The provisional amounts for the purchase price and net assets (excluding acquired goodwill in the amount of EUR 80.4 million) break down as follows:

| in EUR m | Provisional fair value |
|---|---|
| **Purchase price** | **97.6** |
| of which consideration contingent on earnings targets | 2.3 |
| **Assets** | |
| Cash and cash equivalents | 2.6 |
| Trade receivables, other financial assets and other receivables | 14.1 |
| Other current assets | 4.1 |
| Non-current assets | 24.7 |
| **Liabilities** | |
| Current liabilities | 22.3 |
| Non-current liabilities | 54.8 |
| **Net assets** | **-31.6** |
| **Goodwill** | **129.2** |
| of which deductible for tax purposes | - |

3.108 Net assets acquired after the reporting period

Measurement of the assets acquired and liabilities assumed has not yet been completed for reasons of time. The main factors determining the goodwill are the above-mentioned reasons for the acquisition.

The potential effects of the recent escalation of the conflict in the Middle East on our supply chains and procurement markets cannot yet be conclusively determined.

Essen, March 5, 2026

**Brenntag SE**
**BOARD OF MANAGEMENT**

Jens Birgersson Thomas Reisten
